

THE DAILY BEE.

Wednesday Morning, June 18.

LOCAL BREVITIES.

The noon train west yesterday was composed of eleven cars, and all were well filled. The commencement exercises of Brownell hall will be held this evening in Boyd's opera house. All of the street gangs went to work yesterday morning notwithstanding the fact that it was quite midday. The city marshal has filed his bond in the district court with Chris. Specht as surety. The bond is the same as that of the mayor, \$1,000. The Oregon Short Line was reopened yesterday, all the washouts having been repaired, and the road placed in good order. The hard rain of Monday showed some places in the sewer trenches which had not been properly trapped. They will now be repaired and made good. The Thurston Hose team are thorough-bred. They now propose to go to Santa Fe, New Mexico, to take part in a big tournament to be held in that city July 4th. The feather weight city editor of The Republican was knocked out in one round by the heavy weight city jallor last night. Soft goods, time of round 3 of a second. Joseph Garneau, Jr., states that venomous snakes have been imported from Canada, and placed upon the high school grounds, and that they crawl around there at night. Mrs. St. Julian of 1409 Davenport street narrowly escaped death Sunday night by taking a quantity of carbolic acid by mistake. A physician was called and her life saved. Yesterday was a very warm and disagreeable one from the fact that the ground was damp and the sun hot, thus creating a steam which has been almost intolerable. It is reported that Mrs. Sam Donnelly, whose husband was killed in the discharge of his duties as a reporter on the New York Sun, receives a pension of \$40 per week from that paper. All business blocks now building in this city are being rapidly pushed to completion and the end of this season will show a very material change in the appearance of all the business streets. The Jackson street sewer is being pushed as rapidly as possible, as is also all tributary branches in that sewer district. When the work is completed the sewer facilities in that district will be first class in every particular. In police court yesterday one man for disturbance of the peace was fined \$5 and costs. One plain Slocumb was assessed \$10 and costs. Both were sent up. One vagrant was sentenced to ten days in the county jail on bread and water. Cholera mortus is now here in full force. Green apples have put in an appearance and the small boy will now spend the greater part of his time in holding his stomach with both hands, while the fond and anxious mamma sends hastily for the family physician. Yesterday at one time there were two teams stuck on Farnam street at the intersection of Tenth. Several bad holes are at that point and are unavoidable at present on occasion of the grading of the street. The worst feature of these stuck teams is that they almost invariably block the street car track. The house of Paymaster Brown, of the Union Pacific railway, who lives on west Dodge street, was entered by burglars on Monday night. All the plunder the robbers secured was a suit of clothes belonging to Mr. Brown, but the burglars prepared themselves for another raid by carrying off the night key. There is considerable dissatisfaction among the business men along Farnam street because of the small force of men and teams employed by the contractor. From three to five teams and from fifteen to twenty men is all the force upon the street. There are plenty of men standing around idle and it is hard to figure how it costs any more to hire ten men for one day than to hire one man for ten days. If a larger force was put to work and the street finished up it would be a big help to the business men while the contractor himself would be ahead in as much as he would get his money much sooner. PERSONAL. Yesterday Mrs. Mark Hopkins, widow of the former treasurer of the Central Pacific road, passed through this city, east, in a special car. Mr. W. F. Post, general freight and passenger agent of the Nebraska division of the Union City & Pacific railroad, with headquarters at Fremont, is in this city. George W. Taylor, a prominent young attorney of Brownville, after paying friends in this city a short visit, returned home this morning. Andy Borden the rental and social ticket agent of the B. & M., has gone with his wife to Chicago, where he was called by the sickness of his wife's brother. W. W. Keyser, Esq., one of Omaha's energetic and rising young attorneys, left on Monday last for Austin, Minnesota, where he will marry on Thursday of this week, a Miss Ellis, a lady of rare social and literary attainments of this city. Mr. Harry Gilmore has returned from his trip to Atlanta, Georgia, where he attended the Yarmden's convention for the United States and Canada. He reports an excellent time and a first-class session, at which about one hundred delegates were present. Yesterday Mr. P. J. Nichols, general superintendent of the Union Pacific road, left in his special car for a trip to Fullerton. The object of his trip is to inspect the grading between Fullerton and Cedar Rapids and ascertain how soon rail can be laid. L. E. Cole chief clerk in the railway mail service, located at Burlington, Iowa, was in this city yesterday. Mr. Cole was called to Council Bluffs on official business, and came over here to spend the afternoon with the postal officials in this city. Mr. Chas. F. Stephens, who has been for the past three years with Max Meyer & Bro., starts out for himself and has an office room at Hope's, and has order books there and at Canfield's. Mr. Stephens' skill as a piano tuner has been complimented by no less an artist than Nilsson, and is well known to every one, and he is also favorably known as the proprietor of the Ladies' Amateur Musical Society. DIED. PHILLIPS--In this city, June 17th, at 4:20 a. m., Benjamin Thomas, infant son of Mrs. Caledonia Phillips, age 5 months. Funeral to-day at 8 p. m., from the residence, 815 North Nineteenth street. Friends invited.

