The Fourth of July is to be celebrated in Omaha. Better late than never.

The Herald deals out a liberal dose of taffy to certain Union Pacific officials.

AMID the confusion of the cabinet crisis and other local disturbances, the British lion has temporarily lost sight of the Russian bear.

PARENTS who have been trying to settle the question as to which is the best college for their boys, need have no more trouble in solving that problem as Harvard has beaten Yale in a boat race.

The country, as usual, draws on Omaha for Fourth of July orators. About a dozen of the most distinguished citizens and most eloquent orators will cut the eagle loose on Independence day in various patriotic communities in Nebraska.

MINNEAPOLIS and St. Paul are constantly quarreling and looking into each other's back kitchen. We would suggest that the two consolidate and adopt the name of Minneapolis.

By all means the Sandwich Islands, with their valuable sugar plantations, should be annexed to the United States.

OMAHA and West Point and intermediate places are to have improved railroad accommodations, beginning on Monday.

CALCULATIONS on the wheat crop indicate, the variations having a wide range.

OUR PUBLIC SCHOOLS. The public schools are now closed for the season and some plain talk concerning the defects of our system may be profitable before the course of instruction is arranged and the teachers are chosen for the coming year.

"OFFENSIVE PARTISANSHIP" was the charge upon which the internal revenue collector at Madison, Wisconsin, was removed from office.

THE Kansas City Times says the people of Kansas City want no stinkiness in boundary lines.

WHY should builders be permitted to blockade the entire width of the sidewalk on business streets, even after the sidewalk has been excavated?

THE square deal, which Mr. Kimball makes through his editorial mouthpiece in the Omaha Republican, may be taken by the public for what it is worth.

There is also a lamentable lack of thoroughness in the branches of useful and indispensable knowledge, such as history, especially the history of our country and our own times.

WE want our young men and women to know a great deal more about steam, electricity, magnetism, plants and minerals, and we could safely dispense with ornamental studies.

HOUNDED BY HOODLUMS.

The hoodlum press of Nebraska, which upon every occasion attempts to belittle and traduce Senator Van Wyck, has at last found an opportunity for displaying its small-souled spite.

Norfolk, one of the liveliest and prettiest towns in this state, intended to celebrate the Fourth of July in grand style.

THE "people" in this instance happen to be a gang of political bushwhackers who have been deluged from the public crib by the vigilant and vigorous efforts of Senator Van Wyck against land-grabbers and land-office sharks.

Senator Van Wyck is not an obscure man, or a man whose conduct has deprived him of popular confidence.

THE recent decision of the court of appeals of New York in regard to oleomargarine is to the effect that the law prohibiting its manufacture is unconstitutional.

IT is high time that the telegraphing of the daily antics of John McCullough should cease.

THE members of the present cabinet are taking advantage of every opportunity to keep themselves before the public.

THE whole number of visitors to the New Orleans exposition was 1,158,840.

WORK is progressing on Senator Edmunds' new Washington residence just as though he expected to live there at least six years more.

THE city council of Hastings has granted a franchise for gas works, to be completed February 1, 1886.

WILL Mayor Boyd send in some new nominations next Tuesday, or has he about exhausted his last complimentary to men of "influence" who helped to elect him?

IF there is to be a change, why would not A. D. Jones make a good postmaster? The only objection that could be made to him is that his hat is not now large enough.

IF the Union Pacific railroad is taken out of politics, John M. Thurston's occupation as a boss and leader in politics will be gone.

Now that John C. Santee and Mr. Markley, of Niobrara, make a favorable impression upon Mr. Cleveland the country is safe.

THE fiscal year begins next Thursday, and about that time the offensive partisan all along the line will be given a vacation.

STATE NOTICES.

Grand Island has eighty-five bellows. Alton's population reaches the 900 notch.

The assessed valuation of Ainsworth is \$170,000. Long Pine populates at 345, with great expectations.

There is a considerable rivalry among southern cities in regard to the erection of expensive buildings for the Young Men's Christian association.

ALL sorts of devices are resorted to by land seekers to get as much as possible under the various land laws.

There is nothing small about Custer county; even half stones, the home product, reach a diameter of eight inches.

A bridge over the Republican is one of the mechanical devices which have been invented to tax themselves for it.

THE town of Hughes is the latest and newest magic city of the plains staked off for future greatness in Dawes county.

SOCIAL SALAD.

Brief Items About Omaha People and Affairs--The Hymenometer.

Society was extremely dull last week--there is nothing of surpassing interest to chronicle.

Mrs. H. W. Smith is visiting her mother, Mrs. President Smith, at Mt. Vernon Iowa.

Mrs. A. U. Wyman has joined her husband here, and with her children is stopping at the Millard.

Mr. Samuel Shears and daughters expect to leave the city, July 10, to occupy their cottage at North Lake, Wis.

Tuesday evening a very enjoyable organ recital was given at the First Congregational church by Mr. W. T. Fisher.

Mrs. J. M. Woolworth is in Chicago, at 14 Harrison street, where her daughter, Miss Menie, is passing the summer.

Miss Bessie Hatch, daughter of Gov. Hatch, colored St. Paul, Minn., arrived from Fort Leavenworth, and is visiting at Col. Henry's.

