

THE ANCIENT AND HONORABLE
Business and Politics "Make Things Hum" in Nebraska City.

Substantial Growth of the City—
Campaign Clubs With Cleveland in the Lead.

Special Correspondence to THE BEE.
NEBRASKA CITY, October 30.

Arriving home from my western trip I find Nebraska City—a staid old city—fairly boiling over, politically speaking. Blaine and Logan, Cleveland and Hendricks, St. John, and various other clubs, all combining to "make things hum."

The tandem team, Poor Old Ben and Lovely Belva, are the only presidential candidates who have not a host of admirers putting in all their spare time and change, and a good deal they can not spare, to see who can make the biggest splash and splutter. The democrats seem to be ahead, so far as outward appearances indicate, having a club of over 400 members, a uniformed marching club of 200 members, a glee club, and a drum corps, while the republicans and St. Johnites boast of nothing more than fairly active clubs. However, the republicans are very sanguine, (ditto the democratic brethren), and with a confident air, when they see the democrats out at all their glory and pomp, that they are saving their "hoochie" for a grand celebration next Tuesday.

The St. John folks of this country are working tooth and toenail and propose to pull several hundred votes for the cold water man in this county. They have a weekly organ, the Appeal, ably edited by F. M. Warren, of this city, which is doing much toward influencing the vote of the undecided ones.

As for the vigorous temperance work which is now in progress a new lodge of Good Templars has been organized and is receiving accessions at each meeting and altogether is in a highly satisfactory condition.

The change in the change in the prior, has made many noticeable improvements in itself and office pertaining thereto. A new job press and type has been added to the stock, the paper itself enlarged to an eight page and dressed in a new suit of briefs, the office removed from the old tumble down shanty which it has occupied since the antebellum times to more commodious and elegant quarters in the center of the city, and taken all in all, the improvements in the Press under the new regime of things are too numerous to mention.

The excursion to Lincoln by the friends of J. Sterling Morton last Tuesday night was one long to be remembered by the 600 participants thereof. They had a regular "monkey and parrot" time, several republicans (no democrats) getting full of "Oh be joyful," and proceeding to run the train and all aboard in a characteristic democratic manner. While in a political strain we might mention that the democrats had a pole raising a few weeks ago, and now have an elegant twenty foot flag and pennant ornamenting the top of a seven-story five foot pole on a prominent corner of the principle street of the city.

The Nebraska and Iowa Packing company also let their colors shine in the shape of a large Cleveland and Hendricks flag which floats from a pole in front of their extensive establishment Phoenix like from the ruins of Cotton, Duff & Co's elevator which burned to the ground a month ago, has arisen a new and more commodious building which opened up for business last week. This is the first instance of a case of "hustling" or more correctly speaking business enterprise that we have seen displayed in Nebraska city these many years, and we hope it may be the advanced guard of a spirit of "up-and-be-a-doin'-a-thing" which will forever after characterize the business men of our fair city.

Tom Wymond's elegant new building, corner of Eighth and Main streets is now completed. It will be occupied by Messrs. Lloyd, Weimer & Utterback until the new building which they propose to erect is completed.

All the bar-tenders have donned St. John badges and propose to conduct a vigorous campaign for the long unquenched Kansas between now and the great Tuesday.

The kids of the high school have declared for Cleveland and Hendricks, and have organized a C. & H. club of 32 members, which is now ready to "Rah for Cleveland" on all noisy occasions.

The city council have at last purchased a new fire engine. It has been named the H. F. Cady, in honor of our present mayor.

The Barb Wire works have not yet started, owing to the non-arrival of the machinery.

The Nebraska and Iowa Packing company which quit work several weeks ago, account of their ice supply failing, will resume operations for the winter about November 10th.

The new B. & M. round house is now nearly completed. It is a five-story building and is being very substantially built of brick and stone.

The Nebraska City Distilling Co., made their first mash last week and are now steadily engaged in making and St. John goods, giving employment to a great number of our heretofore unemployed laborers.

A new cooper shop employing about 25 hands has been started in our city. They will supply the cooperage for the distillery and packing company.

A new flouring mill with a capacity of 100 barrels per diem is one of the new enterprises being hatched up by some of our business men.

The new power factory of C. H. Kresen is now completed. It is two stories in height, 25x40 feet with an ell 25x40. Mr. Kresen came to our city a few years ago and commenced business for himself in a little 12 x 20 frame.

