OMAHA MARKETS.

OFFICE OF THE OMAHA BEE,
Saturday evening, March 21.

TRADE REVIEW.

The spring trade has about commenced and the outlook is very promising.

The trade in the city during the past week has been fairly active, and but few changes of particular note are chronicled.

Grain has kept pace with board of trade prices in Chicago. Flour and millstuffs have declined slightly.

The prices of cattle and hogs have not undergone any very material change, and the average supply has been received.

There have been few changes in the general provision market, and eggs have got down to such prices that they are within the reach of all purses, and there will be no dearth for the Easter morn breakfast.

The best grades of butter readily command good prices, poultry is plenty, and game is in active demand.

Groceries continue at about the same prices.

The lumber market is active and unchanged.

The hardware trade is brisk.

Hides and leather continue the same as last week.

The dry goods men report that in some staples the prices have declined.

Drugs, paints and oils have not changed since last week.

The following prices are charged retailers by jobbers, wholesale and commission merchants with the exception of grain, which is quoted at the prices furnished by the elevators and other local buyers:

Grain

Wheat—Cash No. 2, 60c.
Barley—30—50c.
Rye—Cash No. 3, 49c.
Corn—No. 2, 25c.
White Corn—38c.
Oats—No. 2, 23c.

General Produce

Eggs—Receipts are increasing daily, and while shipping demand has so far been heavy enough to prevent accumulation, buyers are inclined, as is but natural on a weak and declining market, to limit their purchases to immediate wants, and take their chances of buying lower the next day. Eastern markets have all dropped considerable, and are reported to be decidedly weak, and orders for these are limited to low prices.

The ruling price for the last two days has been 12½c, but some houses have offered and sold at 11@11½c, and although this little difference does not increase consumption any, it will make sales somewhat easier, especially in job lots, and we expect that this price will have to be met and made general before the day is over. The future of the egg market is at present standing very uncertain.
