For fourteen years, says an Indianapolis telegram to the "New York Times," State Geologist Collett has been experimenting upon a theory that the best iron, when subjected to continuous strain, would undergo changes in its structure which would render it unfit for use as a material for bridges.

Science Reveals. Dr. James A. Stenard, M. D., Commissioner of Health, Baltimore, Maryland, writes: "Having been requested to analyze the St. Louis Congruous and give my opinion thereon, I beg to report as follows: I find that it contains no mineral matter, poisons, opiates or narcotics; that it combines in an unique and effective manner approved curative agencies which support the facilities of the various different schools of medicine, with other valuable vegetable ingredients, has thus far not been used for this purpose, and which in its action happily supplants the objectionable, and not infrequently harmful features of other cough mixtures."