THE COUNCIL OBEYED.

The Mayor Sends in His Annual Appointments.

Which are Unanimously Confirmed by the Council.

R. C. Guthrie no Longer City Marshal.

Other Miscellaneous Business Transacted.

At the regular meeting of the city council last evening the room outside the rail was completely filled by those whose curiosity had brought there to see what steps Omaha's aldermen would take with respect to the indicted officials. When this subject had been disposed of for the time being, by the council, a great share of the crowd filed out, apparently satisfied with the result. Roll call found all members present. The reading of the minutes was disposed of by motion.

COMMUNICATIONS AND PETITIONS. From the mayor, giving notice that he had approved certain ordinances passed at the last meeting. Filed.

From same, appointing W. J. Hahn, W. J. Broach, and George C. Bassett appraisers to assess the damages arising from opening Nineteenth street. Confirmed.

From same, appointing J. S. Wright to serve as appraiser on the opening of St. Mary's avenue. Referred.

From same, appointing W. J. Connell city engineer, Thomas Cummings city marshal, M. C. Meany street commissioner, Joseph Redman sealer of weights and measures, P. S. Leisenring city physician, and Thomas McLane acting sewer inspector. Confirmed.

From Omaha gas company, presenting statement of the number of lamps lighted for the first time on Monday. Referred.

From Charles P. Auren, presenting deed to city for right way through lot 4 in block 3 in Armstrong's addition. Referred.

From John B. Faray, presenting deed to city of right way through lot 5 and in block 3, Armstrong's addition. Referred.

From F. Colpeltzer, offering to fill alley between Leavenworth and Marcy streets from fourteenth to fifteenth at eight cents per square yard. Referred.

From H. Kountz, requesting that the fill on St. Mary's avenue be rolled as filled in order to make it compact for the pavement. Referred.

From Truman Buck, presenting bids on the \$70,000 of sewer bonds and \$100,000 paying bonds, only one bid each being received. They were accepted.

From E. F. Smythe as 117 others asking that the office of dog catcher be created. Referred.

From Mrs. A. E. McCaffrey offering to move the dirt in alley of block 5 in E. V. Smith's addition without expense to the city. Referred.

From F. M. Mooney calling the attention of the council to the necessity of a gutter on Davenport street between Jefferson and Twenty-fourth streets. Referred.

From Omaha Gas company making statement of new lamps light for the first time last night. Referred.

From City waterworks company making statement of new hydrants put in. Referred.

From W. H. Hjans presenting the record of judgment of John Cane against the city for \$806 and cost. Allowed.

From Truman Buck presenting the bond of J. Hough as drain layer. Referred.

From Maurice Sullivan, asking to be reimbursed for the loss of his sidewalk. Referred.

From the Omaha Bee and the Evening Dispatch presenting bids for city printing. Referred.

From H. Kountz asking that the grade of Isaac street be established. Referred.

From same urging that the curbing and guttering contractors on St. Mary's avenue be required to begin work at once. Referred.

From T. L. Kimball, presenting the appointment of H. E. Payne, as special policeman for the U. P. depot. Confirmed.

