Imported Beer. IN BOTTLES. For the cure of all the diseases of the human system. ED MAURER, 1213 Farnam St.

THE HARVEST ON. The Music of the Reaper and Binder Heard in the Land.

The Present Condition of the Crop Ahead of Last Year. Corn maintains the lead in all Counties in the state--No Material Damage by Storms.

Reports from fifty-four points in the state, covering an equal number of counties, presents a flattering outlook for a bountiful harvest in Nebraska. The reports invariably show increase in acreage, especially of corn, ranging from ten to forty per cent. There are a few complaints of late planting and replanting, but the prospect, on the whole, is reported considerably in advance of the corresponding time last year.

BEAUMONT, Knox Co., July 12.--The outlook so far for an abundant harvest is fully better than last year, and really promises better than this country ever had. The heat and wind storm had a about the middle of June hurt the crops quite a little, but everything has fully recovered from the effects of the storm. The increase in acreage over last year is one-third. Rice is now being harvested.

HARDY, Kneels Co., July 12.--Wheat and rye, little short but promising a good, well-filled berry. Acreage increased about one-fourth. No damage. The acreage of corn is probably about forty per cent, and lots of breaking done this season. Everything looks well now, having a little late-ness in planting corn. With the rains of this week we feel safe for a large yield as from last year. Considerable increase in population by immigration, a general air of prosperity is to be noticed in this section.

STROMBURG, Polk Co., July 12.--Have talked with a number of posted men and grain dealers here and at Des Moines and they agree with me as follows: Crops not damaged by wind or hail so far. All crops looking as well as ever seen here, and prospect of great yield. Corn has a good stand and is probably ten per cent larger acreage than last year. Wheat larger acreage than last year, as all other grains except possibly flax. That may not be broken this year, but it is probably not cut early wheat and rye. The corn is not backward but stands three feet to-day. Some are done working it and others working the last time. There was a little hail in the southwest part of the county on the 4th, but no material damage was done. Stromburg alone shipped 145,000 bushels of wheat during 1884. No other figures are given.

BANKLEMAN, Dundy Co., July 12.--There has been no hail to injure crops in this county but an abundance of rain, and the prospect of a good crop is very encouraging. As you are aware, our county is just changing from a grain to an agricultural country. Being the first year as such we have a large acreage of sod corn planted. Generally speaking, the farmers here are doing well. Our county is filling with a good class of farmers, men of means, who bring their agricultural implements to the county, and which is a good exponent of their intention to stay.

DAVID CITY, Butler Co., July 12.--Butler county has the best prospects for large crops that she has ever had. No damage by wind or hail. Acreage of all grains increased. Wheat and rye are in fine condition and growing rapidly. CLEVELAND, July 12.--The crops in this county on an average are as good as last season. There was some damage done to crops by hail and wind storms in some sections of the county. The corn crop never looked better at this time of the year. Oats are rather short to bind; wheat is a fair crop.

CHIMOKO, Sully Co., July 12.--We never had a better crop of corn in Sully county. Hailstorms, etc., have done no damage, to mention. Heavy wheat was down some, but most of it has come up again. More acreage of corn than last season. Small crops about the same. AIMA, Harlan Co., July 12.--The condition of crops in this county was never better, and the prospect is far more than an average of all kinds. There has been no damage in this county from wind or hail. I think the acreage is about one-fourth more than last year.

STELLA, Richardson Co., July 12.--Winter wheat, spring small, quality good, light yield. Spring wheat, average quality, estimated to turn out 12 bushels per acre. Corn is looking well and principally "laid by." The acreage is largely increased this year, as much fall wheat ground was planted to corn. No damage from wind or hail storms. AXTELL, July 12.--Wheat--Winter, one-half crop; spring, about ten per cent, below last year; just had a fine rain, which will materially aid in filling out the crop. Corn never was finer at this time of the year. The acreage is about the same as last year in wheat and twenty per cent more in corn, with considerable fall, which looks fine. Oats and barley will be short fully forty per cent. There has been no hail whatever here this season, and no damage by wind.

GRAFTON, Fillmore Co., July 12.--Crops in this section never better. No damage by wind or hail storms. The average from present prospect will be far ahead of last year. The farmers are jubilant over the crop prospects. ALMERIA, Loup Co., July 12.--Our crops in the county of Loup and especially in the surroundings of Almeria look very promising, and the prospect is far ahead of last year. The acreage of our corn, oats and wheat. The acreage of grain is more than double to that of last year not counting the vast amount of sod corn planted from one to three feet high and looks immense.

what, though the acreage is small generally. Barley is only fair; the yield will be from fifteen to twenty bushels to the acre. Oats are good and will yield a fair crop. Potatoes will be a good crop. Timothy rather short; do not think the yield will be more than one to one and a half tons to the acre. There has not been any hail or wind storms in this part of the country this year. There has been quite a loss of wheat, but it is abating. Taking the crops in general they are the best in this section I have seen for years. The fruit crop will be light.