Catron, Moore & Enyart is a new real estate and loaning firm with headquarters at the Farber bank.

The grand lodge, I. O. O. F., which met in this city last week, was the means of bringing several hundred strangers to our city, all of whom were most favorably impressed with the hospitality and advantages of Nebraska City.

The governor has appointed Professor Parmelee of the blind asylum in connection with Nebraska to the national association of reform and charities which will be held in Louisville, Kentucky, next month.

Nebraska college under the new management is rapidly advancing to the front rank of the educational institutions of the state. Prof. Carey is the right man in the right place.

Within a radius of about eight blocks in the southern part of our city is situated nearly all of our city's manufacturing interests. The following

DOCTOR WHITTIER
617 St. Charles St., St. Louis, Mo.

A right graduate of the St. Louis College, has long engaged in the special treatment of Chronic, Nervous, Rheumatism, Gout, Gravel, Diabetes, Bright's Disease, Dropsy, Pains in the Back, Lungs, or Spleen, Retention of Urine, Nervous Debility, Female Weakness, Excesses, Jaundice, Biliousness, Headaches, Stomach Disorders, Dyspepsia, Constipation, and Piles.

IT IS BOTH A "SAFE CURE" and a "SPECIFIC."

IT CURES ALL Diseases of the Kidneys, Liver, Bladder and Urinary Organs, Dropsy, Gravel, Diabetes, Bright's Disease, Pains in the Back, Lungs, or Spleen, Retention of Urine, Nervous Debility, Female Weakness, Excesses, Jaundice, Biliousness, Headaches, Stomach Disorders, Dyspepsia, Constipation, and Piles.

Send for Illustrated Pamphlet of Solid Testimonials of Absolute Cures.

KNOW THYSELF.
A GREAT MEDICAL WORK ON MANHOOD!

Exhausted Vitality, Nervous and Physical Debility, Premature Decline in Man, Errors of Youth, and the untold miseries and sufferings which result from these causes. A book for every man, young, middle aged, and old. It contains 125 prescriptions for all sorts of chronic diseases, from indigestion to consumption, and is the only work of the kind ever published. It is the only work of the kind ever published. It is the only work of the kind ever published.

There is no member of society to whom the Science of Life will not be useful, whether youth, parent, guardian, instructor or clergyman. Address the Peabody Medical Institute, or W. H. Parker, No. 4 Buffalo Street, Boston, Mass., who may be consulted on all diseases requiring skill and experience. Chronic and obstinate diseases have baffled the skill of all other physicians, and a specialty: Such treated successfully, NEAL fully without an instance of failure.

THE ONLY TRUE
IRON TONIC

Will purify the BLOOD, regulate the LIVER and KIDNEYS, and VIGOR OF YOUTH. It is the only medicine of the kind ever published. It is the only medicine of the kind ever published.

LADIES
Suffering from complaints of the BLOOD, such as Pale, Thin, Nervous, and Debility, and all the ills which result from these causes. It is the only medicine of the kind ever published. It is the only medicine of the kind ever published.

HEALTH
SEND your address to Swift Specialty Co., Drawer 18, Atlanta, Ga., for an interesting treatise on Blood and Skin Diseases, which they will mail free.

Inflammatory Rheumatism.
I was attacked last winter with inflammatory rheumatism of severe type—my first serious illness since 1876. I had various kinds of treatment with only temporary relief. After seven weeks I was reduced to weight 135 pounds, had no strength nor appetite and was growing weaker every day. In this time I began to use Swift's Specific, and in three days began to improve, and in three weeks I was free from disease and up and about on my regular business. My appetite returned and I rapidly gained my flesh. I have waited this long to be certain that my cure was permanent. I am now as strong as ever.

Wm. W. Wicks, Thornton, Mo., Aug. 16, '94.

A GOD SEND!
I have had rheumatism for forty years, and have been reduced with a few bottles of S. S. I consider it a God send to the afflicted.

J. B. Wicks, Thornton, Mo., Aug. 16, '94.

"OUR BABY"
I have had rheumatism for forty years, and have been reduced with a few bottles of S. S. I consider it a God send to the afflicted.

J. B. Wicks, Thornton, Mo., Aug. 16, '94.

THE ANCIENT AND HONORABLE

Tom Wymond's elegant new building, corner of Eighth and Main streets is now completed. It will be occupied by Messrs. Lloyd, Weimer & Utterback until the new building which they propose to erect is completed.

