FINANCE AND COMMERCE.

FINANCIAL

New York, June 11.—Money—Easy at 1 per cent.

Prime mercantile paper—42½ per cent.

Foreign Exchange—Quiet; sterling bills, \$4.80; demand, \$4.86.

Governments—Continue strong on moderate business.

Stocks—Dull; strong from the opening until after 2 o'clock without the development of a single feature. The first prices were generally a shade above the closing figures of last evening. There was a fractional reduction from those quotations with a slight reaction and then nothing but dullness and steadiness during the time referred to, the extreme fluctuation being generally considerably less than 1 per cent. In the last hour, however, the increased activity was accompanied by a decided advance, during which in most cases the highest prices of the day were established for active stocks, and the strength and activity continued until the close of the board.
