

THE DAILY BEE - Omaha Office, No. 616 Farnam - New York Office, Room 65 Tribune Building.

Subscription rates: One Year, \$3.00; Three Months, \$1.00; Six Months, \$1.50.

THE BEE PUBLISHING CO. PROP'S. R. ROSEWATER, Editor.

Iowa, like Nebraska, will have a state census taken this year. Our legislature, by the way, should not overlook the fact that it is required to make some provision for the taking of this state census.

The Omaha Herald insists on referring to the Bee as "our evening contemporary." It does it in a sort of sneering way as if the Bee were a "poor, little evening sheet."

The city of Watertown, Wisconsin, which has been burdened with an enormous railway bond debt for many years, has good reason for rejoicing over the result of a case in which the sum of \$400,000 in bonds was involved.

The city of Keokuk has taken the prohibition bill by the horns. Following the example of several other Iowa cities, the city council has established a local liquor license—two y-five dollars a month—and has passed a resolution ordering the city marshal to enforce the prohibitory law against all saloon keepers who refuse to pay this license.

The Western Union has not forgotten the efforts of Senator Hill in behalf of postal telegraphy, as will be seen by the following from the Denver Tribune-Republican:

For the past three days, the secret agents of Jay Gould have been in Denver with thousands of dollars at their command, scheming and planning to defeat Hill. They will discover that though their money may control a caucus, it cannot control the legislature.

The governor of Kentucky, being of an enterprising turn, set out on a month's ago to explore the region over which he ruled and came across a town of 500 people, with 160 houses, four ancient churches and valuable Cosack relics, of which he nor the Russian government never heard.

THESE are 110,000 federal offices, and about 96,000 of them are not subject to the civil service law. The great political problem of the day is how can these offices be satisfactorily distributed among more than a million of democratic office-seekers, for it is safe to say that there will be over ten applicants for every office. How to get an office is just what the average democrat is now endeavoring to find out, and the consequence is that the publishers of so-called "guides" are making a mint of money.

FINCH AND ST. JOHN. And now comes the redoubtable Mr. Finch with the following card from Boston: Boston, Mass., Jan. 17, 1885.

To the Omaha Daily Herald: The statement of the Omaha Herald, in regard to George L. Miller, of the national democratic committee, paying me money, is a truly a malicious and untrue charge.

Mr. Finch made known to Mr. Miller his plans for the promotion of the prohibition cause as an issue in the national issue as long ago as 1882. He said then as he has since, that he intended to win the nomination of the national democratic committee in 1884 as a balance of power in New York, Ohio, Indiana and other states to defeat and destroy the republican party.

The denial of Dr. Miller is emphatic enough, but it goes without saying that he was ready at all times during the last campaign to use all "honorable" means to elect Cleveland and Hendricks. His experience in the Patrick Cronin affair in 1876 doubtless suggested the propriety of his not entering into personal negotiations with the chairman of the prohibition committee.

The Western Union has not forgotten the efforts of Senator Hill in behalf of postal telegraphy, as will be seen by the following from the Denver Tribune-Republican: For the past three days, the secret agents of Jay Gould have been in Denver with thousands of dollars at their command, scheming and planning to defeat Hill.

THE LICENSE QUESTION. If the legislature does not wish to wholesale liquor dealers to pay a license the same as the retailers, then let the license be fixed at half the amount now charged for retail license.

THE CHAMBER OF COMMERCE. The movement on the part of a few business men to have the proposed chamber of commerce building located elsewhere than at the corner of Sixteenth and Farnam streets is a mistake.

whether the candidates are honest and capable, but whether they are willing to cut down the liquor license and let the liquor dealers have their own way. Take the liquor question out of politics and give us good government. Leave that question in politics, and we shall always have a disturbing element.

THE FIZ JOHN PORTER CASE. The Fizz John Porter case is once more before congress in the shape of a resolution, introduced in the house by General Stearns, which requests the president to transmit to that body an appeal recently made to him in behalf of General Porter for reinstatement.

SCHOOL LAND FRAUDS. A Pointer for the Legislative Investigating Committee. A prominent farmer residing at Wood lawn, Lancaster county, who has voted the republican ticket for thirteen years, writes to the Bee as follows:

THE RAILROAD DISCRIMINATION. There is hardly a state in the Union which is not afflicted with railroad extortion and discrimination. Everywhere the people are demanding relief from the burdens and impositions placed upon them by the railroads.

HOPE FOR THE FUTURE. Under the system you cannot have competition, and without it we are at the mercy of the favored classes. In a recent report made to the state of Ohio it was decided that common carriers could not charge differing rates for the same service.

THE CHAMBER OF COMMERCE. The movement on the part of a few business men to have the proposed chamber of commerce building located elsewhere than at the corner of Sixteenth and Farnam streets is a mistake.
