

A CRIMEARD A CURSE.

Congressman Finerty's Cutting Arrangement of Grover Cleveland.

In the Name of the Irish-American Vote,

The Brilliant Legislator from Illinois

Follows the Standard of the Plumed Knight

And Denounces the Democratic Candidate

As an Enemy of the People—A Supporter of Pauper Labor.

Special Dispatch to THE BEE.

Chicago, September 11.—The Citizen, the leading Irish organ of the West, owned by Congressman Finerty, will tomorrow say "Regarding Grover Cleveland as an enemy of the people, it is proven to his satisfaction by his record. Mr. Finerty declares that the election of such a man to the office of chief magistrate of this republic would be a crime, a blunder

AND A CURSE.

It would be the promotion of narrowness, of bigotry and mediocrity, over expanded intellect, tried statesmanship, and unquestioned genius. Without surrendering a principle that he has ever held, without abandoning the people, the honored judge of the vital question of protection to American industries and the champion, accepted and ratified, of a foreign interest on this continent.

AN ENEMY OF THE LABORER

and the mechanic, the ally of the monopolists, the self constituted judge of the constitutionality of the measures, intended to benefit the people, the honored judge of the vital question of protection to American industries and the champion, accepted and ratified, of a foreign interest on this continent.

HE REPROVES JAMES G. BLAINE

because in declaring open for protection against Europe, and free commerce with our American neighbors on and below our southern frontier, he advances the true American policy, and the only one by which our country cannot only remain great, free and prosperous, but also by which she can spread the influence she ought to possess on the two great Atlantic continents and maintain the letter of that democratic Monroe doctrine which says to Europe, "Hands off and of which Mr. Blaine, although a republican is the

TRUST AND MOST GIFTED

living exponent. With him at the head of the nation there would be no fear that the Panama canal shall ever degenerate into a European water way.

McCullough's Bad Condition.

CONY ISLAND, September 11.—Last evening a strange man was discovered attempting to walk the treacherous work of the Marine railway from Manhattan to Brighton Beach. An officer put him aboard a train, when a man recognized him as John McCullough. What was kept on him as it was feared he would commit suicide. After the train started McCullough attempted to jump off, but was prevented. On his arrival at Brighton Beach he complained of his head and the fearful heat of the past few days. It was evident that the eminent actor was suffering terribly, and a close watch was kept over him until he reached his condition. It seems that McCullough fancies he is followed by men who want to kill him. He keeps dodging imaginary foes constantly.

NEW YORK, September 11.—John McCullough, who was reported to have been prosecuted at Manhattan Beach yesterday, said by his friends to be all right to-day at his hotel in this city. The Mail and Express, however, says that he is continued to be tenderly put on board a homeward bound train and sent his blessing and a dispatch to a New York newspaper, spending after his simultaneous recovery. McCullough reached his hotel, the St. James is safely and felt so far recovered yesterday morning that he breakfasted with his manager. Joseph Brooks and proposed to recall his cancelled dates and begin the season next Monday, starting for Chicago this morning. That was, however, impossible, but it was decided that he would appear in the next Thursday playing in Chicago on the Monday following.

The World says:

The sensational stories about John McCullough, the tragedian, are found upon investigation to be utterly without foundation. Mr. McCullough is in the best health and spirits this evening and will start out on his professional tour next week.

to be utterly without foundation. Mr. McCullough is in the best health and spirits this evening and will start out on his professional tour next week.

TELEGRAPH NOTES.

There were only two deaths from cholera at Naples yesterday.

Several physicians of Rome are to be prosecuted for refusing to attend cholera cases. Officials of several provincial towns have been dismissed for neglecting the public health.

Cholera is spreading through the province of Spain.

At Olean, N. Y., yesterday during a thunder shower several tanks of petroleum containing 3,600 gallons were struck by lightning and burned.

John Woessner a prominent citizen and banker of Corpus Christi, Texas, suicided yesterday. No cause is apparent but financial difficulties are suspected.

General Butler and sixteen others speak at an open air mass meeting in New York on the 15th inst.

The Northern Pacific railroad yesterday obtained an attachment against property in New York state belonging to David C. Swan, cashier of the company at St. Paul, Minn. It is charged that Swan wrongfully appropriated \$1,000 the company's money.

In the suit before the New York courts of the People of Illinois against Henry Hill and William Labbo, Judge Donohue yesterday decided the plaintiff should give bond in the sum of \$750 as security for costs.

The Good Templars of Illinois held their state convention yesterday at Bloomington. The total number of prostrations by heat in this city to-day number 18. There were 14 prostrations in Brooklyn, three of which were fatal.