HANCOCK, Kearney Co., July 12.--Have had no storms in Kearney to damage the crops. Crops never looked better and will probably yield fifteen to twenty bushels of wheat, and about forty bushels of corn. Better than it has any year yet. Barley will not yield over fifteen bushels the way it looks now.

ASHLAND, Sanders Co., July 12.--The acreage of grain in this county is about the same as last year. The corn is looking fine. The wheat is considerably blighted, and the chintz bug has done some bad work. Oats are very good. The hail did some damage in the western part of the county. No damage by wind or hail in this county as far as I can learn.

CAMDEN, July 12.--Wheat is in quality 100 per cent, acreage 95 per cent; oats in quality 105 per cent, acreage 100 per cent; corn in quality 100 per cent, acreage 105 per cent; potatoes in quality 95 per cent, acreage 100 per cent; flax in quality 100 per cent, acreage 90 per cent; grass in quality 95 per cent, acreage 85 per cent; tame in quality 120 per cent, acreage 120 per cent; apples in quality 80 per cent, acreage 100 per cent; small fruits in quality 90 per cent, acreage 80 per cent; rye in quality 90 per cent, acreage 80 per cent. Wheat and oats are in quality 90 per cent, lower blades but looks all right now. No damage by hail nor storm.

STRAIT, Holt Co., July 12.--Crops in general looking fair, better than last year. Oats are affected some by dry weather, but corn and wheat are doing splendidly. No damage by wind or hail in this vicinity, up to the present time. NELIGH, Antelope Co., July 12.--Crops are just looking grand. An oat there has been no damage done to crops by wind or hail. Farmers are cutting rye, oats and timothy. On the farm of Capt. Dennis can be seen a field of rye containing 120 acres, it standing five to six feet high, with 40 bushels to the acre. Also, on the place of T. F. Reynolds, two miles west of Neligh, a neighbor of Mr. Dennis, is a piece of timothy containing twenty acres, which will yield 40 bushels to the acre. Also, on the place of T. F. Reynolds, two miles west of Neligh, a neighbor of Mr. Dennis, is a piece of timothy containing twenty acres, which will yield 40 bushels to the acre. Also, on the place of T. F. Reynolds, two miles west of Neligh, a neighbor of Mr. Dennis, is a piece of timothy containing twenty acres, which will yield 40 bushels to the acre.

PHILLIPS, Hamilton Co., July 12.--The condition of small grain is above an average. Corn is rather backward, not near so large as it was a year ago. It has made a wonderful improvement in the season. There is no corn in this county setting up at a very rapid rate.

WEEPING WATER, Cass Co., July 12.--The average is about one-tenth more than last year, and if the weather continues to be so on the yield will be as much or more than last year in corn. Wheat is a little better than last year, acreage about the same. No hail to amount to anything in this county.

JENATA, Adams Co., July 12.--Crops never looked better in this county, excepting corn, which is a little backward for this time of year. TEKAMAH, Burt Co., July 12.--Crops of all kinds are looking well, and have recovered entirely from the damage done by wind and hail. Corn on the lowest bottom land, where it looks little yellow. Corn on the uplands never promised a larger yield at this season of the year than it does now. Acreage of corn one-fifth more than last year. If everything is favorable there will be an immense yield of small grain of all kinds, such as the indications of the crops now. The acreage is larger than last year.

PLAINVIEW, Pierce Co., July 12.--Crops are looking exceedingly well in this county. They have not been damaged by storms or hailstorms. Acreage of corn is about 25 per cent better this year than last season. If nothing happens we will have an abundant crop of corn and small grain. The farmers are feeling good over the prospect.

STROMBURG, Polk Co., July 12.--No hail storm or wind storm has hit Polk county this season. The acreage of small grain and corn is larger this year than last and the prospect for a good crop on all kinds of crops is never better at the season. There is no corn in this county setting up at a very rapid rate.

FRIEL, Lancaster Co., July 12.--Present indications for a very good crop of corn, and the late planting and replanting. The acreage is larger this year than last, and the prospect fully as good as last year. Wheat and oats promise to be unusual crops. Harvesting in small grain has commenced in earnest. The season has been fair. No hail nor wind storms to injure crops in this locality.

able; all kinds of small grain looking well; prospects for a crop never better. JACKSON.--Warm weather past week had brought corn up to a good average; small grain reported in good condition. HANCOCK.--Crops of all kinds have been doing well as well as could reasonably be desired during the past week.

