Apache Warriors Revel In Atrocious Murders and Rapine.

Blood Marks Their Train for More Than Sixty Miles a Day.

The Southwestern Frontier is Panic Stricken - Women and Children Fleeing.

APACHE WAR PAINT,

SILVER CITY, N. M., May 28.-The Apache are making a bloody trail through this section. It is now thought three or four different bands are depredating and murdering in as many different sections of the territory. The hostiles apparently number about three hundred. Four chiefs are with them-Geroneoneo, Flana, Nasteha and Chihuahua. This morning the corpses of a Mexican, his wife and three children were found five miles from here. Another Mexican is known to have been killed in the same vicinity and his companion badly wounded. A posse of citizens which left here last night returned to-day for supplies and fresh horses. They report numerous ranches on

horses. They report numerous ranches on Bear creek sacked, the horses stolen and cattle killed. The Indian trail followed from there to the Penes Atos foot-hills. The Indians approached within four miles of Fort Bayard. Three troops of cavalry are now in pursuit. It is reported that the Indians are doubling back on an old trail in the direction of Bear Creek. This band numbers about eighty. Another band on the Gilariver drove off, 130 head of horses. Two couriers are missing and three more prospectors have been killed near the south fork of White Water river and one named Joe Bunting on Magollon creek. The latter made a brave fight and killed two Indiaus, including a chief. The fight was witnessed by Bunting's pardner. The latter succeeded in killing to Apaches and escaping. News is just received of additional killings in the Blackrange. Farmers from the surrounding country have all flocked into Silver City panic stricken.

Silver City panic stricken.

San Francisco, Ca'., May 28.—Gen. Crook to-day telegraphed from Arizona to the military department: "No more troops are needed at present. The troops from Bowie are stationed in Stein pass. Those from Huac huce are at the mouth of the Guadalupe canon, to intercept the hostiles if they should double back to go into New Mexico by the usual trail. Major Van Vlic, with eighteen officers and 240 men of the tenth cavalry and Captain Smith with 100 men of the fourth cavary, and Capt. Pierce and his Indian scouts from San Carlos are at Fort Bayard. East of them, co-operating with the troops in New Mexico, Lieut, Davis, with sixty Indian scouts from Apache is stid on the trail in pursuit into the mountains. What has made it so difficilt to get any benefit inhas made it so diffic it to get any benefit in-formation in regard to the Indians is the rapidity of their march, they having made one bundred and thirty miles in two days

over exceedingly rough country. DENING, Arizona, May 28.—The Indians are scattered in small bands in different parts of southern New Mexico, mostly in the viciniof southern New Mexico, mostly in the vicinity of the Black Range, where more than thirty citizens are reported killed, many mangled beyond recognition. This evening the Indians were reported in the vicinity of Crook's Peak, fifteen miles northeast of Deming. The greatest excitement prevails in the settlements on the Gila. No Indians have been killed or captured since the outbreak. Gen. Crook, on his way to relieve Gen. Bradley, is expected here Saturday. Miners and ranchmen are coming from all directions. Much di satisfaction is expressed concerning.

ten days, is said by military men to have been 134, ninety-two of whom are squaws. Outside reports indicate many more. News from the north says several men were killed in the Black Range country in the Indian outbreak from Mescalera agency. In the fight at Devil's Park one Indian was killed, and one soldier and one Indian scout wounded. Capt. Smith routed the Indians, capturing 2,000 rounds o government ammunition. Genl. Bradley is now at Fort Bayard with two troops of the Tenth cavalry. Indians on the upper Gila river are breaking into small parties and scattering through the country this way, Forty-five men left last evening to protect the families now surrounded on Bear greak. A courier four the rounded on Bear creek. A courier from the upper springs states thirty Indians, including squaws and children, camped there. A man in from the ranch near Negro creek, four miles from here, reports fighting there. One man and one child were killed, and one man and one child were killed, and one man wounded. Parties are organizing. Arms are scarce. A courier from Capt. Madden's command, just in with a request for supplies reports finding the bodies of two more mur-

dered prospectors.

Washington, May 28.—From correspond ence transmitted from the war department to the Indian bureau it appears that the Apache Indian outbreak was caused by whiskey. The Indians manufactured large quantities of "tiswin" and became intoxicated. Knowing that punishment would follow this infraction of the rules, they abandoned the reservation and went on the warpath.

# CLEVELAND'S JONAH.

WIBLIAMS ON THE FEELINGS OF A MAN THROWN OVERBOARD.

KEOKUK, Ia., May 28 .- After Mr. William received the appointment of marshal for the southern Iowa district, and found that it occasioned the criticism of the democratic administration at Washington, he promptly placed his resignation in the hands of the department of justice, to be used in any manner deemed best for the demociatic party, and to avoid the department any embarrassment or complication arising out of the appointment. He received word yesterday that his resigna-tion had been accepted. His friends were not surprised, as they had been expecting it for ten days or more. He has for ten days or more. He has nothing but the mildest words for the presinothing but the mildest words for the presi-dent and Secretary Garland, and regrets that he had been indirectly the cause of any trouble to them whatever. To the friends who were willing to stand by him to the last he expressed the heartlest thanks. He is indifferent to the whole matter excepting the falsehoods maliciously circulated about his falsehoods maliciously circulated about his democracy. They were not believed and were refuted at Washington. He thinks Potter's strong presentation of Campbell's case to the president, Weaver's activity in the matter and his own expressed wish to the administration that harmony be secured to the party in the state irrespective of himself personally enabled the protest to reach an easily settlement. He hopes Campbell will so conduct himself in citics as to quiet the popular suspicion of his motive for deserving the position. Concluding the conversation, Williams expressed entire satisfaction with the result concluding the conversation, with the result and had no regrets whatever in the whole affair excepting the malignant criticism of the administration for his appointment.