All the bar-tenders have donned St. John badges and propose to conduct a vigorous campaign for the long unquenched Kansas between now and the great Tuesday.

factories and business enterprises being situated in almost a continuous line following the course of South Table Creek; Nebraska City Distilling Co., gas works, Nebraska City elevator, Nebraska City cooperage, B. & M. round house, soap factory, bar-b wire factory, Nebraska City boiler works, B. & M. freight and passenger depot, Schumaker & Reubens' flour mill, Cotton, Duff & Co's elevator, consolidated tank line company, Chicago Lumber Co., Ross' Brewery, Boyechlag's brewery, Barthling's elevator and Nebraska and Iowa packing company. These several institutions give employment to upwards of 1000 hands and are an important factor to Nebraska City's prosperity.

Prof. Howard Doane, a graduate of Harvard College, is a new addition to the faculty of Nebraska College.

Joe Stillson Potter, formerly editor of the News, is now city rustler for the Press, and the same already begins to show Joe's earmarks. It is usual quota of originalities—i. e. about one per issue being regarded as being Joe's accession to the staff.

Gentleman George, of Ohio, addressed the Untrified at the opera house last night. Big preparations were made in honor of the distinguished gentleman.

More anon, EYE SEE.

Angostura Bitters is a household word all over the world. For over 30 years it has advertised itself by its merits. It is now advertised to warn the public against counterfeits. The genuine article is manufactured by Dr. J. G. B. Sisco & Sons.

The Candidate.
BEFORE ELECTION.
Good morning, my dear Mr. Smith. How well you are looking today. If this is the best you can do, I pray.

An office! Of course you'll get one. You're not a right kind of a man, I'll give you a good position. In fact, the best one that I can.

I've long had my eye upon you. As a man just after my heart, and if I get hold of the cake, you shall not lose the sweetest part.

The day is quite warm, Mr. Smith. Let's go round the corner and "smile." A man like you, with a good suit, I haven't met for a long while.

AFTER ELECTION.
Confound it! there's that Smith again—Just tell him that the wind must blow. A greater nuisance than he is. In the city cannot be found.

Day after day he pesters me. To put him in some position, Was ever man tortured like I. Since time of the Inquisition.

And then for a noodle like Smith. To try and get put in a place; Though they would not let me laugh, The thing's so absurd on the face.

A man with less brains than an ass, Or even than a pig, I should say. I guess all the cranks from Napa Will be hunting positions soon.

SINGULARITIES.
In the Cambridge cemetery is a port tree 243 years old. It was set by S. S. Stone in 1695.

Over ten thousand copies of the bible have been printed every day for the last thirty-four years.

Samuel Sargent found a petrified dove in 1835. On coming to the air the bird began to decay.

A splinter of a deer's hoof, with powerful magnetism and polarized light is as wonderful to see as the rainbow.

Mr. Edwin Lowe again advocates the use of explosives for bringing about an increased rainfall in New South Wales.

A Springfield cysteman has a fatherless child. It is three months old, evidently having been born of a brood of twelve.

One third to one half of mankind die in infancy. Providence thus makes it impossible to preserve a large part of the race from presidential campaigns.

A Bowery museum, New York, advertises a curiosity which is half a man and half Leyden. It is a strongly suspected that he belongs to the Demjigun family.

Three different civil engineers have made estimates on the quantity of water over Niagara Falls every minute, and there is a difference of two quarters between the highest and the lowest.

A chestnut at the foot of Mount Etna is believed to be the largest and oldest tree in Europe. It is hollow, and large enough for two carriages driving abreast with a couple of men in the trunk has a circumference of 212 feet. This grizzly is said to be 92 feet in height.

A novel cure for hog cholera comes from New Jersey. The discoverer, instead of waiting for his hogs to die, buried them alive, leaving their heads above ground. He fed them on a mixture of molasses and water, and then resuscitated them, to find them as well as ever.

It is said that the French railroad companies are about to adopt an electric gate opener. A car, with a powerful magnet, keeps the gate closed. When a train approaches it closes the circuit, releases the gate, and the gate is open. The last train to pass through the gate was a passenger train, and the gate is again closed. The same apparatus rings a bell violently on the approach of a train.

At the great New York dog show two nationalities of hairless dogs have attracted much attention. The first nation is Mexico represented by hairless dogs with a peculiar leathery skin and little black eyes. Near them is a peculiar dog whose skin is almost hairless body is mottled with brown spots. This is a representative from China and might be considered an edible in the flowery kingdom.

