Blaine grows up with the country as he comes west.

There is one presidential candidate at least who has escaped the tongue of scandal.

The Herald thinks Blaine Lockwood is beaten.

A war which threatens to send up the price of tea, silk and false hair.

Before another year passes around the crossings on Farnam street.

There is one respect at least John W. Garrett was a model railroad president.

The bunco thieves continue to flourish in Denver.

Mr. Miller has put in an appearance at democratic national headquarters.

Clem Chase will have to copyright his Excelsior.

An order has been issued by Commander Kuntz.

We can't remember one single instance during the five years that we have been here.

DOLAN'S RECORD.

A paper in the Republican Valley has seen fit to challenge the Bee to produce proofs from the records to sustain its objections to the re-election of Senator J. W. Dolan.

At the very outset when the senate was organized it became a question whether the lieutenant governor, who was a notorious monopolist, should appoint the committee.

On a bill to punish usury introduced by Senator Charles H. Brown, of Douglas, whereby the party compelled to pay usurious rates of interest could recover three times the amount paid.

Mr. Dolan voted in sympathy with money sharks that exact from two to five per cent a month from farmers and workmen.

Mr. Dolan voted to postpone indefinitely, which means to kill, the bill to provide for depositing the public funds of counties and cities with a view of giving the counties and cities the benefit of the interest.

Mr. Dolan voted no in other words, Mr. Dolan favored the present system whereby the treasurers and bankers can speculate in public funds at the expense of the tax-payers.

Missouri, and the exaction of exorbitant tolls, and the new managers can form some idea why Omaha does not feel friendly to the Union Pacific.

In spite of all adverse influences of the Union Pacific Omaha has grown and prospered, and we believe that she could have been far ahead of Kansas City to-day but for the obstacles thrown in her way by Dillon and his management.

Another and even more aggravating cause of discontent among our citizens and tax-payers has been the policy of the Union Pacific managers to invade our political conventions with employees and hirelings for the purpose of forcing into the city and county offices men who are entirely under corporation control.

A standing premium has been offered to railroad clerks and shopmen to become members of the city council, county commissioners and legislators.

It is not aggravating enough that the Union Pacific under the semblance of unjust laws, can evade its local taxation while enjoying the benefits and protection of our municipal government?

Must it use its powerful political machinery through avaricious employes to subvert our city government and impose needless additional burdens upon our tax payers by exacting blackmail out of contractors?

The last issue of Bradstreet taking up the percent of failures for the same period in 1882 and 1883 estimates that the total for the year will exceed \$1,500,000.

For the first nine months the number is put at \$,290, as against 7,359 for the same period in 1880.

In November there are to be held two national conventions of cattlemen—one at Chicago on the 13th, and one at St. Louis on the 17th.

Hon. Nathan Blakeley has announced himself as an independent candidate for the state senate from Gage county.

Mr. Woodworth, the clingsome councilman can't understand why it is anybody's business what his deals are with the paving contractors.

upon the legislature to compel the common carriers to transport their cotton and transport farm products and goods at reasonable rates.

We are honest, fair-minded republicans if the democracy or the devil could make matters worse!
