A WIFE'S DEVOTION.

[From the Atlanta Constitution.] Several years ago when Judge S., then of the superior court, was holding his court at Forsyth, Monroe county, Ga., two brothers, residents of Gwinnett county, were brought before him, charged with horse-stealing.

The case against the two men was plain indeed. The old man from whom the horse was stolen, with his wife and daughter, were introduced each in their turn on the stand...

Absolutely nothing in rebuttal could be produced by the counsel for the defense, except the testimony of a woman, the young wife of one of the prisoners, and the daughter of the old man from whom the horse was stolen.

THE SPANISH MAIN.

A Region Where Climate, Coffee and Chocolate Suit the Most Fastidious. The country along the Spanish main, says a correspondent of the Boston Herald, from Trinidad to the Isthmus, is a mixture of Florida and Switzerland...

Between these mountains, along the coast, are narrow valleys of the most luxuriant tropical verdure and the richest soil, which yield three harvests annually, and are densely populated.

Another curious fact is that chocolate costs more here than it does in New York—here where it is grown and manufactured. This is more reasonable, for it is well known that there is very little of the genuine article in our market.

When the beans are thoroughly dried in the sun, they are shipped to the market in gummy sacks, where the chocolate manufacturer gets hold of them. He grinds them into a fine powder, of a gray color, that looks like graham flour...

"This is all there is of it," she said, and dropping her head, which during the recital of her story had been as erect as the "proudest steed of the prairie," she slowly left the stand.

The jury were "out" only a few moments, returning a verdict of guilty, and the men were sentenced to ten years in the penitentiary. As the last words of the sentence were uttered by the judge...

Several weeks later a woman entered the office of Forsyth, her face flushed with excitement and beaming with joy. It was the wife of the man convicted of horse stealing. She had found the "letter" and had walked with her baby in her arms all the way from Gwinnett to Monroe to bring it to the judge.

The Dangers of Blood Poisoning.

Since the death of President Garfield, there seems to have been an increase in the number of recorded cases of blood poisoning.

A few weeks ago the Rev. Neah Schenck, D. D., of Brooklyn, had an operation performed on his foot, inflammation set in and death ensued. If a man be in good health a wound heals rapidly; if the blood is corrupt, it is slow to heal.

Blood is made in the stomach; it is purified by the skin, lungs, liver and kidneys; are overworked; the consequence is that in the spring these organs are prostrated; the prostration is indicated by extremely dull, heavy feelings in a weariness which seems to go to the bone; head aches, furred tongue, lack of appetite, itching and dizziness of the head...
