STOCKS ON WALL STREET.

New York, July 21.—Money—Easy at 1 per cent. Prime paper— $\frac{1}{4}$ per cent. Exchange bills—\$4842; demand, \$1,861. Governments—Dull but firm. Stocks were irregular but very active. During the forenoon there was a decided upward movement which carried prices at about 2 o'clock, in a majority of cases, to the highest quotations of the day. In the last hour there was a decline of $\frac{1}{2}$ to 1 cent which was checked just before 3 o'clock, the market closing steady at the fractional gain of the final quotations yesterday. With the mercury at 100° in the shade, there has been a very volume of new business. Buyers are present in full force and all the indications point to a steadily improving demand as the season advances. The export of domestic cottons for the week have been 7,535 bales, making for the expired portion of the year a total of 119,939 packages against 93,702 for the same time last year and being an increase of 23,188 packages, or at the rate of 23% per cent.