From G. A. Hoagland, presenting protest against the changing of Sixteenth street and declining to accept the award of damages. Referred.

From James Creighton, certifying that the paving in districts No. 8 and 9 had been completed six months and is now in good condition. Referred.

ferred City Attorney Connell's opinion. The plat of Reed's addition was accepted upon recommendation. The committee on claims recommended the allowance of \$300 on Haas' claim of \$1,000 against the city. The report was adopted. The report of the appraisers on the extension of Leavenworth street was recommended to be adopted. The report was adopted. The committee on sewerage, to whom was referred the protest of McHugh & McGavock against the board of public works, reported that it had the right to do as it did, and its action was for the best interests of the city. Adopted. The agreement between the Union Pacific and the B. & M. to build viaducts over Seventh street by June 1st, 1885, was accepted. ORDINANCES. An ordinance, establishing the grade of Madison Avenue. Passed. An ordinance, extending the fire limits of the city. Referred. To create sewer district No. 19. Passed. Regulating the license and sale of malt, spirits and vinous liquors. The ordinance provides for the payment of \$1,000 a year and is intended to take effect on January 15, 1885. This ordinance was drawn up by the city attorney. Read once and laid over. Adjourning until Friday evening.

A COWARDLY ASSAULT. Dan O'Regan Slugged and Terribly Beaten by a Couple of Ruffians. Last night about 12 o'clock as Dan O'Regan, telegraph editor of THE BEE, was standing at the foot of the stairs leading into his office, he was accosted by a couple of burly young men who asked him if there was any chance to get work. O'Regan replied that the case was not full and the show was not very good at present. The conversation was kept up for a short time, when O'Regan asked the strangers to step to the Trivolt and take a cigar with him. They went with him to the bar and as they were standing near it one of them struck him with a sharp instrument and felled him to the floor. They continued to beat him until he finally managed to break away and escape through the back way. He wandered around through the streets until he was found by officer Ruane who conducted him to his office. When brought in he was covered with blood from several wounds and cuts upon his head. Upon examination three cuts were found one of which extended clear across the top of his head and the others from two to four inches in length.

The New City Marshal. Thomas Cummings, the new city marshal, is a gentleman well known in Omaha, having lived in this community for the last seventeen years. During all that time he has been in the employ of the Union Pacific railway company at the shops in the smithing department. He has been more or less in politics for some years past and has always identified himself with the republican party. He has gone into the republican city convention twice the last six years as a candidate for the nomination of sheriff; but each time was defeated. He has the reputation in this city as being a sober and industrious man and his administration of police affairs in this city will undoubtedly be such as the law-abiding people of Omaha demand.

The Belt Railway Commission. The Omaha Belt railway commission yesterday condemned a strip of ground 100 feet wide running through the 30 acre tract belonging to J. N. Windley, just south of the post office, for the right of way for that company. The amount of land condemned was 3-10 acres, and was valued at \$275 per acre. The belt road is now graded from the summit to the north line of the county farm, a distance of nearly two miles. Several car loads of steel rails have been received and the work of track laying will probably soon be begun at the summit.

Post-Office Changes. Postoffice changes in Nebraska, and Iowa during the week ending June 14, 1884, furnished by Wm. Van Vleck, of the postoffice department. NEBRASKA. Established--Athens, Cuming county, Wm. H. Ransom, P. M. Bordeaux, Sioux county, Peter B. Nelson, P. M. Chappell, Cheyenne county, John O'Neill, P. M. Chase, Greeley county, Rebecca A. Lambert, P. M. Phillips Station, Hamilton county, James O. Baker, P. M. Baker, P. M. Potem, Custer county, Jacob Roten, P. M. Swanton, Saline county, Joseph T. Cook. Discontinued--Hooker, Gage county. Names changed--Pilon, Saunders county, to Pilon. Postmasters appointed--Belmont, Cass county, Mrs. Melisinth P. Stone. Sand Creek, Saunders county, John Sidley. IOWA. Postoffice changes in Iowa during the week ending June 14th, 1884: Established--McClure, Clinton county, Geo. T. McClure, P. M. Origin of Ammonia. Ammonia obtained in large quantities by the putrefaction of the urine of animals. --Encyclopedia Britannica. Every housekeeper can test baking powders containing this disgusting drug by placing a can of the "Royal" or "Andrews' Pearl" top down on a hot stove until heated, then remove the cover and smell. Dr. Price's Cream Baking Powder does not contain Ammonia, Alum, Lime, Potash, Bone Phosphates, (prove it by the above test). It is prepared by a Physician and Chemist with special regard to cleanliness and healthfulness. m-w-2m

