IF It is a fair question we would like to know how many members of the legislafind ture will pay the regular railroad fare to payers? An unfair question is, will any member refuse to take the mileage because he travels on a pass?

> A LINCOLN adlapatch in the Omaha Republican says that Allen Field, candidate for speaker of the house, is "well endorsed." Of course he is, by the railroads and the jobbers. Personally we have nothing against Mr. Field, who is a very clever young man, but he is traveling in bad company, and is owned soul and body by the Lincoln ring, which made him what he is, and will control him as long as they have any use for him.

WE shall soon know whether the Ne braska legislature will do anything in the way of relieving the farmers and produc ers from the extortions of the railroads. The question of railway legislation depends, almost wholly upon the make-up of the committees. The railroads of course will make a vigorous effort to have their candidate for speaker elected, and he will appoint the committees at their dictation. If, however, an honest and independent man should be elected speaker there will be some hope of securdag rallway legislation.

THE OMAHA BEE is entering into a coperate plan to exchange with weaklies. viz: it requires each paper to secure it twenty subscribers. This, is a matter which concerns THE BEE. It is its own business to conduct its excoange list as it deems proper. We have neither harsh never gone into the clubbing, business and it never will. The BEE is the best newspapes in Nebraska It is well worth the yearly subscription pended it will result in relieving a great charged without any reduction for club deal of actual suffering. Omaha is very bing or other causes. It is frack, fear poorly equipped with organizations for less and outspoken in everything that in the redief of the poor, and these that we terests Nebraska farmera. It shows, its have are almost, antirely without funds, report is always relable. If THE BEE so that they, are virtually powerless to wishes to cut the Vidette down to an eye accomplish any great amount of relief for an eye and a tooth for a tooth and a Bas for a Vidette, we shall not whine nor grow weary. It itas always by in the most liberal exchange paper in the state.

hemisphere has been recently completed. It will conduct the waters of the Nepean and Cordeaux rivers to the Caturact river at a point from which they will be led by a canal to Sydney to form the water supply. This tunnel, which is about seven feet in height by a little over nime feet wide, extends from the Nepsan to the Cataract river, a distance of fourand onehalf miles. It is three years ago last July since the contractors began to drive the tunnel through the sandstone, and as soon as they commented work they knew they must lose a large sum of money on the contract, which was for a little under £70,000, but the outlay has

been many thousands of pounds in excess. "The Great American Desert," as it was once called, including 40,000 or 50,-

000 square miles of land in Texas, Now Mexico and Colorado, is made excellent grazing country and tillable by the wells sunk from its surface, an abundance of excellent water being easily found, which flows in all directions toward the depressions, forming streams which saturate the soil and render it productive. The Desert of Sahars is being made partially habitable, and the terrors have been removed from all the routes of travel across it, by flowing wells, of which a vast number have been bored by French traders and others interested in the traffic of Central Atrica.
