

THE DAILY BEE. Wednesday Morning October 22 LOCAL BREVITIES.

—Hereafter the Carpenters' and Joiners union, No. 58, will meet at 7:30 sharp at their hall.

—Judge Wells gave his decision Monday in the case of E. B. French, charged with obstructing a sidewalk and discharged the defendant upon conditions that he would keep the walk reasonably clean.

—New members were received into the First M. E. church last Sabbath. The growth of this church during the past year has been remarkable. New members are received nearly every Sunday.

—The funeral of Mrs. M. E. Foley, wife of G. W. Foley, occurred Monday afternoon at 2 o'clock from her late residence, corner of Davenport and Jefferson streets. She was 37 years of age.

—The distribution of mail from the South Omaha post office began this morning. The mail will be taken to that point once a day from each way on the Fremont run, in closed pouches made up at the depot.

—Some people think doctors' charges are high in Omaha but a suit in the U. S. court develops the fact that a San Francisco doctor charged a Nebraska man \$1,000 for three months' attendance, and got the money.

—The following marriage licenses have been issued by the county clerk: Henry Winterlan and Miss Eliza Grewcock, Nils Nilson and Miss Anna C. Hensen, all of Hiram station; Andrew A. Magnusen and Miss Haunchen Traulsen, both of Douglas county; Peter Swanson and Miss Mattie Larson, both of Irving; Neb., and Marcus McFadden and Miss Minnie Batten, both of Omaha.

—The weather yesterday had a tendency to put a smiling face upon nearly every business man in this city. The dry goods merchants were standing out in front of their places of business, rubbing their hands and chucking in their sleeves as they thought of those big piles of fall and winter goods which begin to disappear in a few days if the cold snap only holds out. The coal merchants are in the best of humor, and can scarcely keep from singing, "Oh happy day." One and all predict good times in the near future if the weather clerk will only keep a stiff upper lip and not be led away on another summer jaunt.

—The wayfarer who visits Council Bluffs and through any unfortunate eccentricity or irresponsible circumstance attracts the attention of the Hawkeye police may indeed be said to travel a "Jericho road." The authorities over there have a pleasant way of snatching up visitors and detaining them in durance ville until they can substantiate or disprove some lurking suspicion that the caller is not all right. Within the past month there have been at least a half dozen victims on this side complaining of the (Marshall) martial rule prevailing in the city over the way, and the consequent suspension of the habeas corpus law. Constabulary vigilance is an admirable virtue in young and thriving communities, but when it comes to carrying it to an extent subverting the fundamental principle of the Magna Charta, the Declaration and all the great Falladiums of our liberties, the metropolitan guardians are overworking themselves.

PERSONAL

Mr. W. A. L. Gibbon returned from a trip to Hastings yesterday morning.

Mr. Harvey Storck, a prominent lawyer of Chicago, is at the Paxton.

Chief Skinner, of the Council Bluffs police force, was in the city yesterday on private business.

Mr. Henry Lee, Fanny Davenport's leading man, and Miss Blanche Weaver, of the same company, are at the Millard.

A despatch was received yesterday by Mrs. D. G. Hull stating that her father, Moses E. Conkling, of Binghampton, N. Y., was lying at the point of death.

S. Sleman, Hastings, Albert W. Crites, Plattsmouth, O. C. Pierce, Valparaiso, A. W. Deltz, A. Sleiner, Ashland, J. K. Vandermark, Valparaiso, William Taylor and wife, Kansas City, Mo., are stopping at the Metropolitan.

Fanny Davenport the eminent actress, and her husband, Mr. Edwin H. Price, are at the Millard hotel. They have a suit of four rooms, and Miss Davenport has remained in her room all day. Her meals have been served there, and she has refused to receive any cards, a fact which a certain reporter in this city found out by rather a hard experience. She is in fine form, having reduced her flesh considerably.

Mr. Harry Walker and wife, of Mt. Pleasant, Iowa, are in the city on a week's visit with Joe and D. P. Rodman, with whose families they are old firm friends. Mr. Walker, who is an Odd Fellow high in office in that fraternity, attends daily his sessions in Council Bluffs. This is Mr. Walker's first visit to Omaha and he is highly pleased with the business "energy and thrift of her merchants.

Mr. Frank Bandle, the catcher of the Union Pacific during the past season, for excellence in which occupation he fell a prey to public familiarity, as all great men do, and was publicly christened "Stub," has been sworn in as a bailiff in the district court and will serve in that official capacity during the present sitting. Frank is a handsome, nice little fellow, a dude and an experienced accountant and will doubtless make a splendid legal functionary.

Married.

