THE St. Louis Globe Democrat in a good republican paper, but it can't swallow a patent-medicine candidate for congress, Dr. McLean, who is charged with having purchased the nomination, he having a "barl" at his command.

IT is only four weeks to election, and it is about time for the local political machinery to be set in motion, but we suppose the republican county central com mittee will as usual postpone the calling of the primaries and the convention until the last moment possible.

THE Republican asks who Stickel is and what he can do? The people of the second congressional district will answer that question on the 4th of November by electing Captain Stickel in place of Jim Laird. The Republican will then learn what Stickel can do.

The Bee is not aware that the transactions of the asphalt company have in any way been nefarious, which accordtous, evil and unjust." We have never defended the asphalt company excepting, when, as we remember, it was assailed by Swceey's hand-bill for black-mailing purposes. In that instance the streets paved with asphalt were represented as being almost impassable, broken up by frost in the winter and melted by the heat of summer. THE BEE never did justify a breach of contract by anybody, least of all by paving contractors. We simply pronounced the hue and cry of the Republican about the Sixteenth street pavement as a mere tempest in a tea pot. The contractors were under bonds to complete their work according to the specifications of the board of public works, and a sufficient amount of money had been retained to cover the cost of the stone blocks along the street railway track. Hence no loss could possibly en-
