SETTLING THE SOUABBLE.

The City Council and the Union Pacific Reach An Agreement.

The Paving Will Now Go On, Street Car Track and All,

A special meeting of the city council was held yesterday at noon, the mayor and all aldermen being present except alderman Seidentopf. The question of paving the street car track was again and FIVE CENTS PER LINE for each subsequent nbrought up. City Attorney Holmes presented his report on the matter. The report consisted of an agreement between the Union Pacific, the city and the pay ing contractors, Regan Rros. and Mc-Gorrisk, the substance being as follows: The Union Pacific is to furnish the new strap rail and have it laid as the paving goes in, so as not to cause any delay The city is to contract with

Regan Bros. to pave between the rails, and one foot outside, with same material and at same price as the rest of the work is being done. The city is to assess the cost up to the property, and the Union Pacific agrees to pay one-fifth of the cost be paid in equal payments at the end of two, four, six and eight years. The Union Pacific agrees that those assess ments shall be a lien on all the personal and also of all the Union Pacific property

The Union Pacific agrees that all tech nicalities shall be construed in favor of the city. The agreement states that the contractors shall be paid by the city the

Clinton, one of Council Bluffs' oldest and most respected citizens, while the bride is the daughter of one who in his life time was one of the formost physicians in the west. Both the contracting parties and the question of whether the city could families have such large circle of friends furnish and relay the strap rails or not. Such were some of the questions sug-

getted by Attorney Holmes. Another hard feature to the problem Clinton is interested in a flouring mill at was the fact that the street car property alone could not be sold for enough to pay for the paving. Under this agreement the Union Pacific offered the additional security of some property.

After some discussion the contract was

agreed to, and the matter at last settled. All voted for it, except Alderman Mynster who voted "no."

This will enable the paving to start up

mmediately, if the Union Pacific keeps its promise to send over the new strap rails at once, and begin laying them so as to keep in advance of the paving contractors. The company say it has some of the rails already on hand which were intended for use in Omaha, but which

will be used here instead. All concede that there is a little legal twisting to evade the law in order to compromise the matter, but the council seemed to see no better way out of the matter, the Union Pacific evidently having the best hold in the wrestle. The council adjourned until

Monday evening. Something for Nothing.
