the terrined inhabitants are now camped in fields which surround the town. The town is near, the center of the vale of Cashmere and the whole territory experienced terrible shocks. The damage caused throughout the vale is enormous, the loss in cattle alone being very great. The afrighted people seem to be utterly helpless and succor is being sent them as rapidly as the Indian authorities can organize relief. Many houses on account of the large rents in the walls caused by the shock, must be razed to the ground. The shocks have not yet ceased and this fact greatly retards the work divisions. The shocks have not yet ceased and this fact greatly retards the work of rescuing the people buried in the debris and it is feared many of these must perish before they can be reached by relief parties.

Vienna, May 2.—Serious anti-Jewish riots have broken out. The inciting cause now is the excitoment of the people growing out of the election agitation. The Carmelite Platz was filled with a howling mob and free tights were frequent. The shops of the Jews were raided and ruined and the owners violently assaulted. Not less than forty persons were severely wounded. The police made many arrests, but were powerless to suppress the rioters, and were cobliged to call the military. Other riots of like violence have taken place in the Wieden and Neuben districts, where the entire police force are on districts, where the entire place is the town. the senate proceeded to the reading of bills a second time. In the house, after the reading of Friday's journal, Graham moved to expunge from the journal all that part relating to the senate appropriations bill. These bills were read and declared advanced by the speaker in defiance of the wish of the house. Graham spoke on the motion, scourging severely Speaker Haines for his arbitrary and illegal actions on Friday. F. W. Parker and Bou-tell also denounced Haines. The speaker, in justification, said his actions were for the purpose of restoring order in the house. The matter was expunged from the journal, with five negative votes. West asserted that the enrolled and engrossed bills committee were stifling certain bills. His resolution that his bill in regard to the sale of live stock having been engrossed be returned to the ouse after being amended to include all bills ordered engrossed to third reading, was adopted. The senate bills making appropriations for the institutions were then read the first time and ordered to second reading.

In the house this afternoon all the appro-priation bills that passed the senate were read the first time and ordered to second reading. The senate bill regulating telephone charges was read the first time and a quorum broken on referring it to a committee. SUICIDE OF AN "OFFENSIVE PARTISAN" IN ST. LOUIS HOTEL.

St. Louis, Mo., June 2 -R W. Reynolds,

ate first auditor of the United States treas ury, killed himself this morning in the Southern hotel. There is an air shaft in the hotel over the rotunda, which cuts through the dif ferent floors. At five minutes to six Reynolds either jumped or fell over the railing on the third story out into the shaft. His body to Reynolds room disclosed the fact that was full of gas, although the stop-cock was turned, hence the theory is held in the hotel that it must be suicide and that after the failure to asphyxiate himself he took the terrible dive to the marble floor below. Rey olds had made a careful toilet this mornin ofght. He was in excellent spirits when last seen alive and no motive can be suggested for self-killing. He was on his way to Kansas to buy land. He left the United States treasu-ry only two weeks ago, and was about sixty years of age and a fine, healthy looking man.

AFTER HARRISON'S SCALP,

DISCOVERY OF STARTLING FRAUDS IN CHICAGO'S MUNICIPAL ELECTION.

Special Telegram to The BEE. CHICAGO, Ill., June 2.-There was an important conference of the friends of Judge Smith this afternoon. Steps toward making an effective contest for Carter Harrison's seat are being slowly but carefully taken. All the morning was spent in going over the lists of voters which have been found to be fraudulent upon careful investigation. Evidence has been compiled to show that Col. Felton, on election day, voted over 300 prisoners from his place, and voted them all in the district in which the bridewell stands. On that night the nine guards who were deputized to march the men out and vote them were so drunk when the returned that they were unable to get to their beds, but threw themselves down in the corridors. Affidavits will be offered from certain prisecess at the place to show that they voted, and of course at the The committee having the matter in charge have a list of 1,200 and odd votes , which the most honest kind of an investigation has shown to be fraudulent. The 300 members of the bridewell were marched out by Felton and voted, everyone for Carter Harrison. This

makes over 1,500 votes for the present in-cumbent which it will be necessary for him to explain in some manner.

Application will be made this week for a quo-warranto writ. An effort will be made to keep it cut of the county court where Judge Prendergasts sits, he being a democrat. The most unpleasant preseure would be brought to befriend Harrison.

"There will be," said a gentleman who was at the conference this afternoon, "a most earnest and serious contest. It will be made with all the energy with which Judge Smith's campaign was made, and is pretty certain to