TORIN-SMITH—Yesterday morning October 20th; Mr. Patrick H. Torin and Mrs. Elizabeth Smith were united in the holy bonds of wedlock by the Rev. Father O'Connor.

After the ceremonies were over the happy couple resided to their residence on California and Tenth streets, where a bountiful repast was had, congratulations exchanged, and the presents, both numerous and costly, were donated to the bride and groom.

Mr. and Mrs. Tobin left on the morning train for the east to enjoy their honeymoon with the well wishes of all their friends.

JOHNSON-REED.

Monday evening in Chicago Mr. Frank B. Johnson and Miss Maria Reed, both of this city, were united in marriage. The ceremony was performed by Rev. Flewcock, at his residence on Lanley Avenue. The wedding was a quiet affair and was only attended by a few of the intimate friends of the contracting parties. The groom is a son of S. R. Johnson, the wholesale grocer, and the bride is the daughter of Byron Reed. The young couple will take a wedding trip to Mexico after which they will return to this city, arriving here about the 1st of December.

Smoke Seal of North Carolina Tobacco.

LOCAL LEGISLATION. The City Councilmen Sit in a Double Capacity.

Adjourning as a Board of Equalization.

The Vacant Chairs and a Bare Quorum of Members.

At the meeting of the city council last evening as a board of equalization there were present Messrs. Bechel, Purdy, Thrane, Woodworth, Redfield, Haasall, Leeder and President Murphy.

Mr. Leeder was granted thirty days leave of absence from council meetings, stating that he thought it proper to do so until public clamor was over or he was vindicated. Several of the council expressed regret and confidence in his acquittal of the charge of the grand jury.

The report of the committee was presented but its reading temporarily deferred to await the arrival of the city engineer, and the board took a recess and was called to order as

CITY COUNCIL.

The reading of the journal was dispensed with.

PETITIONS AND COMMUNICATIONS.

From the mayor vetoing an item in an appropriating ordinance, viz. To R. T. Shannon & Co., \$1,827.23 for work on North Omaha sewer for the reason that it was appropriated from the wrong fund. Veto sustained.

From E. S. Brennan stating that he considered \$3,500 as about a just compensation for violation of the city's contract with him for curbing and guttering on St. Mary's Ave. Referred.

From James Neville, asking that a hydrant be placed at Twentieth and Harney streets. Referred.

From B. E. B. Kennedy, asking that damages due owners of lot 7 Nelson's addition be paid. Referred.

From the city treasurer, that he had paid damages due from change of grade on Izard street. Filed.

From the chief engineer, asking for a month's leave of absence. Granted.

From taxpayers of Horbach's second addition, complaining of nuisance in alley. Referred.

From Frank Murphy, protesting against the paving of the north end of Sixteenth street between Izard and Nicholas except in compliance with terms of petition, which calls for Colorado sandstone laid on not less than eight inches of sand. Referred.

From Joseph Barker, a similar notice with regard to Nuth street between Douglas and Capital avenue. Referred.

From Schlesinger Brothers and property owners on Leavenworth street asking permission for that firm to erect wagon scales on Leavenworth street near Thirtieth street. Referred.

The deed of Henry A. Delaney and wife for right of way for a main sewer known as West Branch North Omaha sewer. Accepted and filed.

A number of bills were referred without reading.

From the county commissioners asking that a change of grade be made on Farnam street from the Bremer track to the city limits, so as to improve the country road leading west from latter point. Referred.

From E. D. Titus and others asking for a six foot sidewalk on north side of Delaware street and Franklin street from Saunders street to Twenty-eighth street. Referred.

From property owners along St. Mary's avenue protesting against the construction of gutters along said avenue from Forest avenue to Phil Sheridan street or across intersecting streets of a width of six feet. Referred.

Several sidewalk resolutions were referred.

Resolution by Thrane, to advertise for sale Lot 6 Block 26. Withdrawn.

The call for committee reports brought none forth except from a special committee which reported in regard to the proposed paving contract with James Fox for paving on 16th street in district No. 31, and on certain other streets.

They recommended a new contract with Fox and that the paving on 9th street in district 28 be constructed on a sand foundation 8 inches deep and in the other districts a broken stone and sand foundation be used. The report was adopted.

A special committee reported in favor of placing two street lamps on Pleasant street, one on each side. Adopted.

ORDINANCES.

An ordinance levying a special tax to pay curbing and guttering done on South Fourteenth street. Passed.

An ordinance levying a tax to pay for similar work on South Fifteenth street. Passed.

An ordinance levying a tax to pay for similar work on Thirteenth street south of Leavenworth. Passed.

An ordinance levying a tax to pay for curbing and guttering on South Eleventh street. Passed. An ordinance covering similar work on Twelfth street from the north line of Howard street. Passed.

