THERE will be a meeting of the republican state central committee at the Millard hotel in Omaha on Friday, September 12, at 7:30 p. m. C. E. Yost, Chairman.

THE democratic party is a party of stupid blunderers. The nomination of it has ever committed in this state.

THE czar and czarina were entertained at a banquet a day or two ago at Warsaw without any dynamite being served up to them on the half shelf. The nihilists wust have been asleep.

The Cincinnati whiskey pool has been re-established. Under the new arrangements distillers are not permitted to go same old story. In nearly all lines of strikers. manufactures pools are made for all sorts of purposes, but mainly to rob the people by forcing up prices. In case of an alleged overproduction the manufacturers combine and shut down their establishments until their products become scarce and a fresh . demand is created for them. Meantime death. their employes are forced to remain idle and are reduced to want. It is the work ingmen that are continually being ground down by these pool combinations. The enforced idleness existing in various parts of the country is caused by this system which is the outgrowth of a calculating and cruel selfishness on the parof capitalists who have the power and facilities of combining and pooling.

THE fencing in of grazing lands and the franculent entries of large tracts of prairie are tresspasses upon the public domain that may be remedied, as the land will always remain and the trespass ers can be ejected, but the robbery of the timbered lands of the United States is something that is a great deal more serious, as the timber can never be recovered or replaced. There are about 85,000,000 acres of timbered land yet remaining in the public domain, and onehalf of this land is located in California, Oregon, Washington, Colorado, Idaho, Montana and Wyoming. The timber is mainly fir, spruce, pine and cedar, and it is constantly being cut down and shipped by miners, railroad tie contractors and charcoal burners. The contractors have for years fraided the government the indications point to an intensely extimber, as have also the proprietors of citing parliamentary canvass.