After considerable number of Indians doing the killing the last talk it was decided to refer the matter back they many deem necessary. The reason assigned for the Union Pacific's objection to make rates higher to Omaha than rates to Council Bluffs, is the jealousy between the Council Bluffs and Omaha merchants. The latter, it is stated, have lately been holding indignation meetings protesting against the action of the managers in making a higher rate to Omaha than to Council Bluffs. Omaha people claim that under such an arrangemen Council Bluffs merchants, as well as the merchants of Kansas City and other Missour river points, would have a great advantage over them. The Union Pacific people do not wish to incur the comity of the Omaha people, and for this reason they are now insisting that the rates to Council Bluffs and Omaha

THE PARIS COMMUNISTS. Paris, May 28.—The communists are pre saring to make another demonstration this afternoon, when their prominent speakers will address them. The government thinks it necessary to take special precautions against a communistic outbreak at Hugo's funeral when the ranks of the communists will receive accessions from other sources. The minister of war ordered several regiments from the provinces to immediate duty in Paris. They are expected to arrive this evening. The communists at a meeting last evening adopted resolutions declaring their purpose to carry red flags at Hugo's funeral, and also warned the government not to interfere.

THE DAY AT WASHINGTON, POSTMASTERS SALARIES.

WASHINGTON, May 28,-The attorneys fo ertain postmasters having complained to Postmaster General Vilas that the constructiou placed by Postmaster-General Gresham upon the act of March 3, 1883, providing for the readjustment of the salaries of postmast ers of the third and fourth classes, was arbi trary and extremely unjust to the postmasters, in whose behalf the act was passed. Assistant Attorney General Bryant, of the postoffice department, has carefully examined the complicated statutes bearing upon this subcomplicated statutes bearing upon this subject, and as a result of his report the postmaster-general has decided that, while the matter of construction is free from doubt, and that while it is absolutely certain that the construction of Postmaster-General Geesham was right in the premises, yet the rule having been followed for two years, and semething over \$200,090 having been appropriated by congress for the payment of salaries on the old basis, he does not deem it proper in the strength of his own individual opinion, even if it were adverse, to change that ruling. The remedy of the claimants is through the courts or by additional congressional enactment.

through the courts or by additional congressional enactment.

There was a full attendance at the cabinet meeting to-day, including Secretary Lamar, who has partially recovered from his recent attack of sickness. The question of authorizing a continuance of the world's exposition at New Orleans was again considered. The result is shown in a telegram sent by the president to Senator Gibson later in the day, of which the following is a copy:

"The question of reopening the exposition has been considered by the cabinet and they are unanimously of the opinion that there is no warrant of law for it and that it would be inexpedient on other grounds."

May 28 .- It is evident that the democratic members of the common council are determined to postpone the official canvass of votes as long as possible, and to keep cut the newly-elected aldermen. If the council changed, the gang which now controls would be for the time at least, out of power. and they do not want to go out. Seven aldermen have left the city and an effort will be made to keep enough away to break a quorum, and in that way indefinitely postpone the and in that way indennies postpone the official canvass. This of course, will keep Mayor Harrison and the other city officials in office, and prevent Judge Smith and the gentlemen who were with him on the republican ticket from making a contest, because until an official canvas and announced there can be no cons made and announced there can be no contest. Acting as they are acting the mayor and the alderman are simply defying public opinion, which should be aroused to some action that would compel the council to at least finish the count, and declare the result one way or another. The young republicans propose to take some account in an interest, and it is also proposed that the newly-elected aldermen shall proceed to the council next Monday evening, and demand the seats to which they have been elected.

A BORROR OF THE OCEAN.

FATE OF A FRENCH BARK. New York, May 28-The steamer City of Rome, of the [anchor line, reached here today, having on board 1,821 regular passengers. Two French fisherman, the only survivors of a crew of the French fishing bark, George Jeanette, which was sunk by the City of Rome in a collision off the banks of Newfoundland May 25. The names of the rescued are Huburt Albert and Fraz Alphonse Marie. The ill-fated vessel, after she was struck,

sank in less than a minute, carrying down with her twenty-four men. Capt. Munro, of with her twenty-four men. Capt. Munro, of the City of Rome, was too much broken up by the remembrance of the scene to give more than a brief statement. His steamer left Liverpool on May 20. The weather was fine until Monday, when, after a brightmorning, a dense fog came on. It was so thick that from the bow of the boat it was difficult to see a hundred feet ahead. A great many icebergs were passed. Between 10 a m. and 4 p. m. fifty-eight were counted. The captain asserts that the vessels pace was slackened to half speed, and fully realizing the danger, every promition was pace was slackened to half speed, and fully realizing the danger, every precaution was taken. Bells were rung and whisties sounded continuously. At 4:30 when the fog was thickest the men forward saw the spars and masts of the bark appear in the mist barely twenty feet away. The bark lay at anchor and atcording to the captain's story was not ringing its bell or keeping look out. Signals to reverse the engines were given, but the the steamer struck the little bark and the iron bow cut, her through with as little resistance as if she had been a piece of cheese. The people on the City of Rome Live hogs advanced about 10c at the yards his morning, and for this reason, added by short covering in wheat, nearly the whole provision list made an advance.
