THE SENATE.

Special Correspondence to THE BEE. LINCOLN, March 2.—The senate wrangled for some time this morning over the appropriation made Saturday to the three detectives concerned in the treasury robbery.

Senator Small moved this morning that the appropriation bill be reconsidered, and the amendment stricken out.

Senator Burr inquired the motive, when the senate had decided to base an opinion upon the report of the committee.

Senator Dulan offered an amendment that the amount be paid to the governor to be paid at his discretion to these three detectives, if deemed worthy.

SENATE.

WASHINGTON, March 2.—The house bill, appropriating \$100,000 to complete the public building at Council Bluffs, passed.

House submitted the proposed amendment to the sundry civil bill, appropriating \$15,000 for the woman's department at the New Orleans exposition, and moved it may be in order without reference to the committee to present that amendment in the senate bill, should it come to be considered.

McMillan said he would object if it would result in displacing the unfinished business which he would ask for a vote in the senate to-morrow, without debate, on the proposed women's suffrage constitutional amendment.

The fortification bill was laid before the senate and referred.

Allison, from the committee on appropriations, reported the sundry civil bill, and asked that it be taken up at once.

McMillan said he would object if it would result in displacing the unfinished business which he would ask for a vote in the senate to-morrow, without debate, on the proposed women's suffrage constitutional amendment.

The Sioux City & St. Paul land forfeiture bill was placed before the senate, but was informally laid aside to continue consideration of the sundry civil bill.

The senate agreed to this item, as to most without division of opinion.

Pending the reading of the bill, Allison, remarking that the committee on appropriations deemed an evening session desirable, moved that the senate adjourn to 7 o'clock to-morrow.

On motion of Van Wyck appropriating \$75,000 for the public building of Nebraska, the committee on appropriations reported the bill, and asked that it be taken up at once.

On motion of Allison the amendment was agreed to appropriating \$50,000 for continuing the building at Council Bluffs.

Daves submitted the conference report on the Indian bill. Agreed to. The report disclosed continued disagreement, but owing to the lateness of the hour, 2:45 p. m., Daves did not ask for a further conference.

Recess until 9 a. m.

Plumb submitted the conference report on the postoffice appropriation bill. He explained all differences had been reconciled except three, namely, the provision relating to compensation for 40,000 mail carriers, that relating to ten-cent special postage stamps, and the provision authorizing the postmaster general to pay rent for third class postoffices.

The senate insisted on an amendment to the bill, which was agreed to by the conferees.

Alldrich offered the following joint resolution, which was read a second time and laid upon the table, to be called up hereafter:

Resolved, That the president of the United States is hereby requested to enter into negotiations with the states of the Latin union and such other foreign powers as he shall deem advisable, with the purpose of securing such treaties with them as shall bind the nations agreeing thereto, to open their respective ports to the free coinage of silver with the full legal tender power at such a uniform rate to gold as shall be agreed on.

When the doors reopened legislative business was proceeded with, Allison submitted the conference report, announcing the agreement on the legislative, executive and judicial appropriation bills.

Allison said that every bill had been agreed to except that relating to the clerks of senators, as to which the house conferees refused to agree.

HOUSE.

WASHINGTON, March 2.—When all the amendments were disposed of Mills moved to suspend the rules and adopt the resolution "That the committee appointed to arrange the inaugural ceremonies, having declined to give representatives in congress their proper place, we will decline to take any part in the ceremonies at the capital."

This resolution, said Mills, reflected the sentiments of a large number of the members.

Hammond demanded a second, and the motion was seconded—185 to 85.

Hammond said he felt the house was about to do under passion a very unseemly thing. At an inauguration of a president of the United States it was usual for members of the house, with the senate and other public officials, to witness the great scene.

Mills' resolution that the house should not participate in the inaugural ceremonies was a resolution which declared that, because the house had to sit behind other gentlemen in the senate it would not sit there at all, was puerile. The house, instead of maintaining its dignity, was losing it. It was offering, intentionally, what seemed to be an insult to the committee, which had never intended to

CHICAGO MARKETS.

Special Telegram to THE BEE. CHICAGO, March 2.—It is true that the condition of the St. Louis market affected the Chicago market during the latter part of last week it was equally true that the fine weather of to-day had its effect on the market during the morning session. Deals in May wheat were made almost entirely by a local crowd of scalpers.

"If to-day had been such an one as yesterday, stormy and blustering, you would have seen May wheat go up to \$1.00, and other wheat to \$0.95.