100 Doses One Dollar. Is inseparably connected with Hood's Sarsaparilla, and is true of no other medicine. It is an unanswerable argument as to strength and economy, while thousands testify to its superior blood-purifying and strengthening qualities. A bottle of Hood's Sarsaparilla contains 100 doses and will last a month, while others will average to last not over a week. Hence for economy, buy Hood's Sarsaparilla.

What is Ammonia. The attention of the public has been called frequently of late to the subject of "Ammonia in food" and the matter is being so vigorously agitated that it necessarily arouses the curiosity of the public at large, and leads them to ascertain, if possible, what it is all about. In the first place the question arises, what is ammonia? whence comes it? Quoting "United States Dispensary" "It was probably originally prepared from putrid urine." Other sources are "coal root, stale urine, guano, etc." The "Encyclopedia Britannica" says of it: "Carbonate of ammonia is obtained in large quantities by the putrefaction of the urine of animals, or the dry distillation of animal matter." "Roscoe's chemistry" states that "when horns or clippings of hides are heated ammonia is given off; hence ammonia was known as spiritus of hornhorn." "The name ammonia is derived from the fact that a compound containing ammonia was first prepared by heating camel's dung." "Ammonia is mainly obtained from the ammoniacal liquors of guano. Guano, the dried excrement of sea birds, and the urine of animals, likewise contain large quantities of ammonia." Farmers know its value as a fertilizer, and physicians know its value as a counter-irritant and powerful stimulant. All physicians claim it among drugs, and as a drug it is a question whether it is not better to let it remain in the hands of physicians and druggists, and leave it out of our food. An article, called "A Baking Powder Trick," contends as a scheme or trick the simple method which has been given through these columns, whereby a housewife may ascertain, without the aid of chemicals or chemical apparatus, whether she is using an article free from disgusting ingredients; and after once convinced of the true source of ammonia, and its presence in an article of food, it is her option whether the use of it is continued or not. The test may be a simple one, but by its means the unsuspecting find that cans of "Baking Powder," stamped on the cover "Absolutely Pure," contain ammonia, and certainly no refined person who has once read some reliable authority on ammonia would be likely to bring some for use in an article containing so inferior a substance. Baking powders have become a convenient, useful and important article in millions of homes, and every manufacturer should prepare and sell only as conforms to the well-known conditions which insure health and safety. There is no difficulty in procuring a baking powder that will stand the "test of the oven" and does not contain ammonia. If an article has merit, and has once been established in a home, its merits will always insure it a place there, but if a product of daily use through unreliable sources is made to appear better than it is, in any means, however simple, by which its inferiority may be judged, ought to be thankfully received by an intelligent consumer. d-w-t.

That Meteor Was a Snide. Many persons undoubtedly read with much interest, and perhaps some few with fear, the BEE reporter's account of that meteor which he declares fell Sunday evening from the western heavens. Others also saw it fall, and admired it as it came in pale, soft light over objects in its immediate vicinity, and a few there were who saw it rise from in front of a certain store at the head of St. Mary's avenue--we were among the last mentioned--who were surprised at a common rocket being taken for a fiery messenger from the blue vaults of heaven.

Malarial Poison. Rome, Ga., May 23, 1883. With the hope that it will reach the eye of other sufferers, I desire to make a statement of my case and my wonderful recovery from death from malarial blood poison by the use of Dr. S. S. (Swift's) Specific. In 1880 I came from the North to take charge of the gas works in Rome, as superintendent, and after the overflow, which occurred in the spring following, I was very much exposed to malarial poison, and in 1882 found my blood so contaminated with the poison that I was forced to give up business. It was treated by the Rome physicians without delivering work in Omaha to the right party. Big commission will be paid. Address Chicago: Portra Co., 26, Metropolitan Bldg., Chicago.