An ordinance levying a tax to pay one half the cost of grading Vinton street from Thirteenth street to city limits. Passed.

An ordinance appropriating money to pay B. T. Shannon & Co for sewer work was rejected on account of error.

An ordinance levying a tax to pay cost of paving Nuth street from Harney street to U. P. right of way south of Leavenworth street. Passed.

An ordinance appropriating various sums to pay for sewer work, curbing and guttering, paving, etc.

STREET CAR ROBBERS. Thieves Break Into The Car Barn And Rife The Cash Boxes.

Monday night thieves broke into the St. Mary's avenue car barn and rife the cash boxes of all four cars. There is generally in each box about \$15 and all of the change was taken. The boxes had been taken from the cars and locked up in a little room adjoining the office.

This room had been broken open and the boxes taken out in the main building and there broken open and pilfered.

Several of the employees of the company were (asleep in the building but none of them heard anything of the intruders.

The car drivers are responsible for their cash boxes and change and if the company hold them strictly accountable for the loss it will fall pretty heavily upon them and especially as winter weather is just putting in an appearance.

It was thought by the police that the gang of thieves and burglars had been driven out of the city and indeed it did seem so as no depredations were reported for some time. If they were driven out for a time they have returned with reinforcements and it will be a good scheme for the citizens of the place to keep a good lookout for them and give them a warm reception whenever they call. If one of them can be filled with cold lead it will have a strong tendency to put a stop to the burglary business for a time.

Seal of North Carolina Smoking Tobacco is the best.

Police Court.

The police court room put on a comfortable appearance yesterday. As the gong marched in they were permitted to hover around a bright hard coal fire which shed a warmth throughout the place which was decidedly cheering.

John O'Donnell was first called upon to give an account of himself and explain why he had been found in a state of intoxication. He said he lived at Missouri Valley junction and was a railroad man. He came up to Omaha for a little fun. He had had it and was now ready to go home. The judge permitted him to depart with a warning.

G. D. Hardy, P. Mahan and Michael McShea were each fined \$5 and costs for having been drunk.

Pat Rockbud, the notorious, was arrested Monday night for beating his wife. This is a favorite pastime with Rockbud and whenever he gets a little full he goes home and amuses himself by giving Mrs. Rockbud a good trouncing. He was released a short time since on a three months' stay in the county jail for a similar offense. This morning his wife refused to file a complaint against him and he was discharged.

YOUNG MAN, READ THIS.

THE VOLTAIC BATTERY COMPANY, of Marshall Michigan, offer to send their celebrated EXAG PLAINES on trial for thirty days, to men (young or old) afflicted with nervous debility, loss of vitality and manhood, and all kinds of troubles. Also for rheumatism, neuralgia, paralysis, and many other diseases. Complete restoration to health, vigor and manhood guaranteed. No risk incurred, as thirty days trial is allowed. Write them at once for illustrated pamphlet, free.

10,000 bushels Choice Winter Apple for sale in car lots or less. Your business solicited.

J. G. WILLIAMS & Co. Nebraska City, Neb.

B. & M. Improvements.

The B. & M. company is pushing the works on its stock yards extension as rapidly as possible, a large force of men being employed. The expectation is that the track will be ready for trains by the middle of December, and the only thing which can cause a delay beyond that date is the non-arrival of the iron bridges for street crossings, which have been ordered from the east. If these bridges arrive by the 1st of December the road will be fully completed by the 15th of that month. The tracks will run through the stock yards and all the facilities for loading and unloading cattle. For the present no depot improvements will be made at the yards or in the city.

The company is at present engaged in building a new round house in the south part of town. It will have accommodations for five engines and will be completed in a few weeks.

Buy B. H. Douglas & Son's Capicum Cough Drops for your children; they are harmless, pleasing to the taste and will cure their colds. D. S. and Trade Mark on every drop.

Judge Bencke at Home.

Judge Bencke returned yesterday from a trip through the state, where he has been making some democratic speeches. He says that he feels highly flattered with the manner in which he is everywhere received. He also says that the school land steal is a bitter pill for the farmers to swallow and they are going to vote against the republican state ticket on that account. He feels very hopeful and says that he is confident that the democratic state ticket will be elected on the 4th of November next.

Two Men burned by Slack.

While drawing off slack from the furnaces at the Smelting Works Sunday morning, William Kinney fell into the hot metal, and was badly burned. He was taken to St. Joseph's hospital for treatment. Kinney is seriously hurt but Dr. Mercer, the attending physician, is hopeful of getting him around in good shape.

Monday morning John Kiezer, another employe at the Smelting Works, was burned by slack, but not seriously enough to require treatment at the hospital.