A Shanghai dispatch to the London Times says that the Russian flag ship has been seen anchored in the Korean port, while the fleet remains at Nagasaki, awaiting orders.

THE CARNIVAL OF DEATH.

Among the Vine-Clad Hills and Citron Groves of Italy.

The Terrible Tragedy on Nature's Surrounding Beauty.

The Remorseless Advance of the Deadly Plague.

The Appalling Death Rate at Naples.

Panic and Riot! Render the Law Powerless.

King Humbert's Devotion to His Subjects—The Heart-Rendering Details from All Points.

NAPLES, September 11.—The situation in this city is growing worse. For the 24 hours ending at nine o'clock this morning, there were 957 fresh cases of cholera, and 863 deaths.

All the ministers have earnestly urged King Humbert to leave the city, but the king refuses. The king will visit the popular quarters of the city. While visiting to-day the king met an arch bishop who was upon the same errand of mercy. The meeting of the king and prelate is described as very interesting and touching.

The ministers of the interior and justice met to-day to discuss the various measures for the relief of the sick in the poorer quarters of the town.

A number of butchers have left their work and it was feared that the meat supply of Naples will be stopped, but a firm of army contractors at Capua, has undertaken to furnish ample supply. This panic has extended to the prisons, and criminals confined in the Carcere jail combined to effect their escape, and the military was called upon, and the outbreak was suppressed.

A number of experienced attendants from the hospitals of Marselles are coming to Naples. The minister of war has sent a military detachment from the military medical school to assist the physicians of Naples, and Signor Maylani has handed over to the relief fund the sum collected from an address of welcome in recognition of his public services.

The situation here continues of most distressing character. The dreadful epidemic increases in its ravages, and the fresh cases of the disease are increasing at the rate of the deepest gloom prevails the city. The misery and suffering among the poor is simply indescribable. King Humbert yesterday was prevented from visiting the poorer quarters of the city.

THE SCOURGE THEOPHY ITALY. In this city for the 24 hours ended at 9 o'clock this morning, there were 957 fresh cases and 828 deaths of cholera. In other parts of the province for the same time there were 9 fresh cases and 14 deaths. At Avellino there were 4 fresh cases and 2 deaths; at Bergamo, 11 fresh cases, 9 deaths; at Campobasso, 3 fresh cases, 2 deaths; at Caserta, 13 fresh cases, 6 deaths; at Cosenza, 2 fresh cases, 2 deaths; at Cuneo, 12 fresh cases, 10 deaths; at Genoa, 35 fresh cases, 21 deaths; at Spezia, 20 fresh cases, 17 deaths; at Carrara, 9 fresh cases, 2 deaths; at Livorno, 12 fresh cases, 2 deaths; at Reggio, 2 fresh cases, 1 death; at Neura, Patenza and Salerno there has been one death in each place.

It is announced that a grand trans-continental excursion has been undertaken at the close of the week. The members of the American and British association will be given an opportunity to visit the Rocky mountains at low rates. Tickets to Denver and return, good for thirty days, can be purchased for the remainder of the week at \$95.50 for the round trip, and \$100 for the one-way trip. Visiting Pike's peak, the Garden of the Gods and other points of interest.

The situation is slightly improved. King Humbert to-day again visited the hospitals, and also the camps of the poorer classes. The municipal authorities, with the approval of the archbishop, prohibited all religious processions. Two hundred volunteers offered their services in the cholera hospitals.

Flood Damages in Wisconsin. Eau Claire, September 11.—The Eau Claire and Chippewa rivers began rising at noon, after reaching the unprecedented height of 29 feet, which is higher than the flood of 1880. Every bridge on the Chippewa has gone out, five railroads and five wagon bridges. In this city the loss of property is appalling. No satisfactory estimate can be made at this time. In and between Chippewa Falls and Eau Claire the loss will not fall short of \$1,000,000 and may greatly exceed that sum. The Eau Claire gas company loses three hundred and fifty tons of coal and all the buildings, valued at \$150,000. Business houses on all sides of the two rivers are submerged. Contractors are busy with the reduction of the foundations may be so impaired as to crumble the walls. Two hundred houses have been swept away here. Only one life has so far as heard from.

The Shadow of Coming Events. PRETIBO, September 11.—On account of the depression of trade, Edgar Thompson, of the Steel company, to-day notified the employees that unless they accepted a reduction of wages, suspension of operation will be necessary. The firm employs nearly 5,000 men. The probabilities are that the reduction will be accepted as the number of idle men in this vicinity is greater than at any time during the past ten years. Only about half the mills and glass factories are in operation. There is great distress among the poor and in consequence, the poor-board officials have nearly exhausted the appropriations for outdoor relief and six months more. It is estimated that there are 4,000 vacant rooms in the city, on account of the poorer classes doubling up to lessen expenses.

