LETTER FROM ASSEMBLYMAN HOAG. STATION NEW YORK, ASSEMBLY CHAMBER, ALBANY, APRIL 13, 1883.

During my temporary residence here the past winter, I contracted a severe cold, which for a time confined me to my room and rendered me unfit to attend to my duties. I not only suffered all the inconveniences which usually attend a heavy cold, but was afflicted with a tightness in the chest, accompanied with a severe pain, which made breathing difficult, and rest impossible. I tried the usual remedies—cough drops, cold compresses, etc., but received no substantial relief until I applied ALCOCK'S PLEURALGIC PLASTER to my back and chest.

These I put on when retiring, and was delighted to find myself much better the next morning. In two days I was well. This, and the experience I have had with Alcock's Plaster in my family, has convinced me that for coughs, colds, sprains, rheumatism and local pains, Alcock's Plaster is the quickest and most effective remedy.

A BIG CUT.

General Reduction of Wages by the Union Pacific.

Every Employee Reduced From Ten to Fifteen Per Cent.

The Union Pacific has from time to time been reducing its working force in Omaha and elsewhere on the ground of economy and the necessity of cutting down expenses, owing to decreased earnings. A reduction was anticipated, but no one expected for a moment that the cut would be anywhere near so heavy as that announced in a general order which was issued from headquarters in this city yesterday. The circular on this account created considerable surprise, the reduction ranging from ten to fifteen per cent. The order is as follows:

OFFICE OF THE GENERAL MANAGER, OMAHA, MAY 1, 1884. To all Employees of the Union Pacific Railroad and Connected Lines. In pursuance of an order by the directors of the company, wages of all its employees will be reduced, on and after the above date, as follows:

On salaries of \$3,000 and upwards per year, fifteen (15) per cent.; \$1,000 and over, but less than \$3,000, twelve and one-half (12 1/2) per cent., and all below one thousand (10) per cent.

The wages of locomotive engineers and firemen have already been scaled to conform to the basis on other lines; this order will not apply to them.

A SUNDAY WALK. A Walk Around the City and What Was Seen by a Reporter.

Sunday was a beautiful day, and tempted by the warm sunshine and the fresh air, a Bee reporter started out for a quiet stroll around the city. Bear in mind that reporters always walk. Not because they can not afford to ride, no, not by any means, but they always prefer to walk because—well, because it makes their feet sore to ride. That is about the only reason that can be given for a reporter's desire to walk.

The first thing noticed was the large number of people upon the streets. People walking, people riding in carriages, on horseback, on bicycles, in the street car and in almost every conceivable manner. Everybody seemed to have but one object in view and that was enjoyment.

Strolling up Davenport until Eighteenth street was reached a stench greeted the reporter's nose, which made him grasp that organ with both hands, while his stomach gave evidence that a war was taking place within. Upon looking around, the cause of this foul smell was seen. In the ditch lay the carcasses of a large tom-cat, which must have lain there for at least three days, for it was bloated to nearly twice its natural size. On the corner of Eighteenth and Cass lay two more deceased members of the feline tribe. Three dead cats within two blocks and the reporter was not out looking for cats either.

In the western portion of the city, large heaps of manure and offal were dumped upon the common, and there left to give forth its sickening odors and breed disease and death. Many of the alleys were also noticed to be filled with the filth and garbage which had accumulated during the winter, and under the softening influence of the warm sun gave forth anything but a healthy perfume. Many of the principal streets were observed to be half filled with old wagons and claps traps of all kinds, presenting a decidedly sloshy and untidy appearance.

But notwithstanding all these bad and obnoxious things, many good things were noticed. In hundreds of yards, houseplants had been imbedded in mother earth, and the blossoms gave forth a rich perfume pleasing to the nostrils. The lawns about the city are being fixed up, and have put on their beautiful coat of green, and the poor man can walk up and down the streets, and see his children and enjoy, in a measure, at least, the bounties and blessings of the rich.

Upon every hand the march of improvement is noticeable as never before, and the present season will mark such a stride in Omaha as was never before seen in any one year.

Young Men, Middle Aged Men and All Men who suffer from early indiscretions will find Allen's Brain Food, the most powerful invigorant ever introduced, cures restored by it. No more relapse. Try it; it never fails. \$1.16 for \$5.—At Druggists.

A Denial. To the Editor of THE BEE. Please publish the following, which I trust will be a full denial of the article in this morning's Herald, in which it stated that there had been a great change in the appearance in and around Rasmussen's milk dairy. It states first, the cows have been removed, which is true, but because they could no longer wade through the yard on account of the great depth of manure. Next that there had been six inches of dirt spread over the yard, while the truth is there is not over two inches and some parts not even hidden, and the north half, which is nearly as foul as the south, has not been covered at all. Next about the whitewashed buildings. Let me say as one living in the nearest to the yard that I have yet to see where a whitewash brush has been applied to anything. Trusting that this may be the means of calling the attention of the marshal to what we believe to be his duty I remain respectfully, Omaha, April 29, 1884. F. Ewens.

Connubial Bliss. Tuesday morning at 6:30, David Doyle and Miss Kate Hogan were united in marriage by the Rt. Rev. Father O'Connell, at St. Philomena's cathedral. Mr. Price and Miss Rosa Donahue supported the young couple. A reception was given last evening at the home of the young couple, on Twelfth street, between Cass and California streets.

The B. & M. Wreck. A collision occurred upon B. & M. road at Cedar Creek, at an early hour yesterday, full particulars of which will be found in our special dispatches. The through train of the B. & M. road went out yesterday on Valley and Louisville.

A Brilliant Performance at the Academy of Music last Night.

Evans, Bryant and Hoy's "Meteors" closed a two nights engagement in the Academy of Music last night. There was a large audience in attendance and it was, by all odds the best attraction which has been played in the Academy in many a month.

The programme was opened by the Warners, Ed, and Maud, in operatic and character interviews. They are both excellent fine, and scored a big hit. The French twin sisters, captivated the audience with their dancing. They are not only excellent dancers but are elegant dresses, their changes being very rapid, and each costume seemed more rich and beautiful than the one preceding.

Conroy and Dempsey, in their musical specialty, "Life's Pictures," were prime favorites and were loudly encored.

Bryant and Hoy followed in their latest effusion, "The Country Nig." Of these two gentlemen it is not necessary to speak. They are too well known to need any particular mention. Suffice it to say that they are even better than ever before.

Hallen and Hart, in their first prize ideal entertainment, proved themselves to be Miss Ella Werner, in her swell impersonations was applauded to the echo and was greatly in favor with her auditors.

The performance concluded with that most excellent after-piece, "The Book Agent." Mr. Chas. Evans, the irrefragable, appeared as a fair sample of the modest and truthful book agent. The audience was convulsed with laughter until they could laugh no more and scream after scream made the old Academy echo and re-echo. It is the funniest piece seen upon an Omaha stage in long time.
