there, followed by a large concourse of friends, laid in his final resting place, and his grave is now marked by a monument erected by his widow and children, although he has left a monument of rectitude and integrity which E P Vining snp wf to John J Hardin, w d, lot 12 of Johnson's add to Omaha, \$5,000.

will last when the baser granite has crumbled

Seal of North Carolina Tobacco is the bast.

It seems that Mr. Hewitt had quite a large insurance on his life, which the widow is hav-ing considerable trouble to collect. From what can be learned, all sorts of practices are Tooth Picks, being resorted to by the insurance company to get out of paying it. Some four or five weeks ago their attorney, W. C. Calkins. of Chicago, was here securing witnesses favorable to his clients, and at that time an interview The State Dental society closed a two days session in Lincoin Tuesday. The reports of the officers showed the society was in a prosperous condition. Eleven with him regarding the matter was published in the BEE. Seeing this interview is what induced young Hewitt to write and in addition to that part of his letter given above he fur-ther says: "The article states in effect that new mempers were admitted. The next meeting will be held at Beatrice the third Tuesday in May, 1885. The following officers were elected:

President, J. J. Willey of Wshoo. Vice president, A. P. Johnson of Omaha. Corresponding secretary, L. S. Moore

of Fairmont. Secretary and treasurer, C. R. Tefft of Lincoin.

S. H. King of Lincoln was elected who is entitled to the proceeds of the indelegate to the American Dantal association with C. R. Tefft as alternate.

The Advantage of Settling in the New Towa

The title "South Omaha" does not mean the southern part of the city of Omaha but is the name of the thriving town commencing at the Union Stock yards on the south, and extend ing for a mile and a half north, nearly connecting with the city limits of Omaha. The company have again concluded to put on sale 1,000 lots, and let the purchasers of the same realize the profit which the enhanced value of these lots is sure to make. It now being an assured fact that South Omaha is destined—in the near future—to be the largest live stock market west of Chicago, there can be no doubt that this property in a few years will be worth five or even ten times the amount that it can be bought for to-day. Some may ask: If this is so, why dc not the company keep it and realize this profit The answer is, that in order to make lots valuable, there must be improvements on or sur rounding them, and as is the case in all new towns, special inducements must be offered

Some may ask: If this is so, why dc not the company keep it and realize this profit
 The answer is, that in order to make lots valuable, there must be improvements on or sur
 rounding them, and as is the case in all new towns, special inducements must be offered
 first to get the people to take hold and build.
 There are probably more such inducements offered by South Omaha than were ever pu
 forth by any new town. The large business done by the stock yards company and the immense slaughter and packing houses together with their auxilaries are no small feature in it appregate of events that are destined to make South Omaha a large place. Again, the town is not an addition to Omaha, and is not liable for city taxes, atbough it enjoys all the benefits from the growth of Omaha that it would if it were just inside the city limits, but being just ourshold only county taxes are collected, which are merely nominal. The town owas and pertains will run on the B. & M. and U. P. railways every hour, stopping at the north end the location a healthy one.
 Of course there are those who do not believe that South Omaha will amount to much. This kind of people didn't believe Chicago would ever be anything better than a cranberry patch that Ornaha would ever outgrow her village clothes, that there never could be any fruit raised in Nebraska, etc., etc. Who made it win? The sceptics, or those that had an ablding first floor.
