The Republicans are beginning to admire Grover Cleveland for the mistakes he has made.

The total assessed valuation of real estate in New York city is \$1,175,052,885. This is a net increase of \$55,000,000 over last year.

The Republican assures its readers that it is no longer an organ. A great many people have for some time regarded it as a "what-is-it."

The census materially increased Omaha's population for a few hours. It is hoped that the census takers have permitted none of the country folks to escape.

The number of business failures has steadily decreased during the last three weeks. This is a healthy indication. It shows that business throughout the country at present is in a prosperous condition.

The new law prohibiting the importation of contract labor is being twisted so as to exclude almost every kind of immigrant that has in any way signed a contract before starting for this country.

ONE feature of the revision of the Old Testament just completed strikes the Jewish Advocate as peculiar, in fact remarkable. This is that "in translating a book the original of which was written in Hebrew by Jewish poets and seers, no invitation was extended to a Jewish scholar, who surely might have been expected to have superior qualifications for the work."

It is now claimed that President Cleveland has in many instances been deliberately deceived by certain congressional delegates in regard to the qualifications of applicants for office, and the result is that a number of unfit men have been appointed.

The St. Louis Globe-Democrat is paying the way for a fight against President Cleveland's nominations in the senate. It says: "If he has made removals and appointments which cannot be justified by his own theory of his duty to the people in that behalf, it is surely the privilege of the senate to remind him of his errors and to decline to approve them."

CALIFORNIA DISAPPOINTED.

The San Francisco Call regrets that the bungling of two or three democratic office-seekers has lost to California the selection of a person to fill the important position of minister to China.

It is a matter of vital importance to California that a man should be appointed as minister to China who is sound on the Chinese question. We have just got the Chinese light partially under control.

Now, if we want to keep these Chinese rascals out, we must send a representative to China who will uphold the American side of the question. The Chinese will take care of their side.

THE iron industry has again been paralyzed, and many thousand workmen are thrown out of employment. The general suspension of the iron mills of the country is the result of the disagreement over the scale for the coming year.

THE BEE's estimate of the new commissioner of agriculture was not far out of the way. The Chicago Tribune says that in St. Louis, Colman's home, he has long been known as a harmless enthusiast.

THE idea of a sister of a democratic president writing a temperance lecture is somewhat puzzled the bourgeois at the national capital. This may explain why the water from the Washington water-works is now declared to be impure.

IN his divorce suit John L. Sullivan testified that while he was willing to take care of his wife, he did not propose to support the whole state of Rhode Island. A man who made one hundred thousand dollars in a year ought not to complain about supporting such a small affair as Little Rhodey.

THE leading republican papers of Iowa have severely criticized the red act on the part of Clarkon, and denounced it as a personal insult. It was entirely uncalled for, even had Mr. Cleveland sent a dispatch to Illinois, as stated in the above telegram.

THE request of Mr. Vilas to Mr. Meade, the newly-appointed postmaster at Hazelhurst, Copiah county, Mississippi, to resign, has caused great indignation among the murderers of Prentice Mathews.

THE story of the murderous maniac on a railway train from Kansas City to Chicago will read with deep interest. It would seem that the railway officials were negligent in allowing this man to proceed on his journey from Kansas City.

Exhibit Unmistakable Signs of Violent Insanity.

From the Kansas City Journal of Sunday morning we learn that the union depot detectives, having learned that the man was on the train, boarded it as it entered the depot.

It is the forthcoming book of Miss Cleveland had been issued when her brother was mayor of Buffalo or even governor of New York, it would have attracted only ordinary attention.

THE example of Mr. Snyder, a New Yorker, in requesting that his pension, amounting to \$72 per month, be stopped is already having a good effect.

Enslavement Upon Victor Hugo.

One of the greatest men of the modern times and one, who, perhaps demonstrated as forcibly his individuality as any man, died in Paris, France, May 22.

SAFE BLOWERS.

An Attempt to Rob Ed. McEnder's Safe.

A Terrific Explosion, Followed by Rattling Glass and Great Excitement—One of the Scoundrels Captured.

About 1 o'clock last night a terrific explosion was heard in Edward McEnder's carriage shop at the corner of Sixteenth and Chicago streets.

The effort to get Mr. McEnder's safe open was not successful, as only the outside plate of the safe door was blown off. The villain who drilled a hole into the door just below the lock handle, but it seems they failed to get far enough in to reach the lock.

RAILWAY RUMBLINGS.

Three Important Meetings Begin at Denver To-Day.

Some Lively Movements Among Railway Officials Yesterday—An Effort to Get a Reduction on Freight From Chicago Westward.

A joint western classification meeting, in which the Union Pacific, Burlington & Missouri, Santa Fe, Central Pacific, Denver & Rio Grande, Texas & Pacific, Southern Pacific, Oregon Railway Navigation, and Northern Pacific railroad companies will be represented by their general freight agents, is to be held at Denver to-day.

THE NORTH AMERICAN REVIEW.

The North American Review concludes its seventieth year with its June number. It never had so large a circulation, nor greater influence, nor a more brilliant staff of contributors.