On the Rampage. ST. PAUL, September 11.—A special to the Evening Dispatch from Eau Claire says that the boom on Point Creek tributary to the Chippewa river, went out late last night, and the water in the river rose rapidly. This, with floating logs carried away the upper bridge of

WAR WANTED.

PARIS, September 11.—Admiral Peyron, minister of the marine and colonies, supports the demand made by Admiral Courbet that the French shall officially declare war with China, as a necessary action to insure the complete success of his naval operations. The figure of the Emperor, the French ambassador to China, received from Tsun Li Yamen, a declaration of war by China, but the ambassador refused to give the document which he presented to the French government. A declaration should be made direct to the French government at Paris.

Electricians Creating a Word. PHILADELPHIA, September 11.—In today's session of the United States electrical conference there was a long discussion upon the subject of adopting the word "watt" as the standard measure of power. A similar proposition was made by the French government, and the Germans objecting to further English innovations in their language, and the French having no letter "w" in their alphabet, Professor Proce, of the University of Paris, proposed to use the word "watt" as a standard measure of power. It was finally arranged that the matter should be referred to a committee to report.

Scientists at Philadelphia. PHILADELPHIA, September 11.—At today's session of the American scientists, Professor Morse reported that the committee in relation to duty on scientific books had every reason to feel assured that great relief may shortly be expected from the government for importation of scientific books to be used in colleges and institutions of learning. A committee was appointed to memorialize congress to supply the means with which scientific researches in the matter of fermentation and its effects can be prosecuted.

A \$200,000 Fire. BALTIMORE, September 11.—The factory of the English furniture works, D. Wilson & Son proprietors, in South Baltimore, burned this afternoon. The walls of the factory fell, besides the machinery, contained a large quantity of raw cotton, and a quantity of lumber, none of which was saved. The proprietors now estimate the damage at \$200,000 upon which there is only a partial insurance. The fire originated in the drying room over the boiler.

Jay Eye-See in Training. KALAMAZOO, Mich., September 11.—Mr. Bither, trainer of Jay-Eye-See, says that the gelding is in the pink of condition. He has been here and about looking on, and expecting a great mile test here Saturday. During the exercises this afternoon Jay-Eye-See showed the most perfect form for a year, and was in the best of health. Each touch as being put on the track, and every effort is being made to lower the record of 2:05.50, which makes no other appearance in Michigan.

Nebraska Prohibitionists. LINCOLN, Neb., September 11.—The State Prohibition convention met here to-day and organized, electing C. E. Bendy, temporary chairman; George E. Biglow Secy. J. G. Miller was selected permanent chairman and Mr. Rowland and G. Wolfenbarger, Secy. J. M. Miller was nominated for governor by acclamation and H. H. Shield, the republican nominee endorsed for Lieutenant Governor. Five St. John presidential electors were also selected.

Washington, D. C., September 11.—The annual meeting of the Women's Christian Temperance Union began to-day at the Garden Hotel. The convention was opened by the election of president for the ensuing year, and then a sketch of the organization and field of work was described. Rev. Mr. Power presided over the exercises, which were addressed by Mrs. Chapin of South Carolina.

Logan at Toledo. TOLEDO, September 11.—General John A. Logan was present this afternoon on the occasion of the tri-state fair association and made a speech to an audience numbering 7,000 or 8,000. He spoke about half an hour upon the commercial, manufacturing and agricultural interests of Ohio and their wonderful growth.

Rapid Transit. NEW YORK, September 11.—A meeting of interested persons, residents of New York and Boston, was held to-day to devise means by which the two cities better to be connected by a line of travel in three hours. It is estimated that the necessary double track road could be built for twenty-five million dollars.

Majority. PORTLAND, September 11.—A special to the Press from Augusta says: The total vote of the state will reach 142,410, and Robie's majority over Redman is 20,515. This is the largest majority ever given a candidate for governor in this state in a presidential year.

Divided Democrats. NEW ORLEANS, September 11.—Dispatches report that the democratic congressional convention of the Fifth district is divided, one faction recommending J. Floyd King, and the others Charles J. Boatner.

I. O. O. F. CHICAGO, September 11.—About 200 members of the Sovereign Grand Lodge, I. O. O. F. met at all portions of the world have arrived and will take special train for Minneapolis to-night, where a session of the lodge will be held.

