## OMAHA

The remarkable growth of Omaha during the last few years is a matter of great astonishment to those who pay an occasional visit to this growing city. The development of the Stock Yards—the necessity of the Belt Line Road-the finely paved streets—the hundreds of new residences and costly business blocks, with the population of our city more than doubled in the last five years. All this is a great surprise to visitors and is the admiration of our citizens. This rapid growth, the business activity, and the many substantial improvements made a lively demand for Omaha real estate, and every investor has made a handsome

Since the Wall Street pante with the subsequent cry of hard times, there has been less demand from speculators, but a fair demand from investors seeking homes.
