GEN. MCCOOK, ex-governor of Colorado, has been giving the secretary of the interior some valuable information and sound suggestions upon Indian affairs in the Indian territory.

JULY 1st was the day set by the knowing politicians for a clean sweep in the departments at Washington, but it failed to put in an appearance on time.

Major Llewellyn certainly exerts an extraordinary influence over his savage warriors, and has given to the Indian problem as much study, probably, as any other man in the country.

Without them these bloody annual raids would be impossible, and the proper authorities ought to make haste to adopt this simple and perfect preventive against Indian outbreaks.

It is a disgrace to the city that Hanscom park is so shamefully neglected.