Home Threatened. ROME, September 11.—Another death, suspected to have been caused by cholera, has occurred in this city.

The Everlasting Morey Letter.

NEW YORK, September 11.—The examination of Henry H. Hadley on a judgment against him, was continued to-day. The counsel for Hadley claimed the proceedings were merely for the purpose of making political capital. Hadley was asked the date of his report to the democratic national committee. He could not remember the date but he would furnish the record of the committee. The next question was as to the nature of the services rendered the committee by Hadley. He answered that John I. Davenport had asked him a similar question in 1880 and that he had gathered up all memoranda on the subject in his possession and in the possession of the committee. He was asked further questions about the money he had received from the committee and said that it was from \$1,500 to \$2,500. If the counsel were fair and just he said they would look at the records he promised to produce, which give all such information in detail. The counsel said he did not want the records. To another question he said, John I. Davenport had in 1881 paid him \$1,500 for such facts as the information he possessed in regard to the Morey letter.

Why we are Sick. No device that can add to the comfort and convenience of a dwelling is omitted in our modern architecture, and money is not regarded when the luxury of money or beauty of personal adornment is in question. Hence we all live in better houses and wear better clothes than did our forefathers. Why should we not take the same better care of our health? Why should dyspepsia, and the train of diseases that follow it, almost unknown in the olden time, be so prevalent now? Simply because of the poisonous and indigestible trash which in these days is forced upon the public as genuine food, or used to adulterate those articles that do make up the daily bill of fare of every household. Our forefathers were content to make more hygienic and honest methods; but the hot competition of the present day and the strife for riches have called forth all the ingenuity of modern science to devise cunning deceptions that shall enable the avaricious dealer to more rapidly increase his profits, even though he destroy the health of the public thereby. The consequence is adulterated, insipid, poisonous and bogus food on every hand.

The people buy these adulterated articles of food because they are cheap, entirely ignorant of their poisonous quality. A few years ago this evil had reached such alarming proportions in England that the public sentiment demanded legislative interference, and parliament enacted the most severe repressive laws. Dr. Small, U. S. A., after an examination recently made of the direction of the war department, concludes that the adulteration of food is as great in this country to-day, and of as dangerous a character as it was in England at the time the reform was made. The outlook so generally in the food of every family has been found more villainously adulterated than baking powder. For the purpose of underselling an absolute pure powder like the "Royal," which has become the standard for purity and strength in baking powders—hundreds of dealers are putting up baking powders with cheap and adulterated cream of tartar containing lime, earth, etc., adding strength by the free use of alum. These powders are sold cheap, but their use is expensive, for they are one of the chief causes of the dyspepsia which the American people are suffering. This species of adulteration, at least, can be avoided by following the advice of Prof. Mott, the chemist to the government, who recommends consumers when purchasing baking powders to select one standard powder, as the Royal Baking Powder, rather than risk purchasing any spurious compounds put upon the market by persons who have no higher motive than dollars and cents.

We hope to see congress take hold of this important matter in a sufficiently vigorous manner to put an end to the whole nefarious business. In the meantime, if people will be so careful to buy the best and purest food as they are to wear the best clothes and build the most comfortable houses, it will not be necessary to ask so frequently the question, "Why are we sick?" Every scientific test has proven the "Royal" to be pure and wholesome.

New York City's Terrible Heat. NEW YORK, September 11.—At 3 p. m. to-day the thermometer marked 76 degrees, at 6 p. m. 73, at 9 a. m. 77, noon 85. The slight fall here yesterday, notwithstanding the little relief, although a light breeze sprang up the people still suffered severely from the effects of the heat. At the corner's office, between the hours of 8 and 12 this morning, there were 25 sudden deaths reported, many of which were directly due to the heat.

He Deserves a Medal. ROME, September 11.—The general health of the city is excellent. The Catholic newspapers unite in eulogizing the bravery of King Humbert during his visit to Naples. A public subscription is opened in Milan to present King Humbert with a medal commemorating his visit to Naples.

An Important Decision. PHILADELPHIA, Pa., September 11.—In the criminal prosecution of a man to-day for cutting the Easter telegraph and telephone wires the judge ruled that the occupant must have the right to cut wires if stretched without permission of the occupant.

A Cold Wave. CHICAGO, September 11.—The heated spell has been broken by a cold wave last night, causing a drop in the thermometer to 52° this morning.

Iowa's New Corn Crop. DES MOINES, Sept. 11.—The first load of new crop corn was marketed here to-day. It was well filled, sound, and very dry, and sold for twenty-five cents per bushel.

CHICAGO MARKET.

Thursday's Business on the Chicago