WAKEFIELD.--The weather continues favorable; crops are doing splendidly; also small grain; prospects for good crops. WAKEFIELD.--The weather continues favorable and crops are doing nicely; prospects good for a big crop of all kinds.

WYANE.--The past week has been very favorable for corn and other grain; wheat prospect full year; corn continues to do well and prospects are good. HAMILTON.--All small grain is doing nicely around here; weather favorable for corn.

PONCA.--Crops doing well; weather favorable; no material change since last report. CALHOUN.--Crops all continue to do well and prospects are good. BLAIR.--All crops doing nicely.

The First Continental Congress. The first Continental congress assembled at Philadelphia, September 5, 1774; the second at Philadelphia, May 10, 1775; the third at Lancaster, December 20, 1775; the fourth at Lancaster, Pa., September 27, 1777; the sixth at York, Pa., September 30, 1777; the seventh at Philadelphia, September 2, 1778; the eighth at Princeton, N. J., June 30, 1783; the ninth at Annapolis, November 26, 1783, and here, December 23, 1783, Washington resigned his office as commander-in-chief of the army; the tenth at Trenton, N. J., November 1, 1783; the eleventh at New York, January 11, 1785, when the new government was organized and Washington, the first president was inaugurated. The federal capital remained at New York till 1790, when it was removed to Philadelphia, remaining there until 1800, when it was permanently established at Washington, D. C., congress first assembling in that city November 17, 1800.

What is a Corpuscle? One of the smallest things on earth. It is little else, oval in shape and not the three-thousandth part of an inch in length. The corpuscles give to the blood its bright red color. This color they owe to the iron that is in them. Without iron your blood would be so pale and thin as to be of no account. Iron enriches it and gives you vitality. The only reliable preparation of iron for a low state of blood is Dr. J. C. B. Siegest & Sons.

Philadelphia policemen are to be allowed three days' vacation this summer. There was a young woman from Lancaster who caught a bad cold while dancing. With Red Star Cough Cure, She was better for sure, And her eyes now with pleasure are glistening.

"Utopia" is the name of a new postoffice in Newberry county, South Carolina. Agriculture Bitters are endorsed by the leading physicians and chemists for their purifying and tonic properties. Beware of counterfeits and ask your grocer and druggist for the genuine article, prepared by Dr. J. C. B. Siegest & Sons.

Cable cars began to run in Pachuca, Mexico, on July 1. "The Proper Study of Mankind is Man," says the illustrious Pope. If he had included woman in the list, he would have been nearer the truth, if not so poetical. Dr. R. V. Pierce has made them both a life study, especially woman, and the peculiar derangements to which her delicate system is liable, many women in this country are unacquainted with. Dr. Pierce only through his "Favorite Prescription," bless him with all their hearts, for he has brought them the panacea of all those chronic ailments peculiar to their sex; such as leucorrhoea, prolapsus and other displacements, morbidness, internal fever, bloating, tendency to internal cancer, and other ailments. Price reduced to one dollar. By druggists.

Eccentricity in a rich man is lunacy in a poor one. PILES!! PILES!! PILES!! A new cure for Bilious, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. Williams, (an Indian remedy), called Dr. Williams' Indian Pile Ointment. A single application will cure the worst chronic cases of 25 or 30 years standing. No one need suffer five months after applying this wonderful soothing medicine. Lotions and instruments do little but do harm. Williams' Indian Pile Ointment absorbs the tumors, allays the intense itching, (particularly at night after getting warm in bed), acts as a poultice, gives relief, and is prepared only for Piles, itching of private parts, and for nothing else.

SKIN DISEASES CURED by Dr. Frazier's Magic Ointment. Cures as if by magic. Pimples, Black Heads or Grubs--Blotches and Eruptions on the face, leaving the skin clear and beautiful. Also cures Itch, Salt Rheum, Sore Nipples, Sore Lips, and Old, Obstinate Ulcers. Sold by druggists, or mailed on receipt of 50 cents to C. F. Goodman. At retail by Kuhn & Co., and Schroeter & Becht. At wholesale by C. F. Goodman.

DOCTOR WHITTIER. 617 St. Charles St., St. Louis, Mo. A regular graduate of the Medical College, has been in the practice of the specialty of Diseases of the Skin, and all other chronic and difficult cases. Rheumatism, Neuralgia, Sciatica, Lumbago, Headache, Toothache, Stomachache, Neuralgia, Sciatica, Lumbago, Headache, Toothache, Stomachache.

