"Very bad indeed," was the reply. "Both states are covered with mortgages from one end to the other, and they are both practically a bankrupt country..."

LIBBY PRISON. "How do you find Richmond?" I asked. "A beautiful city," was the reply. "It has many of the aspects of a northern town as far as business is concerned..."

"There is a great amount of cheap land in both of these states, but that of the Blue Grass Region of Kentucky is as high, or higher, than land of the same quality in Ohio or New York..."

"The state house in Richmond," continued this gentleman, "is a fine old building with great rooms..."

"What do you think of Richmond's future?" "It is a beautiful city, and it is a beautiful country, and it is a beautiful country..."

HOW ABOUT MINING LANDS?

"There is a large amount of this in the southern part of the state, and they are now prospecting for coal oil in many localities. They have found some in Tennessee, and I understand they have several fifty-barrel-a-day wells. There is a large amount of fine coal throughout Tennessee, Western North Carolina, Virginia, and West Virginia..."

HOW SOME NORTHERNERS GO SOUTH.

"Are the northern men who do business in the south going there to live?" "Not many of them. Most of them are like myself. They go south to make a fortune and intend to spend it at the north. This is one of the influences that militates against southern development..."

OMAHA!

A GROWING CITY!

The remarkable growth of Omaha during the last few years is a matter of great astonishment to those who pay an occasional visit to this growing city.

Since the Wall Street panic last May, with the subsequent cry of hard times, there has been less demand from speculators, but a fair demand from investors seeking homes. This latter class are taking advantage of low prices in building material and are securing their homes at much less cost than will be possible a year hence. Speculators, too, can buy real estate cheaper now and ought to take advantage of present prices for future profit.

The next few years promises greater developments in Omaha than the past five years, which have been as good as we could reasonably desire. New manufacturing establishments and large jobbing houses are added almost weekly, and all add to the prosperity of Omaha.

There are many in Omaha and throughout the State, who have their money in the banks drawing a nominal rate of interest, which, if judiciously invested in Omaha real estate, would bring them much greater returns. We have many bargains which we are confident will bring the purchaser large profits in the near future.

We have for sale the finest residence property in the north and western parts of the city.

North we have fine lots at reasonable prices on Sherman avenue, 17th, 18th, 19th and 20th streets.

West on Farnam, Davenport, Cumings, and all the leading streets in that direction.

The grading of Farnam, California and Davenport streets has made accessible some of the finest and cheapest residence property in the city, and with the building of the street car line out Farnam, the property in the western part of the city will increase in value.

We also have the agency for the Syndicate and Stock Yards property in the south part of the city. The developments made in this section by the Stock Yards Company and the railroads will certainly double the price in a short time.

We also have some fine business lots and some elegant inside residences for sale.

Parties wishing to invest will find some good bargains by calling on us

Bedford, Souer & Davis, REAL ESTATE BROKERS.
