THE PRESIDENCY. ARTHUR.

Special Dispatch to the BEE. WASHINGTON, May 25 .- It is claimed at the white house that Arthur is sure of 356 votes on the first ballot. The tables published in some papers giving him 375 votes on the first ballot are not pronounced correct. In addition to the 356 votes which the president expects to get on the first ballot, he has a list of 74 delegates checked off as sure to vote for him on the second ballot.

An editorial in the New York Sun in favor of tendering Tilden the demo-cratic Presidential nomination is the subject of a good deal of talk among the democrats in congress. It is generally admitted that the Sun speaks for Tilden and it is taken to mean that he wants the nomination. A democratic senator said to day that, from all that he had been able to gather, he had no doubt of Tilden's desire to run. The belief that he had no more doubt as to the ability Tilden will be nominated prevails among the democrats in congress now.

are their figures: First ballot, 340; second, 386; and third, the solid vote of Ohio and Illinois in addition. It is claimed that a delegation of Blaine men from the southern states are going to Chicago and will open headquarters there, gation. They claim the

ANTI-MAHONE DELEGATION from Virginia will be admitted to the convention by the combined votes of the Blaine and Logan men, and of those, 24 delegates are included in the 340 claimed for Blaine. All of this, of course, is the most extravagant bluster, and goes on the principle of claiming every thing in advance in the hope of winning over the trimmers. The Blaine men concede Arthur 280 votes, Edmunds 87, Logan 64 voted elsewhere. At the last election, and Sherman 26.

DON'S DICTUM. IT WILL NOT BE FOR BLAINE.

Special to THE BEE. NEW YORK, May 25 .- The reappearauce of Don Cameron at this time has been variously construed, but no one has yet been able to say positively in whose interest he will exert his influence Colonel F. A. Burr, who is close to the Cameron machine, is of the opinion that

the senator will simply do what he can

" WILL IT BE BLAINE?" "No," he replied; "and I am quite sure the Blaine strength at Chicago will be barren of ideality, so far as Pennsylvania is concerned." There is a curious condition of things in that state. The situation is about as follows: Blaine has much decided strength, partly because Pennsylvania is his birthplace. The be divided into two factions—those who that Fontinelleau is intend to vote for Blaine so long as he is in the field, and those who will take the earliest opportunity to change. This, of ing of Gates. Exciting rumors ran high course, makes the delegation an easy one the past few days, the cause of which

WHEN THE BREAK COMES, and the Camerons will be equal to the occasion. I presume on first ballot Blaine will get two-thirds of the delegation, but the claim that he can hold this against odds first, last, and all time is preposterous. The statement that he controls the delegates at large is also a mistake, for I know positively three of the four are against him. If he holds twenty of the delegates through thick and thin, will surprise me. The

ABROGATION OF THE UNIT RULE s not in his favor, and especially with Cameron as an unknown quantity in the calculation. I can safely say the senator has not yet decided whom to support. He wants a few days for consultation.'

New York yesterday says he expressed his surprise at the enthusiasm he had found in that city for Arthur, and said of the president to carry New York.

WASHINGTON NOTES.

THE NORTHERN PACIFIC GRANTS. Washington, May 24.—The senate committee on public lands to-day decided to report the bills forfeiting the land grants opposite the uncompleted portions of the Northern Pacific main and branch lines and the Atlantic & Pacific railroads. Senator Plumb, chairman of the committee, says it is impossible to calculate the number of acres involved, as in both cases some land was taken up before the charter was granted, and in the case of the Atlantic & Pacific the road was not constructed in the line contemplated. Nominally, the senator thinks the forfeiture of the Northern Pacific will amount to 13,000,000 acres. Senator Slater, who is the author of the bill providing for the forfeiture of the land grants of the Northern Pacific railroad says the actual number of acres forfeited along the line will be about 7,000,000, which is 30,000,000 acres less than proposed by the house committee on public Slater's bill further provides that the lien lands hereafter selected, if accepted by bona fide settlers, shall be sold for \$1.25 per acre for 160 acres.

THE CONGRESSIONAL LOG. Washington, May 25.—To-morrow's session of the house will probably be devoted to the consideration of the Wallace-M: Kinley contested election case. A final vote upon it, however, is not expected before Tuesday. Representative Willis intends to call up the river and harbor appropriation bill whenever the election contest is out of the way, and Randall says he will ask the house to enter upon the consideration of the legislative, executive and judicial appropriation bill as soon as the river and harbor bill is disposed of. It is estimated the latter will consume about three days.

THE LOST SONERINE.

FURTHER PARTICULARS. St. Johns, N. F., May 24.-Following are the only details obtainable of the loss of the French brig Sonerine: The vessel left St. Malo on the 1st of March, laden with salt, provisions and a general cargo, bound for St. Pierre. She had on board nine hands all told and fifty-three pas-sengers. About the 20th of April she was signalled in a drift of ice on the eastern edge of Great Bank. A few days after a strong gale arose from the south west, with various changes, veering, continued into May. On or about the 1st of May her bows and were crushed in by the ice, and sank
