

THE DAILY BEE. COUNCIL BLUFFS.

McKay Morning October 20. SUBSCRIPTION RATES. By Carrier - 30 cents per week. By Mail - \$10.00 per year.

OFFICE: No. 7 Pearl Street, Near Broadway.

MINOR MENTION.

See J. Reiter's new fall stock of cloths, Gorham, the photographer at 31 Main street, is now ready for business.

Louie Arnold and C. Walker were arrested Saturday night as pickpockets. President Brooks, of Tabor college occupied the Congregational pulpit here yesterday.

Considering the crowd that was in the city there were few arrests and little disorderliness Saturday night.

Major Anderson and John Y. Stone are expected to address the republicans here next Saturday evening.

The police force was changed about Saturday, officers Austin Dunn and O. Brian now being on duty.

The Council Bluffs district conference of the Methodist churches meets in Sidney, October 28th to 30th inclusive.

C. S. Worley, editor and proprietor of the Dunlap Reporter, has leased that office to G. W. Thompson, of Dunlap.

The new pastor not having arrived there were no preaching services in Broadway Methodist church yesterday.

Leonard, "the kid," who was recently shot by officer Dunn, has been arrested by Ed. Bates on the charge of vagrancy.

Rev. A. K. Bates being absent attending the meeting of the synod of Iowa, the Presbyterians had no services yesterday.

A. J. Loveless, of Walnut, fell down the cellar stairs of Day Bros. & Co.'s store and received some bad bruises and cuts.

A man has been found at Missouri Valley who answers a description of Morgan O'Brien who disappeared from here about a week ago. He is insane.

Sometimes Saturday night thieves broke into Towles's fruit and confectionery store, helping themselves to cigars and went through the till getting a little change.

Near the junction of Main and Pearl street there were nine dozen Chinese lanterns hung out Saturday night. Yesterday morning they had all been stolen but eight.

B. J. Donahoe, of Lewis township, was knocked down near the Crystal mills Saturday night. He thinks he knows his assailant, and says the matter is revenge, not robbery.

John Seville, living about four miles northeast of Walnut, has threshed 164 bushels of wheat from eight acres of land, and says his corn will go sixty bushels to the acre.

Rev. C. F. Tolman, of Chicago, district secretary of the American Baptist missionary union, preached in the Baptist church here yesterday, presenting facts and figures of the work in which he is so interested and soliciting further financial help.

The chief of the fire department did not propose to have the democratic parade spoiled by any false alarm of fire, and so arranged the department so that in case of an alarm the bell should not be struck, but the boys should turn out in silence.

A large number, mostly ladies, improved the opportunity offered Saturday afternoon and evening and viewed the specimens of art in the studio of Misses Hatcher and Walker. The display won much praise from the visitors and was certainly a very creditable one.

George Foster, the conductor on the B. & M. who had his leg cut off at Pacific Junction Friday night, died Saturday noon. His home is at Plattsmouth, and he leaves a wife, but no children. He has been in the employ of the road for eight years, and was not only a trusted employe, but a very popular man among all who knew him.

A Harlan genius, George Ross, has devised a novel pig pen. It is about sixteen by eighteen feet, and made of common fence boards, but at each corner is a wheel. Whenever Ross wants to move his hogs, he drives them into the patent pen, hitches a horse to the pen and drives off. The pen moves, and the hogs necessarily keep moving, whenever they are wanted.

D. B. Smith, a young man who has been clerking for D. J. M. Wood, of Hastings, attempted suicide the other day. He seized a revolver from Wood's coat pocket while the latter was lighting a hanging lamp, rushed into a bedroom, and holding the revolver to his head snapped it twice, but luckily it did not go off. He seemed to be deranged, and steps have been taken to place him under treatment at the asylum, it being thought that he may recover his reason by care and attention.

The attempted wrecking of a special train bearing the Blaine and Logan club from Carson to their home in Avoca caused much excitement in that vicinity. Two cedar ties had been placed across the rails, but the engineer discovered the obstruction, reversed his engine and called for brakes, but was unable to stop before the engine had struck the place. The cowcatcher pushed one of the ties in front of it, but the other, being smaller, slipped under the cow-catcher and slid along in front of the wheels a short distance, and was so firmly held that to release it the engine had to be jacked up.

There were many rash charges made as to who had thus tried to wreck the train, and political motives were assigned, but it appears that a boy, Cal Fry, aged about sixteen, whose father was one of the torch-bearers, was the guilty one. It seems that the boy started with the excruciations but was put off the cars at Hancock, and it is suspected that this act was in retaliation. The boy was held in the sum of \$100 for the action of the grand jury.

DAMNABLE DEEDS.

The Evident Need of a Little Hemp in this County.

