

THE OMAHA BEE

Published every morning, except Sunday. The only Monday morning daily.

Subscription rates: One Year, \$10.00; Six Months, \$6.00; Three Months, \$3.50.

Advertising rates: One square, first week, 25 cents; second week, 20 cents; third week, 15 cents.

Business notices: All notices for rent, sale, or other business purposes should be addressed to the Editor.

Copyright notice: All rights reserved. Printed and published by the Bee Publishing Co., Proprietors.

Editorial notice: Communications for publication should be addressed to the Editor and should be accompanied by the name and address of the contributor.

Notice of meeting: A meeting of the Republican State Central Committee will be held at the Millard Hotel on Friday, September 19, at 7:30 p. m.

Notice of meeting: An anxious and defrauded public is still waiting for that promised defense of the school land grabbing ring.

Notice of meeting: Mrs. BELVA A. LOCKWOOD is the presidential nominee of the woman's equal rights party, who is the tail of the ticket? Is it Maria Halpin?

Notice of meeting: JOHN KELLY is not very complimentary to Grover Cleveland. He says, in the New York Star, that the governor was the biggest mugwump at the Elmira state fair.

Notice of meeting: It is a singular fact, says the Kansas City Journal, that no candidate for president of the United States whose surname begins with C has ever been elected.

Notice of meeting: LINCOLN intends to make an effort to secure the location of the proposed soldiers home for the district embracing Iowa, Missouri, Nebraska, Kansas, Colorado, Arkansas, Wyoming and Dakota.

Notice of meeting: The country is suffering from an epidemic of bank defalcations that are certainly tightening up the circulation of money. It is almost time that the directors of banks perform the duties for which they are elected, and not take everything for granted.

Notice of meeting: The population of Canada is being rapidly increased by American financiers who have retired from business, and the emigration of this class of citizens from this country to Canada will continue so long as the present extradition treaty remains in its defective condition.

Notice of meeting: The electrical exhibition at Philadelphia is the fourth exposition of the kind ever held. The others were held in Paris, Vienna and Munich, and the first only three years ago.

Notice of meeting: The "Omaha plan" of issuing bonds for public improvements is very intelligently discussed in the St. Paul Pioneer Press of last Sunday. Our plan meets with great favor at the hands of the Pioneer Press, which strongly urges its adoption by the people of this city.

FIRE INSURANCE.

Mr. McGill, the insurance commissioner of Minnesota, having been asked if the largely increased fire loss in the United States is not disproportionate to the increased value of insurable property, and if so, what in his judgment are the causes and remedy therefore, replied in quite a lengthy letter in the Insurance News of Philadelphia.

Mr. McGill shows that the increase in losses has averaged about \$2,500,000 per annum for the last nine years, the increase being greater than the increased value of insurable property. This is due to over-insurance, which leads dishonest people to become incendiaries in order to realize a good price in cash for their property.

It is also inducement to honest people to become careless and indifferent, because they know they will not lose anything. The principal causes of fires are incendiary and carelessness, and Mr. McGill asserts that 75 per cent. of all fires are from preventable causes.

One great trouble which McGill seems to have overlooked, is that insurance agents are too anxious to have people insure for more than the actual value of their property, simply because they want to make the premium and thus increase their own income.

The anti-monopolists of the First district have placed in nomination as their candidate for congress, Hon. Chas. H. Brown of Douglas county, who has also been endorsed by the democratic district convention.

On Monday the schools were dismissed in order to allow the pupils and teachers an opportunity to visit the state fair, and we understand that another holiday is to be given today for the same purpose.

The state fair managers at their January meeting will receive bids for the location of the state fair for a period of five years. The benefits derived from the fair ought to induce the citizens of Omaha to put in a bid with which no other city can compete.

The "Omaha plan" of issuing bonds for public improvements is very intelligently discussed in the St. Paul Pioneer Press of last Sunday. Our plan meets with great favor at the hands of the Pioneer Press, which strongly urges its adoption by the people of this city.

and a good deal of the opposition to them arises from the class of persons who, in all times especially, are unable to pay their assessments for sewerage and street and sidewalk paving, and perhaps for heavy grading and other purposes, when all these are piled up in a single year.

OMAHA has been blessed this year with several large assemblies. We have had the republican and democratic conventions, the state fair, and the next thing on the programme is a good old fashioned camp-meeting, which the Seventh Day Adventists of Iowa and Nebraska propose holding from September 24th to October 6th.

The Pittsburg Times observes that Governor Cleveland's letter doesn't look to be as long as some others, but that it really covered more ground than any of them. It stretched from the democratic platform to the special providence of God.