MARRIAGE GUIDE! 30 pages, free given. Illustrated in cloth and gilt binding. Contains all the latest and most reliable information on all the subjects connected with marriage. Address: DR. JAMES M. WOODMAN, 204 Washington St., Chicago, Ill.

James Medical Institute. Chartered by the State of Illinois. The express purpose of the Institute is the giving of immediate relief in all chronic, urinary and prostatic diseases. Gonorrhoea, Gleet and Syphilis in all their complicated forms, also all the diseases of the Skin and Blood promptly relieved and permanently cured by the use of the Institute's Special Remedies. Seminal Weakness, Mercurial Poison, Stricture, Gonorrhoea, Night Losses by Dreams, Pimples on the Face, Loss of Vision, Catarrh of the Bladder, and all other chronic and difficult cases. Address: DR. JAMES M. WOODMAN, 204 Washington St., Chicago, Ill.

HARTELL'S IRON TONIC. THE ONLY TONIC. Will purify the blood, give strength and vitality to the system, and cure all the diseases of the blood. Address: DR. JAMES M. WOODMAN, 204 Washington St., Chicago, Ill.

Regular four year courses in Civil Mechanical, Mining and Electrical Engineering, Architecture, Chemistry, Physics, Natural History, etc. Students are also admitted to partial or special courses. Next school year begins Sept. 25, 1885. Entrance examinations June 15 and 16. For prospectus apply to Prof. Geo. Howland, Board of Education, rooms City Hall, Chicago. FRANCIS A. WALKER, President.

AFINE LINE OF Pianos & Organs. WOODBRIDGE BROS., MUSIC HOUSE. IN OMAHA, NEB. Town Lots in Denver Junction Weld County, Colorado.

Denver Junction is a new town of about 200 inhabitants, laid out in 1884, on the great trunk railway across the continent, at the junction of the Julesburg Branch, 197 miles from Denver. The town is on second bottom land of the Platte River, the finest location between Omaha and Denver, and is surrounded by the best laying lands west of Kearney Junction, Neb.; climate healthy and bracing; streets 30 ft. wide. Denver Junction bids to become an important point, as the U. P. R. R. Co. are putting up many of their buildings here, while the B. & M. R. R. Co. are expected soon to connect at this place. The present chance for good investments in town lots will scarcely ever be equalled elsewhere. For sale by the lot or block in good terms by H. M. WOOLMAN, Agent, Denver Junction, Colo.

A BEAUTIFUL TOWN. ELEGANTLY LOCATED.

Large Lots at Reasonable Prices.

Since the completion of the new packing and slaughter houses, South Omaha is making a wonderful and rapid growth. Besides the large pork and beef house erected for Hammond & Co., other dealers have commenced the erection of similar institutions and still others are contemplated for the near future. Several dwellings have been built and twenty or thirty are now building. Employment is now furnished to about one hundred and fifty families, and conservative estimates place the figure at eight hundred to one thousand families that will find employment there a year hence. This offers great inducements to laboring men to secure homes now while they are cheap. Speculators will also find it to their advantage to buy at present prices. The company have made no change from the original prices, but some parties who first purchased lots have resold them at splendid profits, in some cases at double the purchase price. If in so short a time handsome profits are made, what will be the result when everything is fully developed? In the few other cities that are favored with a first class cattle market, fortunes have been made by investors in real estate, and the same is certain to follow in South Omaha. While the whole city of Omaha will be greatly benefitted by the growth and development of the cattle interest, South Omaha lots will enhance in value more rapidly than any other by reason of the proximity to the works.

Manufacturers of all kinds will find it to their advantage to inspect this property; good location, level grounds, track facilities and plenty of good pure water furnished by the South Omaha Water Works. In fact, every facility to make desirable for manufacturers, including cheap ground.

Will find it profitable to select property now, as a year or two hence with a population of 5000 to 10,000 people, this will become a desirable place for all kinds of business, and lots bought now, can be had at very reasonable prices which will double in price many times in the next two years.

BUSINESS MEN. Will find it profitable to select property now, as a year or two hence with a population of 5000 to 10,000 people, this will become a desirable place for all kinds of business, and lots bought now, can be had at very reasonable prices which will double in price many times in the next two years.

EVERYBODY. Rich or poor, will find it profitable to make investments in this property. Free conveyance at all times will be furnished by us to parties wishing to see this wonderful new town and learn of its advantages. We have entire charge of, and are the exclusive agents for the sale of all this property from G streets south. Splendid lots from \$225 upwards.

Bedford & Souer, 213 S. 14th Street.
