The two jailers are also to be done away with, and in street repairs nothing exceeding ten dollars is to be done, except by order of the majority of the council, instead of by committee, as formerly, and then nothing but what is absolutely necessary shall be done. The offices of street supervisor and of sidewalk supervisor have already been done away with, and it is proposed to cut down the wages of other employes of the city to the lowest possible notch.

While these reductions are going on, an attempt will be made to increase the revenues of the city by a new l'cense ordinance to go into effect at the expiration of the present license year, which ends July 1. It is proposed to make almost every sort of business pay a ticense -insurance and real estate sgents. dellyery wagons, ticket brokers, etc.-and those kinds of business for which a icense is now required are to be called on to pay a higher rate. Such is the out-line of the policy, which has been talked over before, but which has now been deelded upon. The aldermen have concluded that while it is a question still, whether saloons will be allowed ts run in this city or not, it is pretty well settled that the city can expect to get no revenue from this source any longer at present, and that steps must be taken to cover this deficit.
