The remarkable growth of Gmaha during the last few years is a matter of great astonishment to those who pay an recasional visit to this growing city. The development of the Stock Yards-the accessity of the Belt Lins Road-the finely paved streets-the hundreds of new with the population of our dig more than doubled in the last five years. All this is a great surprise to visitors and is the admiration of our citizens. This rapid growth, the business activity, and the many substantial improvements made a lively demand for Omaha real estate, and every investor has made a handsome profit.

Since the Wall Street panle last May, with the subsequent cry of hard times, there has been less demand from speculaors, but a fair demand from investors ocking homes. This latter class are taking advantage of low prices in buildng material and are securing their homes it much less cost than will be possible a year hence. Speculators, too can buy real esta's cheaper now and ought to take advant e of present prices for future pro ty.

The next few years promises greater d welphments in Omnha than the past iv years, which have been as good as we could reasonably desire. New manufacturing catablishments and large jobblug houses are added almost weekly, and

all add to the prosperity of Omaha. There are many in Omaha and throughbut the State, who have their money in the bauks drawing a nominal rate of interest, which, if judiclously invested in Omaha real estate, would bring them nuch greater returns.