From Wells, Maine, comes a remarkable story. For some time past the herring have remained away from shore, and the fishermen have been unable to obtain them, except in small numbers. Suddenly a few days ago they began to come in, even into the brakers, in immense numbers, evidently frightened by dogfish and ludfish. The number kept increasing, and when the tide went out left a place of about an acre completely covered with the fish. In some spots where there was a depression in the sand the fish were piled in to the depth of four or five feet. The farmers in the vicinity soon learned the fact and flocked to the beach and secured cart loads of the herring to be used upon their land as a fertilizer. One farmer obtained sixty loads.

Alcibiades or John?
Who are our first gentlemen? Alcibiades, I know. Rides the finest steed in town—His fair bride, and gems can show: Yet, if his most noble sire Had not hoarded up his pelt, Would the youth alone have been A true gentleman indeed!

Strip the man of all that come: With modesty and grace, If his every action still, With nobility agree, Test him with the self-same things That have tempted other men: Will the lofty and the low Never change their places then?

Alcibiades was wed: 'Twas the talk of half the town: Bonds, and stocks, and lands endowed His fair bride, whose wedding gown Was a marvel of renown. All his friends were charmed and said: It is certain she had met wed: Were she poor she had not wed.

John, the carpenter, has wed: His wife with her needle wrought Her own cotton dress, and drove that she really exists and is not a wax figure, although she is in the wax museum. There is not the slightest trace of any mechanical agency being employed in the illusion.

When the dramatic season opened, about two months ago, there were 300 companies which had started on their travels. The number has been reduced by the collapse of forty-one of the 250 still out on the road. A dramatic company, twenty-seven operatic troupes, nine minstrel organizations, eight circuses and twenty-three variety parties. More than 10 per cent of the companies which began the campaign have already succumbed.

Singing in London music halls, says a correspondent of the Dramatic News, is a profitable avenue in which to earn one's living. If a person has a good voice, a "catching" way, or she can sing at three or four hills each night, thus earning from \$30 to \$40 a week, a family of four can live in comfort. The only London hall, during her last week, had engaged a singer for \$75 a night, which, by the way, she insisted on receiving each night when her work was done.

Herr Geroche, the new director of the Boston Symphony Orchestra, is the following story of his triumph in Vienna: A Meyer festival was in preparation and the rehearsal was numerous and arduous, so that all the musicians began to murmur save one, the impetuous kettle drummer, who was noted for his propensity for borrowing money from every member of the orchestra and not caring to return it. This case of "borrowing" was so notorious that a "Meyer" was sent to the police. "But gentlemen, this is a debt which we owe to Meyer." A howl went up from the orchestra: "Why in thunder Mr. Geroche, you must pay the payment of your debts with Meyer!"

"Skipped by the light of the moon" is one of the most successful follies on the stage today and the young comedienne Harrison and her partner, "Skipped by the light of the moon," is a comedy which has been running for two years ago. John Gourlay was a \$75 a week man and Louis Harrison was doing a very moderate business in company with his sister. Following the example of Kismet, the two formed a partnership and went to Europe for a play. The dramatic authors wanted so much that they returned home empty handed. On ship board they contracted "Skipped by the light of the moon," and it was first tried in Troy, N. Y. The sum needed to get there was \$17. That night they were in the house. It happened that some of the factories had paid off their hands during the day. They never had a bad night during the first four or five weeks, and then they began to prosper. So far this season they have done good in the face of the presidential excitement. You see people will laugh if they can.

The Wishbone.
Slender and shining, prophetic bone, We pulled it the future to divine: Here's pinkie, but in my own, Told that wish and wishbone both were mine.

"What do you ask for?" whispered my Rose, Looking up shyly with eyes so true, "I wished," I answered, drawing her close, "The woman I wish might look like you."

"Her eyes as pink as a sea shell's tint, Tender mouth, and a saucy look, And pale brown hair with a golden glint; "In short, that my future wife might be you, dear little Rose, and only you." Hiding her face in my breast, said she, "Isn't that funny?—I wished that too."

—[Harper's Magazine.]

Marjorie's Kisses.
Marjorie laughs and climbs on my knee, And I kiss her, and she kisses me, I kiss her, but I don't kiss her, Because, although she is charming and fair, Marjorie's only three.