The ladies of the First Congregational church gave a very pleasant social at the house of Mrs. Taylor, 24 Chicago street last night, which was greatly enjoyed.

Miss Clara Cooper, one of the accomplished belles of Oswego, N. Y., is in the city, visiting Mr. and Mrs. W. Spafford, with some intention of remaining here.

Miss Eva Allen, of 1910 Webster street, gave a high tea Thursday afternoon, her guests being the Misses Howland, the Misses Dixon, Mrs. Vail and Miss Burton, of Denver; Mrs. Coats, Bennett, Hix, Sharp, Brown and Dewey.

The "annual tea" of the Locke club was given Tuesday evening at the residence of Mr. and Mrs. W. J. Connel on St. Mary's avenue. There was a great attendance of young ladies.

A very creditable impromptu program was arranged, to which Mrs. Estabrook, Mrs. W. M. St. John, Mrs. H. H. Hitchcock, Mrs. E. Estabrook, Mrs. M. M. St. John, Mrs. M. J. Jordan, Mrs. Dickey, Mr. Jarvis and Mr. Wilber participated.

After a week's inoperability, the instrument which delineates so cleverly the matrimonial events of the future is once more in running order.

The index hands are moving. They stop, glancing at the hatched dial of the hymenometer. It is noted that two names are linked in sweet conjunction.

Another prediction is made by the instrument. This time its hands point to two new names which are illumined on the dial.

Once more, and for the last time the index hands revolve. Looking closely at the phylloxera dial, one notices that they are pointing at the names of two young ladies.

Burglars broke into, and riddled the grocery store of Dickson & Bowers, corner of Nineteenth and St. Mary's avenue Friday night.

Miss Taylor, of Washburn, Dak., has taken, at the county fair, the first prize for butter and the last medal for pumpkins.

A young lady out in Indiana has invented a piano stool that will rest the back. It isn't the stool that suffers most from piano playing.

SMOKE SAAL OF NORTH CAROLINA TOBACCO.

The scholastic year ended at this excellent institution yesterday afternoon at 3:30.

The closing exercises were interesting in the highest degree. The programme was varied and highly entertaining.

Miss E. Maine was a composition of refined taste, and was delivered in a touching manner.

Miss J. Gregg recited "Calpurnia" in artistic style, and gave indication of the possession of more than ordinary elocutionary powers.

Miss M. Nash and Pauline Lewis, was highly amusing. These two young misses were perfectly possessed and very eloquent in their delivery.

Miss Clara Creighton deserves great credit for the finished rendition of "John of the Cross" with the "Trial by Jury." The "price" was placed upon this important case to render a verdict of guilty or not guilty in reference to the conduct of the school bell.

Miss Mary McNamara was counsel for the defense. Mr. W. L. appeared for the prosecution. Parents will be dismayed to learn that a verdict was brought in against the bell for having frequently and wantonly interfered with the sports and pastime of the students.

SYNAGOGUE EXERCISES.

Two Interesting Sermons Delivered by the Rev. Max Moses.

Friday evening the Synagogue was crowded with a large audience on the event of the first appearance here of the Rev. Dr. Max Moses of Jacksonville, Florida.

The reverend gentleman preached a very excellent sermon, short and to the point.

He clearly defined righteousness, and said that people who affected piety out of fear of God were not righteous; or for any selfish object or to gain any point; but from a pure love of God all righteousness sprang.

The music of the occasion was splendidly rendered by a chosen choir composed of Mrs. M. Mitchell, soprano; Mrs. F. M. Day, alto; Mr. W. G. H. Wilson, tenor; Mr. Reval Franco, basso.

Next Tuesday another preacher from the east will be invited to deliver two sermons on trial. From these two reverend gentlemen the congregation will select a pastor.

BEASCULPTOR.

A Young Genius Who Shows Remarkable Ability in Wood Carving.

Owing to the length of the article on the Central school which the Bee published this week, only a short mention was made of a youthful scholar who will make his mark in the world.

This scholar is Charley Wyman, the twelve-year-old Swede who has exhibited a decided genius as a jack-knife sculptor, and whose excellent work deserves especial mention.

Charley has been in this country only a short time, he having been born and reared on a small island in the Baltic sea. In his short residence here he has proved himself a bright and quick scholar, in addition to acquiring the language.

His first work in wood carving was a number of designs which had been given by the teacher for slate drawing. These were very nicely executed, and were followed by the making in wood of a full set of millwright's carpenter's tools and a chest to hold them.

He also constructed wheelbarrows, coats, etc., in perfect form. Then his attention was called by his teacher to the more delicate work of carving leaves, flowers and fruits.

His efforts in this direction, with only a pine board and a knife, were so good that he was called upon to carve a man's head, and those who are acquainted with the individual represented say it is an excellent likeness.

The next specimen of his work seen is a carving from a picture of a boy with his arms clasped lovingly around the neck of a dog. It is almost perfectly executed, the features and expression being wonderfully clear, showing that the artist has an appreciation of the emotions represented by the picture as well as the outlines.

A number of mechanical devices have also been carved from wood by young Wyman, evincing considerable genius in that direction.

Charley is going to be a sculptor, and he should be encouraged in his desire, for he certainly possesses marked ability.
