THE FRENCH POLIOY. THE FRENCH POLIOY. PARIS, April 7.—Henri Brisson, the new president of the council of ministers, read be-fore the chamber of deputies this afternoon a formal statement of the policy agreed upon by the new ministry. In regard to China, the statement is declared that France would de-mand from China complete respect for all French rights resulting from the treaties made by France with Annam and China, concerning Tonquin, and which China had recognized as valid by the Fournier convention of 1884. France would be happy if amicable negotia-tions be sufficed to attain this respect for French rights. But the end would be ob-tained by arms if necessary. The govern-ment however was resolved to not modify the character of the French expedition in Ton-uin without the approval of the chambers. Concerning European affairs the declara-tion stated that the French government would, by an stentive and circumspect pol-ioy, seek to guarantee France's position as one of the very first powers in all questions to conjuying European attention.
