For the berefit of suffering humanity. I deem it only my duty to give this unsolicited testimony in favor i Switt's Specific. My wife his been afflicted with Eczema from infanor. We tried every known remedy, but to no avail. She was also afflicted with a perio dical nervous headache, sometimes followed by an intermittant fever, so that her life became a burden to her. Finally I determined to try Swift's Specific She or memcred seven weeks ago. After taking the first large bottle the disease seemed to increase; the burning, itching and infilmation became unbearable. She, ho wever, perceuted in the use of the medicine. After taking the second bottle the infiamation beyon to subside. After the third bottle the inflamation disappeared, and sore spots dried up and threed white and scale, and finally she brushed the moff in an impalpable white powder resembling pure sait. She is now taking the sixth bottle; every appearace of the disease is gone, and her flesh is soft and white as a child's. Her headaches have disappeared and she enjoys the only good health she has known in 40 years. No wonder the deems every bottle of S. S. S. Is worth a thousand times its weight in gold.

Any further information concerning her case will be cheerfully given by herself at her residence, 135 Mul ett Street, or by me.

Employment is now furnished to about one hundred and fifty families, and conservative estimates place the figure at eight hundred to one thousand families that will find employment there a year hence. This offers great inducements to laboring men to secure homes now while they are cheap. Speculators will also find it to their advantage to buy at present prices. The company have made no change from the original prices, but some parties who first purchased lots have resold them at splendid profits, in some cases at double the purchase price. If in so short a ime handsome profits are made, what will be the result when everything is fully developed? In the few other cities that are favored with a first class cattle market, fortunes have been made by investors in real estate, and the same is certain to follow in South Omaha. While the whole city of Omaha will be greatly benefitted by the growth and development of the cattle interest, South Omaha lots will enhance in value more rapidly than any other by reason of the prox imity to the works.