The commission of such dark and damnable deeds as were committed in this county last Friday, within twelve hours of each other, and hardly ten miles apart, places this county at the head of the list for the commission of such heinous crimes. In Waveland township about 11 o'clock, a tramp approached the house of Mr. Colvin, and seeing no one present but a young girl about sixteen years old, made inquiry as to where the men folks were. On being informed that they were in the field and would not return until noon, the tramp asked her if she was alone, and receiving an affirmative answer, he attempted to force her by the throat, overpowering her, and committed a crime which makes one forget the laws of the land, and incites him to wreak vengeance on the hell-born brute. He fled from the house, and from the description given of him, was recognized near Oakland by some hunters who saw him attempting to dodge them. A description of the villain was sent to Council Bluffs, where a man who answered it was arrested by detective Beswick.

It would seem that this ought to end the chapter, at least so far as this county is concerned, but it does not, for at ten o'clock that same night, in Carson, if possible a greater crime was committed, the victim being the wife of T. J. Hartwell, implement dealer at that place. Mr. Hartwell went out the street to see the torchlight procession, the republicans holding a meeting there that night, and returning to take his wife to the meeting, found the rooms dark and the door locked. Supposing that his wife had gone to a neighbor's, or with some neighbor to the meeting, he returned to the meeting and remained there some time. On returning home the door was still locked. The door was forced open, and what a sight met his eyes! There, lying upon the floor, unconscious, was his wife, her underclothing literally torn to rags, and marks of violence upon her body and throat, showing plainly that she had defended her honor to the last in an unequal struggle against a brutal, lustful man. Partially as a sign she fought her husband as though she was fighting the villainous hound who had but a short time before invaded her home, but was soon quelled sufficiently to enable him to go for assistance and physicians. During semi-consciousness it was learned that either one or two men came up the stairs and inquired for Mr. Hartwell and on being informed that he was not in, a saw or something of that kind was thrust over her head, and she was drugged. She has been kept under the influence of chloroform since that night. Her being in a delicate condition makes the crime one which it is impossible to find words to condemn.—Avoca Herald.

He is Unable to Die, and Yet His Assailant is Released on Light Bail.

There are many different statements as to how Jim Snodderly came to receive the stab which now causes him to be confined to his bed, with death as by no means an improbability. The bartender at Metcalf's saloon says that Snodderly was causing a row there earlier in the evening, and he made him go out. Later Snodderly and N. H. Shoemaker came into the place, and got to fighting, and when the fight was over, a knife was thrown over his head, but when the two men were separated, Snodderly staggered toward the end of the bar, saying "I'm cut." Shoemaker was arrested and a knife was found upon him, with which it is supposed the cutting was done, although Shoemaker denies it. Snodderly is reported as being in a very dangerous condition, the cut being about six inches long, between the eighth and ninth ribs, and so deep as to expose the lung cavity. Shoemaker has been released on \$400 bonds, to await the result of the injury, a seemingly light bond considering the gravity of the charge.

The causes leading to the difficulty are kept very quiet, but it is claimed that Snodderly and Shoemaker were together getting a countryman full for the purpose of getting away with his money, and that the quarrel arose between them as to the division of the gain. It is said that they had a quarrel before entering Metcalf's saloon, and that the stabbing was done then, but that Snodderly did not realize that he had been cut until after Shoemaker had followed him into Metcalf's saloon, and the fight had been renewed.

The roller skate usually in favor seems to be the one with the 2 1/2 inch brass-lined wheels, the largest in use. H. D. Miller, 1000 Fourth Avenue, Council Bluffs, is the western agent for these skates, and is having an immense success in selling the same. He carries a large and well assorted stock of club, half club and strap skates.

The Commercial Men's Gathering. The wholesale houses of this city are arranging to call in their traveling men, that they may be here at the commercial men's gathering here, on Monday, Tuesday and Wednesday of next week, and all enterprising business houses are expected to join in helping along the enterprise and making the gathering a success. Hands have been engaged, the skating rink secured, and this week business men

and citizens will be solicited to furnish carriages. During the gathering the newspapers of the city expect to publish such information as will show the growth, prosperity and prospects of the city, and all who are in possession of that class of facts will confer a favor on the newspapers by handing them in. By all hands taking hold the gathering will be made a success, and the gathering of such a class of men in this city will prove a great help to the place.

Opposed to St. John. A dispatch from Iowa says the faculty of Tabor college, one of the leading universities of the state, are unanimous for St. John. They are the chief promoters of the movement to place a prohibition electoral ticket in the field.

The Voice, October 9, 1884.—My attention has just been called to the above product of some fertile brain. The item has been widely copied. In reply allow me to say:

First—If they were so unanimous for St. John it would be no dishonor, but the statement is not true.

Second—While every member of the faculty is a prohibitionist, the general sentiment among them is opposed to the organization in Iowa of a separate party in the interest of prohibition.

Wm. M. Brooks, President Tabor College, Tabor, Ia., October 18, 1884.