The rich have their troubles as well as other people. The daughter of the millionaire Morosini, the confidential agent of Jay Gould, has eloped with her father's coachman, a young mutton-chop whiskered Englishman.

The Anti-monopolists of the third congressional district have endorsed Mr. William Neville and made him their candidate for congress. Will any one be kind enough to tell us what Mr. Neville has ever done for anti-monopoly?

The reason that the Democratic party is not in power, is because it is not fit to govern. A party that always blunders into defeat because it lacks the brains to comprehend its own weakness, fails to take advantage of its opportunities and undercuts its opponents, cannot expect to achieve success.

J. STERLING MORTON has been a Burlington railroad democrat. The Burlington railroad wants to re-elect James W. Dawes. Morton's nomination insures the election of Dawes, fusion or no fusion.

J. STERLING MORTON is bound to ride the democratic party of Nebraska to death. If the democratic party cannot unload its old man of the sea, it may as well go down with him.

Look to the Legislative Candidates. Philadelphia Evening Telegraph (Rep.). But it matters greatly to them (our citizens) who their legislative and executive officers may be.

It is the soul of St. John, instead of John Brown, that is marching on. Senator Sherman has made a generous contribution to the campaign—six thousand words in all.

It is the soul of St. John, instead of John Brown, that is marching on. Senator Sherman has made a generous contribution to the campaign—six thousand words in all.

in the Adirondacks. At that rate he will be as heavy as Hancock was before election, and feel as heavy afterwards.

There are a host of great languages that were more forcible than elegant, made against him at West Point, is a youth of considerable physical strength.

It is said that Mrs. Maria Halpin, the mother of the Hon. Grover Cleveland's fatherless child, is anxious to go upon the stage, as she is only about 50 years of age, and has several young children as well as a quantity of black hair, she is hardly eligible to membership of the Boston Ideal Opera company.

Miss Blanche Correll, a vivacious and fascinating opera bouffe singer, has been engaged in a rough and tumble fight with her manager, a former player by the name of what is usually named Smith. We shall wait with growing anticipation the full particulars of this interesting scrapping match.

What in Dakota county is turning out 20 to 25 bushels to the acre, and oats 45 to 60 bushels. The county seat contest in Dodge county last Tuesday was decided in favor of Fremont by over a thousand majority.

A crook named Charles Beadle was arrested in Plattsmouth, Monday, on the charge of stealing horses in Fremont county, Iowa. The district court of Brown county has sentenced Lucas, horse thief, to two years in the penitentiary, and George Webb for ten years for attempt at murder.

A Nebraska City policeman stood for half an hour at the back door of a store in which a burglar was emptying the till. The homeowner declined to embrace and the courageous cop sought help. He got it but the bird had flown.

The Laramie Boomerang is responsible for the following story of a recent during no-union week: A Fremont, Nebraska, four robbers entered the Union Pacific passenger train, and "went through" an old gentleman. Two of them were captured, the others escaping.

Charley Blanchard, who lives about four miles north of Elkhorst City, was the victim of a shocking accident Tuesday. He was cleaning out a stable, when a horse kicked him in the head, cutting a terrible gash and laying back the flesh from the bone, on the left side of the face.

Misfortunes never come singly but in droves. The road raised by the people of Crots for the family of the young girl for whose violation the rapist was lynched a few weeks ago, has disappeared along with the girl who collected the fund amounting to several hundred dollars.

The Ulysses Dispatch says: "J. G. Rising, of Leaning precinct, has forty acres of potatoes which the claim will yield him 10,000 bushels. He will sell them in the Denver market at a net price of 10 cents per bushel. \$8,000 grown on a forty acre is something of a successful business venture."

Mary Cook, a deaf mute girl of thirteen, was run over and killed by a train near Waukegan, Howard county. She was walking along the railroad near her home, when the train from Logan, or Deering's, ran into her at the usual rate of speed.

First—Wyoming has the largest deposit of hematite iron ore in the world. Second—Wyoming has deposits of lignite coal larger than the total coal area of Pennsylvania.

Third—Wyoming has the only natural deposits of soda in the world. Fourth—Wyoming has a petroleum basin larger than the combined oil fields of Pennsylvania and West Virginia.

Fifth—Wyoming is to have the next boom. It will be big enough to astonish the whole country, and it will come to stay. The iron, the coal, the soda and the oil, he says, I have personally inspected, and know they are here. The boom we will see presently.

It is the soul of St. John, instead of John Brown, that is marching on. Senator Sherman has made a generous contribution to the campaign—six thousand words in all.