But there will come a time, I ween, When I tell her of this little scene, She will smile and nod and say, "I shall long in vain to kiss her again, When Marjorie's seventeen."

EDUCATIONAL.
Professor Lewis B. Packard, of Yale college, the well known Greek scholar, died in New Haven, October 26, in the forty-ninth year of his age.

Prof. E. L. O'Riordan, of Cornell University, who is now in Europe, making a special study of the Irish language, has been elected honorary member of all the societies formed for the preservation of the Celtic tongue.

Dr. Gelle, of Paris, has found that twenty to twenty-five per cent of children hear only within a limited range. A practical result of this discovery is the children are now placed at such a distance from the teacher's desk as will correspond with their strength of hearing.

The public school authorities of Philadelphia complain because so many of their female teachers get married. It is said that a hundred young women leave the schoolroom every year for the matrimonial altar, and that it therefore becomes impossible to keep a corps of experienced teachers in the schools.

Monsieur Capel expresses the opinion that the frequency of suicides in this country is due to two causes—any such mental forcing of the young, and too little moral training. We believe that statistics will show suicides to be much more frequent in proportion, among residents of foreign birth than among our own native-born citizens. This is true at least in San Francisco; of 83 suicides during the fiscal year ending in 1883, 59 were persons of foreign birth.

The Hotel Mass is the Spencerian style of penmanship is very pretty, but is calculated to make all writing look alike and destroy individuality or personal style. "We could select at a glance" it says, "from 100 hotel clerks, every one who has been taught to write from these copy books, and the style of each could be the same. Any one of them might sign a check for another, and it would puzzle the ablest bank cashier to detect it. The result is the same upon our school children, and all money if the treatment does not effect a cure. Guarantees issued only by JOHN C. WEST & CO., 215 N. 3rd St., St. Louis, Mo.

Why suffer the tortures of biliousness when Hood's Sarsaparilla will give you sure relief? Sold by all druggists. 100 Doses One Dollar.

MUSICAL AND DRAMATIC.
Edwin Booth will probably retire from the stage after this season.

"The Seven Ravens" are preparing to wing their way through the New England circuit.

A boy actor named Whitesides is preparing to play Shakespearean roles in the west with a dramatic company.

ED Price, a well known newspaper man, and for several years John McCullough's representative, was in Omaha last week. John McCullough is resting at the St. James hotel, New York. It is now definitely decided that he will not act any more this season.

Emus Abbott's popularity seems to increase every season. Her engagement just terminated in Brooklyn was a triumphant success.

Mastay's last burlesque absurdity "We,

U. & Co." has made a decided hit. It opened in St. Louis, and the press with one voice, endorsed it.

Henry J. Byron is expected to have made \$400,000 play writing. Yet he only left \$20,000 and his heirs now want to know what he came of it.

The most extensive stock company on record is that which has been formed to run the Gaisty Theatre, in London, with a cash capital of \$250,000.

The five principal cities in the United States which make a feature of Sunday shows are San Francisco, Cincinnati, St. Louis, New Orleans and Chicago.

Mrs. Albana will be in this country this winter. She will make a short concert tour, and will sing at the January Philharmonic concert in New York city.

A well known New York journalist is writing for Brooks and Dickson, a biography of Mrs. Ristori, for which he will be paid \$500. He has written thousands of articles, and has been published and used as advertising matter.

Mr. Rhea will celebrate her engagement under the management of Jas. W. Morrissey by the production of a new play by the author of "Yvonne," entitled "Arcadia." It will receive its initial presentation the beginning of the New Year in Boston.

"In the Ranks" is encamped in Haverly's theater, Chicago. "Lieba," has gone on the road.

"Adonia" is still the reigning success at the Bijou opera house, New York.

Mr. Wilson Barrett's London company, supporting him in "Hamlet" are five members who have played Hamlet at some stage of their careers, and one member who has played every part in the piece at different periods save Hamlet himself. There could not have been a more fortunate body of self-constituted stage prompters.

A remarkable optical illusion is exhibited at the New York Edison museum. Suspended in mid-air is the upper half of a buxom young woman, with nothing whatever beneath it. The phenomenon will smile, catch, laugh and shake hands with the audience, and prove that she really exists and is not a wax figure, although she is in the wax museum. There is not the slightest trace of any mechanical agency being employed in the illusion.

When the dramatic season opened, about two months ago, there were 300 companies which had started on their travels. The number has been reduced by the collapse of forty-one of the 250 still out on the road.