ROYAL BAKING POWDER Absolutely Pure. This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kind, and it makes the best breads and pastries. Sold in 5 lb. and 10 lb. tins. ROYAL BAKING POWDER CO., 100 Wall Street, N. Y.

THE NEW HOUSE. The Southern Part of the City Fortified Against Fire.

A Beautiful New Engine House Erected at the Corner of Eleventh and Dorcas Streets.

For a long time Chief Engineer Butler has been trying to impress upon the city council the need of more engine houses. At last he brought the matter before them in such a light that they agreed to erect a house in South Omaha.

In accordance with such a plan a lot was purchased at the corner of Eleventh and Dorcas streets, and after it had been properly graded the work of building an engine house was begun.

This new house is now nearly completed, and will be ready for occupancy in a short time. Through the kindness of Assistant Chief Galligan a Ben reporter was driven out to the new house and was permitted to look through it. It is a fine looking frame structure, two stories in height, and 24x60 feet upon the ground, with twenty-four foot studding. The ceilings are twelve feet high, making pleasant and convenient rooms.

The greater portion of the lower story will be used for the hose cart. In the rear two stalls are built and on one side of them is a place for drying hose and on the other is an apartment for grain bins and also a place for the storage of hay. The stall doors are arranged in the same manner as those at engine house No. 2, and will work with the tapping of the gong. In the rear part of the room is a light of stairs leading to the second story. In the second story twenty feet have been partitioned off in the front part for a sleeping room for the fire boys and the remaining forty feet will be used for a hall in which political meetings and gatherings of citizens will be held. From the sleeping room to the first floor is a brass pole, familiarly called by the fire boys "skin pole" which is to aid in the rapid transit of firemen from the second floor to the first when the gong calls them to duty.

Taken all in all it is the best arranged, most convenient and largest engine house in the city and is an ornament to the southern part of the city. In a few days it will be occupied by the fire engine company. Mr. Joseph Vandorfer, now a member of company No. 2 will be foreman and have charge of the new house. He will have but one assistant for the present and the new company will be known as No. 4.

Old "Bolivar," the old bay stallion who has been in the fire department for about eight years and has run tonerally every fire in that time, will be taken out to the new house for active duty there. A single cart will be taken out and will serve the purpose there until a larger one is required. Chief Butler thinks the water pressure will be strong enough in that portion of the city so that an engine will not be needed. The house is plenty large enough to put in an engine in case such a move should be necessary.

When the new house is occupied the city will be divided up into fire districts, and each engine company will have its territory to cover, and yet it will be divided so that at least two hose carts will attend. The boundary lines have not been definitely determined upon as yet, but No. 3 company, which goes to all fires now, will not go down into the southeast part of the city, that part of the city being covered by companies No. 2 and 4. No. 4 will not come farther up Thirteenth street than Jackson and not farther on Tenth street than the railroad crossing. The hook and ladder truck will be run to all fires as heretofore. The new house is plenty large enough to put in a single horse hook and ladder truck and such a thing is now contemplated, in which case the big truck would not be run into the extreme southern portion of the city.

The new house when completed will have cost the city about \$2,500. All the work, except the bricklaying and plastering, has been done by Chief Butler and his men, so that the city have had to pay very little for the labor.

When the new house is in working order the city will be pretty well fortified against the demon fire, except in the extreme western portion. Chief Butler has not yet given up the idea of an engine house at the head of St. Mary's Avenue, and says that if the city will furnish the place on which to build it and the money to do the same, he and his men will go to work and build a house this fall. He is very anxious to have a fine house built where No. 3 now stands, at the corner of Sixteenth and Farnam streets. He had at one time, plans drawn for the building of a house at this place but they failed to materialize. His plans called for a structure which would have cost between \$15,000 and \$18,000, and would have been an ornament to the city. He thinks, however, that it will be only a short time before the council will consider it a necessity to build such a building.

He reports all the apparatus of the department in excellent shape and the department very efficient. By the new house it will be necessary to increase the paid force two men. In speaking of a paid hook and ladder company to take the place of the volunteer Pioneer company, he said that there should be at least six paid men upon the hook and ladder truck, but that he did not expect to get more than three. About the only new apparatus which will have to be bought by the opening of the new house will be some new hose, and not a great deal of that.

The city has been very free from fires of late, but with the first starting of fire in the stores the boys look for many a lively run, but are prepared now for whatever comes.

Creighton College.

Classes re-open on Monday, September 1

Books-Keeping, Banking and Commercial Law.

Practical Surveying and also to Book-Keeping, Banking and Commercial Law.

Five new professors have been added to the faculty for this purpose.
