placed in first class condition. -Saturday Mr. E. M. Stenberg received a for \$3,000, the amount due Mrs. A. M. Chad wick upon a certificate held by the late Judge

A. M. Chadwick. -The May term of the U. 'S. circuit and district court convenes this morning. The different hotels show a crowded flist of lawyers in the city from the interior towns called

bere on business before the court. The sewer trench has been finished as far up Farnam as Tenth street and the pipe is being put in. The trench is from fifteen to twenty-three feet deep, and along the block between Ninth and Tenth streets water has been reached.

-The hotels are crowded to their utmost capacity, so much so that the clerks have been obliged to give up their rooms and seek sleep ing quarters outside.

-An official circular issued Thursday announces the appointment of Samuel Phillips assistant general freight agent of the Missouri Pacific railroad, to fill the vacancy occasioned by the resignation of J. J.

Rogers.
—An official circular has been issued by Col, J. F. Barnard, general superintendent of the Kansas City, St. Joseph and Council J. R. Hardy from the position of general agent to that of assistant superintendent, with headquarters at Kansas City.

—A gang of young toughs are giving a great deal of annoyance in the west end of town. They delight in plagueing the ladies and one of the lady residents of that section has become so exasperated as to arm herself with a shot gun and will give the young villains a warm reception should they pay her another

-A very pleasant surprise party took place Friday eve at the residence of Mr. and Mrs. Patrick Manning, on St. Mary's avenue, the occasion being the eight anniversary of their marriage. About fifty persons were present, and all seemed to enjoy the occasion. Music and dancing were indulged in to a late hour, when all dispersed wishing the host and hostess many happy returns of the day.

-It is expected the Kenesaw cut off, the new Burlington cut off, to Denver will be completed and trains running regularly by July 1. The new line is completed from Kenesaw to Holdridge, and only the twenty miles between Holdrege and Oxford remain to be constructed. The cut off will shorten the Burlington & Missouri between Denver and Omaha about forty miles, and save over an hour running in

-A young man named William McDonald met with a serious accident at the corner of Sixteenth and Webster streets Friday. He was riding along upon a horse's back, and when the above place was reached, the horse slipped and fell, with McDonald underneath. McDonald's leg was badly broken. The horse speedily arose and ran away. Luckily for McDonald, the stirrup strap was broken, thus releasing him, or he would have been

To the Editor of THE BEE. The following is taken from The Eve-

ning Dispatch of the 2d inst:

We, U. P. railroad employes, of shop No. 2, after a careful, thorough and candid enquiry into the matter, conclude that the writer is mistaken, or else he is a willful liar. If the former, he is a very unsafe guide for mechanics in conducting a "labor newspaper;" if the latter, he must have known the statement was untrue, which knowledge goes to complete all that is necessary to a lie. The writer can chose which he will accept. THE GERMAN THEATER.

Mr. Hubert Molchin's Big Benefit Last Night.

It is evident that Mr. Molchin is great favorite with frequenters of the dozen men and the handling of a million German theater judging from the unus- dollars deposits. The parlor, 14 by 22 politan, ual concourse of people that assembled at feet, stands in the rear and adjoining this the German theater last night.

The play presented last night was Karl Gutzko's popular tragedy, "Uriel Acosta" and it must be admitted "by all fair minded critics that the piece was splendidly played. Mr. Molchin sustained the title role in his usual captivating style and he was greeted with enthusiastic applause throughout the play. At the conclusion of the second act At the conclusion of the second act
Miss Emma Brandt stepped on the stage
and in the name of the patrons of the
German theatre presented Mr. Molchin
with a very handsome gold watch and
chain. She also made a very nice little

speech, which was received with vocifer-ous applause.

Mr. Puls, as Manassee, made a great hit, and Mrs. Baurers, as Judith, sur-passed herself. The character of De Silva, the physician, fell to M. Pechtel, who acquitted himself first class, and was loudly applauded. Mr. Niemann, who made his first appearance in the city, was well received, as was also a Mrs. Nie-

. The remaining rol es were all well sustained and the performance was a great success throughout.

Subserving a Charitable End.

The executive committeee appointed by the striking employes of the U. P. railway on last Thursday night, from its ten and twenty five cent collections raised the sum of \$73.50. Of this \$36.60 was disbursed for telegrams and the use of the Academy of Music. The balance, \$35,90, was donated by the committee to \$35.90, was donated by the committee to St. Joseph hospital. The committee called at the hospital and turned over their balance to Sister Superior. The visitors were shown through the various departments and were heartily thanked by the sisters for their substantial do-

nation.

A vote of thanks was also tendered the merchants of the city for contributing the money necessary for the rent of the hall Thursday night.

"Bee" Office.

The equipment of THE BES press room has been reinforced by two Dexter folders, which have been attached to one of our double cylinder presses. These machines work in the most perfect manner, and we are so well satisfied with them that we have ordered two more for our other double cylinder press. We have investigated the folder question quite thoroughly, and are convinced that the Dexter is by all odds the best machine now manufactured.

THE BEE was the first paper in Nebraska to introduce folding machines. The first machines that we had, had to be fed first machines that we had, had to be fed by hand. The Dexter, however, feeds itself directly from the press, thus saving both labor and time. It is an ingenious contrivance, and it in operation is well worth witnessing by those who are inter-ested in such matters. The paper is carried from the printing press to the folder by tapes, then folded, pasted and trimmed with great precision and ac-curacy. If the press-feeder is careful the paper falls into the trough of the

folder clean and neatly trimmed, folded and ready for delivery. The machine is very simple in its construction, occupies very little room compared with the pond-erous machines formerly used, takes very little power to run it, and, so far as we can judge, is not liable to get out of order. It excels any folder we ever saw in the precision and beauty of its motion, and we recommend it to all newspapers. It is made by the Dexter Manufacturing company, at Des Moines, Iowa.

Said a shop hand, "Even at the reduction most of us get at least \$1.80 cents a day, while the laborers through the city get but \$1.75." Another said, "Since they increased the time we get more money at the end of the month than we did under the eight hour system."

Without doubt the sentiment of the best portion of the workmen is favorable to recurring work, and was and has been against a strike. Any one who will talk with the employes will find this to be the case, notwithstanding the Bre's communistic utterances to the contrary. Rosewater has in times past injured this city by his false position and lawless sentiment, and is doing all in his power to stir up turmoil and make trouble among laboring men.

We, U. P. railroad employes, of shop custom the guests were invited to sit down to a sumptous repast, which in extent and variety equaled a banquet, and for which on behalf of the company the writer would return sincere thanks as well at for other courtesies of the evening, all of which made it one of the most pleasant parties that Saratoga has participated in for some
