WASHINGTON NOTES.

Special Telegram to THE BEE.

WASHINGTON, December 10.—Byard's friends have been given to understand since his return from his visit to Cleveland that it rests entirely with him whether he shall be a member of the latter's cabinet.

There is a reason for believing that he can have either the state or treasury department and that if he decides to become part of the new administration he will elect to go into the treasury.

Next a preference for that over the state department. Several would-be members of the next cabinet have circulated papers among the democratic senators and representatives for signatures recommending their appointment.

LITTLE ROCK, Ark., December 10.—Developments in the recent train robbery leave no doubt that it was the work of amateurs.

The police and detectives followed the tracks of the highwaymen so closely and successfully that all but one of the participants are in jail.

The four men in custody are: Jack Clifford, Joe Cook, Adolph Parker and Chas. Campbell. Proof positive has been secured against those already in custody.

Jack Clifford, the man from Chicago, has been seen from the first to be the brains and back-bone of the gang. He is the man who built the switch into which the train was run Saturday night.

THE U. P. EXTENSION BILL.

Mr. E. Rosewater, Editor of the Omaha Bee.

Opposes the Passage of the 60 Years' Extension.

His Argument to the Senate Judiciary Committee.

The Earnings of the Road to Meet Its Just Liabilities.

Congress Should Prohibit Paying Improper Dividends.

The Extension Would Retard the Sale of Its Lands and Thus Delay the Settlement of the Country.

MR. ROSEWATER'S ARGUMENT.

WASHINGTON, December 10.—Mr. E. Rosewater, editor of THE OMAHA BEE, to-day made an interesting argument before the Senate Judiciary committee in opposition to the passage of the Union Pacific sixty years extension bill.

He said it was entirely needless for congress to resort to any such legislation. The earnings of the road were ample to meet its just liabilities and pay interest on its actual cost and even to make a material reduction in the rates from time to time.
