On leaving Texas he found that his right side was affected as well as the By using Dr. Frazier's Throat and Lung Bal-

sam-the only sure cure for Coughs, Colds, Hoarseness and Sore Throat, and all diseases ever since. He is sensible of the approach of a

This medicine, combining Iron with pure vesctable tonics, quickly and completely fures Dyspepsin, Indigation, Weakness, Impure Blood, Malarin, Chilis and Fevers, and Neuralgia. This an unfailing remedy for Diseases of the Kidneys and Liver. It is invaluable for Diseases peculiar to Women, and all who lead sedentary lives. It does not injure the teeth, cause hendache, or produce constipation—other from medicines do. Reinfehes and purifies the blood, stimulates the appetite, aids the assimilation of food, re-lieves Hearthurn and Belching, and strength-ens the muscles and nerves.

s the muscles and nerves. For Intermittent Fevers, Lassitude, Lack o vergy, &c., it has no equal.

23 The genuine has above trade mark and crossed red lines on wrapper. Take no other. Sade only by SHOWS CHEMICAL CO., BALTIMORE, MD.

The remarkable growth of Omaha during the last few years is a matter of great astonishment to those who pay an occasional visit to this growing city. The development of the Stock Yards-the necessity of the Belt Line Road-the finely paved streets-the hundreds of new Intely paved streets—the hundreds of new residences and costly business blocks, with the population of our city more than doubled in the last five years. All this is a great surprise to visitors and is the admiration of our citizens. This rapid growth, the business activity, and the many substantial improvements made a lively demand for Omaha real estate, and every investor has made a handsome profit.

Since the Wall Street panic last May, with the subsequent cry of hard times, there has been less demaud from speculators, but a fair demand from investors seeking homes. This latter class are taking advantage of low prices in building material and are securing their homes at much less cost than will be possible a year hence. Speculators, too, can buy real estate cheaper now and ought to take advantage of present prices for future profits.

The next few years promises greater developments in Omaha than the past five years, which have been as good as we could reasonably desire. New man-ufacturing establishments and large jo b bing houses are added almost weekly, and all add to the prosperity of Omaha.

There are many in Omaha and throughout the State, who have their money in the banks drawing a nominal rate of nterest, which, if judiciously invested in Omaha real estate, would bring them much greater returns. We have many bargains which we are confident will bring the purchaser large profits in the near future.

We have for sale the finest residence property in the north and western parts of the city. North we have fine lots at reasonable prices on Sherman avenue, 17th, 18th, 19th and 20th streets. West on Farnam. Davenport, Cuming, and all the leading streets

Book of particulars 9 cents

Scientists have long been in doubt as to whether there is any difference between John Naves, a young man near here, had a cancer on his face which had eaten away his now and part of his cheek, and was extending up to his eyes. As a last resort he was put on Swift's Sweific, and it has entirely cured him. His face is all iscaled over with new fiesh, and his general health is excellent. His focovery was wonderful. M. F. CRUMLER, M. D., Exceloration, Ga., August 10, 1884. electricity and magnetism. Everett Gilbert thinks he has settled this question. During a remarkably fine display of aurora borealis he was awakened one night from sleep by a very ussual sensation. He felt a strong inclination to run around, to dance and sing, and was also moved by an irresistable impulse to change his position in bed. He arose Gen'l Insurance Agen and naw an exceedingly brilliant aurora borealis. The effect of electricity is always to produce despondency and cause him to suffer much pain, but on that occasion he felt great exhileration of spirits and suffered no pain. He therefore infers that there must be a wide difference between these two invisible forces. On several similar occasions he has felt the

same kind of wild exhileration, precisely the reverse of the sensations experienced when the atmosphere is charged with electricity.
