GROWING CITY

The remarkable growth of Omaba during the last few years is a matter of great astonishment to those who pay an ccasional visit to this growing city. The development of the Stock Yards-the necessity of the Belt Line Read-the finely paved streets-the hundreds of new residences and costly business blocks, with the population of our city more than doubled in the last five years. All this is a great surprise to visitors and is the admiration of our citizens. This rapid growth, the business activity, and the many substantial improvements made a lively demand for Omaha real estate, and every investor has made a handsome profit.

Since the Wall Street panio last May, with the subsequent cry of hard times, there has been less demaud from specula-tors, but a fair demand from investors seeking homes. This latter class are taking advantage of low prices in building material and are securing their homes at much less cost than will be possible a year hence. Speculators, too can buy real esta' > cheaper now and ought to take advant present prices for futur