Open Air Concert. On Tuesday evening, June 24th, the brass band of the Musical Union orchestra will give an open air concert in Jefferson Square. The band will be composed of thirty pieces and will be under the leadership of Mr. Harry Irvine. Some very fine music will be rendered as the band is in excellent shape and have been having some splendid practice. The programme will be published in due time and all lovers of good music are invited to attend.

Headquarters for fireworks and flags at Max Meyer & Co. m&e-104,j17

Sale of North Carolina Tobacco is the best.

THE RISING RIVER. The Old Missouri Giving Signs of Another Rampage. Monday afternoon the river began to rise and has continued to do so since. It is not coming up rapidly but slowly and surely.

Some say that it is only an excess of surface water and is the direct result of Monday's hard rain. Others predict that what is known as the June rise has set in and that the water will be a great deal higher before it is any lower. Which theory is correct can only be determined by further developments.

As the water continues to rise a number of anxious faces are noticeable as the scenes of 1851 and 1882, are brought back to memory. It is to be hoped that no such floods as were experienced in those years will visit us this season.

S. or N. C. Tobacco--finest in the land.

Horsford's Acid Phosphate. Incomparable in Sick Headache. Dr. Fred Horner, Jr., Salem, Va., says: "To relieve the indigestion and so-called sick headache and mental depression incident to certain stages of rheumatism, it is incomparable."

The Boss Band. Monday evening a band of 60 pieces was playing in Max Meyer's music-hall. Some excellent music was discoursed and a large crowd gathered upon the sidewalk below to listen to the same.

This large band has been gotten together to attend the picnic of the Musical Union orchestra on Sunday, June 29th, at the Union Pacific park. It is the largest band ever gotten together in this city and will be heartily appreciated. It is under the leadership of Mr. Harry T. Irvine, who is laboring hard to make it a brilliant success.

Army Orders. Recruits Charles Schmidt and Charles C. McIntyre, enlisted at Fort Omaha, Neb., are assigned to the 4th Infantry. Recruit Henry W. Gray, enlisted at Fort Omaha, Neb., is assigned to the 14th Infantry, and will be sent to the station of his regiment at the first favorable opportunity. The commanding officer Fort Niobrara, Neb., will send Private Samuel Whit-

nery, troop D, 5th Cavalry, an insane officer, under escort of non-commissioned soldier and one private, to the insane asylum, at Washington, D. C. The party in charge will report to the Adjutant General of the Army, by telegraph, at least twenty-four hours in advance of their arrival, the probable hour thereof and the name of the railroad depot at which they will arrive in Washington. The Quartermaster's Department will furnish the necessary transportation, and the subsistence department computation of rations for the necessary number of days in advance, at the usual rates, and if it be impracticable to carry cooked rations. By order of COLONEL GIBBON, Assistant Adjutant General.

Fourth of July goods, Fireworks, Flags, Firecrackers, Torpedos, Bucket Lanterns, etc., at Max Meyer & Co. m&e, 104, j17

The warm weather often has a depressing and debilitating effect. Hood's Sarsaparilla overcomes all languor and lassitude.

Casely as a Cutter Monday evening about 8:30 Larry Casely went into an altercation with Tom Connolly on South Tenth street. Words brought on blows when Casely drew a knife and stabbed Connolly twice, once in the arm and again in the side.

Casely says that Connolly called him names, struck him twice, threatened to kill him and advanced toward him with his hand in his hip pocket. He says he did not intend to cut Connolly but only wanted to scare him.

Judge Bencke held Casely until Connolly is able to appear, when he will be given an examination.

NEBRASKA STATE GAZETTEER & BUSINESS DIRECTORY to be issued in July, 1884, price \$4.50. J. M. WOLFE, publisher 120 S. 14th St., Omaha.
