Plans Being Perfected by Which Council Bluffs Will Have Even More of Them,

The drives in and around Council

Bluffs have already won much praise on account of their beauty and shade, and Broadway. I do not go behind the screen have been among the features of the of a prescription case to avoid suspicion. city which have made it known far and near. Plans are now being considered by which there will be still more of these drives. The plan consists in opening up Oakland avenue through the cemetery to the ridge along which there is a mile stretch of ground as level as a flour, and a beautiful shady drive can be made at little expense, and at so nigh an elevation that from almost any point along the entire distance extended views of the surrounding country have formed a partnership and propose can be had. It is also proposed to connect this with Grand avenue, which is one of the most beautiful drives in this and has been away completing his law vicinity, it being the road in the opening of which Colonel Sapp keeper for J. M. St. John & Co., of this took so much interest, and the successful city. Both young men are highly spoken completion of which was so largely due of, and if wishes of friends are of any to his exertions, that it is by many known as Sapp's avenue. It is also planned to H. S. Smullin, who formerly lived connect it with other drives, the plans here, and who, since his return, has been providing in all for eight or nine addiserving as special policeman at the driv- tional drives. Alderman Mynster is ing park, has received word that his taking hold of the matter with considerable enthusiasm, and it is said that the plans meet with the approval and support of others.

It is to be hoped that considerdriving that the claims of Fairmount park will not be overlooked. The city has in this park a rich treasure, Chicago or any park of such natural beauty, and millions more to improve and still further beautify it, and it seems as if Council Bluffs could by the expenditure of a few thousand dolyears known from one shore of the continent to the other. Council Bluffs has in this park and in the natural drives about the city, a wealth of beauty which it shall develop. Every stranger visiting the city is charmed with its beauty, and yet many of the citizens hemselves seem to be unmindful of how richly nature has blessed them. Council Bluffs has a chance to lead in its driver and parks, and lead so easily and so far ahead that no city in this part of the country can ever catch up.

KEEP ON CONDEMNING.

The Board of Health Should Now Forbid the Use of the Court House.

The action of the board of health in condemning the Broadway Methodist church, and forbidding the holding of any more meeting there, on -account of the unsafe condition of the building, has called forth much comment. Opinion seems divided as to whether the building otherwise the rider would doubtless have or not. Some of the Methodist folks been injured. He got his man just the say that they consider the building safe, but that it needed repairing, and that a few months ago they got estimates as to the cost of a new roof and some radical changes in the structure, but the architect, who rather expected the work, made the figures so high that they concluded it wouldn't pay to make over the old church, but that they had better build a would send to Philadelphia and get a regular church architect to get up plans. This sending away from Council Bluffs is said by them to have started the howl

Rev. Mr. Armstrong in his Sunday night's discourse in the opera house, took occasion to touch up the city officials for their condemnation of the church. He said it was evident that they preferred to lose politicians rather than Christians, for the old court house, which had by public sentiment long since been con-demned, was allowed to be used right along, and great political gatherings were held there, where stamping of feet and other uproarious conduct was had, and still the city officials did not get alarmed

about the danger to politicans.

There is a good deal sense in the suggestion. The Methodist church building was condemned as unsafe, before there was a great outcry against it, but there has been for a long time a howl about the court house and its unsafe con about the court house and its unsafe condition. The people tried to get the county to build a new one. Committees found great cracks, which have been described at length by the reporters. The grand jury has officially condemned the jail. In fact there is but one opinion about the old court house. Suppose the city board of health uses, its reverse to city board of health uses its powers to to condemn the old building and forbid its use. Even the Methodists would then orgive them for condemning the church.
