OMAHA DAILY BEE-FRIDAY MAY 30, 1884.

Whether overeating or drinking are made harmless by using Hop Bitters Matters of Interest to Employers and freely, giving elegant appetite and enjoy ment by using them before and removin all dullness, pains and distressafterwards, leaving the head clear, nerves steady, and all the feelings, buoyant, elastic and more happy than before. The pleasing effects of a Christian or sumptous dinner continuing days afterwards.

Indulgence and Excesses.

Eminent Testimony. N. Y. Witness, Aug. 151880.

"I find that in addition to the pure

8

spirits contained in their composition, they rontain the extracts of hops and they fontain the extracts of highly approved medicinal roots, leaves and tinctures in quantities sufficient to render the article what the makers claim it to be, to wit, a medicinal preparation and not a beverage -unfit and unsafe to be used except as a iron; in fact, puddlers are scarce. Amermedicine.

"From a careful analysis of their formula-which was attested under oath-I find that in every wine-glassful of Hop Bitters, the active medicinal properties aside from the distilled spirits are equal to a full dose for an adult, which fact in my opinion, subjects it to an interal revenue tax as a medicinal bitter,"

GREEN B. RAUM, U. S. Com. In. Rev.

Hardened Liver,

Five years ago I broke down with kidney and Liver complaint and rheumatism. Since then I have been unable to be about at all. My liver became hard like wood; my limbs were puffed up and filled with water. All the best physicians agreed that nothing could cure me. I resolved to try Hop Bitters;"I have used seven bottles; the Hardness has all gone from my liver, the swelling from my limbs, and it has worked a miracle in my case; otherwise I would have been now in my grave. J. W. MOREY, Buffalo, Oct. 1, '81.

Poverty and Suffering. "I was dragged down with debt, poverty and suf-fering for years, caused by a sick family and large bills of doctoring. I was completely discouraged, until one year ago, by the advice of my pastor, I commenced using Hop Bitters, and in one month we were all well, and none of us have seen a sick day since, and I want to say to all poor men, you can keep your families well a year with Hop Bitters for lem than one doctor's visit will cost, I know it." A. WORKINGMAN.

LABOR AND LABORERS,

us up and said:

"Don't believe you kin. There's a

AN IMPORTANT DISCOVERY,

Thermo-Electric Generator Ex pected to Work a Revolution in Telegraph and Mechanics.

INDIANAPOLIS, Ind., May 27.-For about nine days now a thermo-electric generator has been supplying a current of electricity sufficient to operate four wires, two to Louisville. one to Mattoon, Ill., and one to Union City, in this State -the total length of wire in operation exceeding 600 miles. As to the machine itself, all that an observer sees is a copper boiler, of perhaps two-gallon capacity, mounted on the frame of a sewing machine. Underneath the boiler is a coal-oil

lamp which is burning with about the

glass and of blue color The same firm is making wheels and other parts of ma-chinery out of glass, and it is turning out thousands of guides over which silk thread is passed in the process of winding in silk mills. Experiments are now be-ing made to still further increase the desisting of Florida and other parts of the

At present he declines to expose the comof only a few uses to which the thermogenerator can be applied. The small apparatus now in use was made in the presence of your correspondent to oper-ate an engine which would run a swift sewing machine, or keep the press of a country paper going, and furnish light for a half a dozen electric lamps in the bargain, all at a cost of 15 cents a week. A larger machine, it is said, would run the elevator of a first-class hotel and

light every room in the house for a quarter of a dollar. It could also be used for propelling and lighting street cars. In fact, its uses were boundless. There is now only one question to be solved before the success of the invention is determined. It is the one of durability.

Dr. J. L. Pratt, Greenfield, Ill., says: "It is all that it claims to be-invaluable as a tonic in any case where an acid tonic is indicated."

What the Word "Panic" Means,

St. Louis Post-Dispatch. The word "panic" is now appearing in print with such unpleasant frequency Eastern prices. Glass pulleys are driving out metal pul-leys, and a Pittsburg firm is now filling orders for glass pulleys for cable roads. The journals and bearings will also be of glass and of blue color The same firm the leading scientists of this country, and he had also made a name for himself abroad. He did much of the more im-bar of the country has ever told us how many people have den and general fright, but no authority has ever told us how many people have to get frightened to constitute a panic. A bank panic is the expression used when two or three boards of bank directors get frightened so badly that they shut their doors, and a stock panic means that the holders of any stock have suddenly be-come alarmed about the intrinsic value
