The Minden and Athletic clubs sgain fair grounds here to-day.

Mrs. Blaine, who lives on First avenue, is preparing to enlarge and greatly Improve her residence, the cost to reach about \$3,000.

Permits to marry have been granted to Verlin Carson, of Green county, Iowa, and Nora Beckwith, of Beatrice, Neb.; also to S. L. Pettit and T. E. McNally,

card of Mrs. A. B. Roberts, who has to be run in that night. opened a dressmaking establishment at No. 34 Pearl street. The ladles should make a note of it.

The county board will receive and open bids on Thursday afternoon, to determine who will serve as a doctor for the paupers of the county he county wants to get its doctors as cheap as possible, and takes this plan. City warrants were yesterday selling

at seventy-five cents. At this discount a good profit is secured for the buyer, but not a very great profit for the seller, who in most cases has had to work hard to procure the warr int.

It cost over \$40 just to place the fountain at the corner of Pearl and Main streets. In this was included the cost of a cess pool. In this era of municipal retrenchment the luxury of planting fountains is hardly consistent.

The contest over the chieftainship of the fire department was to have come up on Monday before Judge Aylesworth, but was postponed until next Friday. The decision in the first round has not been given yet, it being held till the second round could be fought, and then decided all together.

J. O. Bennett, the Main street liveryman, while proceeding home in the dark. unlighted streets, Monday night, made a misstep at the approach on the Second street bridge, and sprained his right ankle badly. He is able to be out and number of matters referred to him, the about, but is suffering and limping.

The Rock Island folks here received yesterday a telegram from the Chicago headquarters, saying: "Owing to the bad weather the managers of the state disallowing the claim.

On the claim of Colonel Cochran for Friday. All special trains advertised for vertised schedule. Sell excursion tickets on Saturday at state fair rates, good to return until the 14th."

The United States court is to open of making the county liable.' here on the 28th inst. The term promises to be the busiest ever held here, there being forty-two cases for trial, a larger number than in any previous term. Some of them are claims for damage by overflows, and it is possible that the law of the cases may be determined by trying one, and that then by an agreement of facts the others may be settled, but even If these can thus be got out of the way, there will be plenty of business left for the court, and their time will be crowded.

The BEE is in receipt of an invitation to the festivities of the Order of Cincinnatus, to take place on the 15th, 16th, and 17th of this month. The programme announces the festivities to open on the morning of the 15th by an excursion down the river to meet the dictator, "Cincinnatus," whose arrival will be the signal for a magnificent display of hreworks from a number of barges anchored in mid-stream. After viewing the display the reception will take place. The grand pageant will take place on the next night, and will consist of twentyfive floats. The grand ball will take place on the night of the 17th. .

The saloon men were coming in wel yesterday afternoon with their license money, and the total number of payments for September have swelled to twenty-one, with a prospect of others following. The proclamation has accomplished more than many thought it would, but still there is much curiosity to see what will be done at 10 o'clock this morning with those who have not paid, if any such there be. There were a goodly number yesterday, who still held out, and expressed the determination not to pay. The time will be up at 10 o'clock this morning, and the mayor has given his word that those who have not paid will be called closed before noon.

When the deputy state veterinarian was here some one reported to him that Martin Hughes had five horses which had the glanders. He wanted two of them shot and the others quarantined. Finally the horses were quarantined, and the matter left to the city board of health. The latter body has employed physicians to make an examination, and the horses will not be shot unless certain they should be. Mr. Hughes says the promise of filling thehouse with glee for many horses have been afflicted a little with some trouble ever since they had the epizoctic years ago, but have grown no worse, and have been able to work and eat right along, and no others have caught it. It looks as if it could not be the glanders, and the matter has sorely inconvenienced a worthy citizer.

Some time ago the chief of police is- back.

sned orders for the loafers and hangerson about the gambling houses of the city to clear the town and go beyond the limits in hot haste or they would be arrested. There was a temporary scattering and many left, although enough were left behind to have given the police something to do had the order been followed out. Monday the mayor walted upon Judge Aylesworth, and requested him to notify the marshal's force, who have charge of the jall, not to let prisoners out on security approved by themselves, but to keep all prisoners committed to their care securely locked up, uncare securely locked up, uncar struggle on the diamond field at the less relinquished by order of the judge himself. The mayor complained that it was useless for the chief to run in men if they were to be turned loose again. He wanted to have the chief and his men run in a lot of men who were hanging bout the city doing nothing, and he wanted to have them kept locked up all

night, and did not want the jailers to let them out on depositing a few dollars, or getting some one to go security. He wanted only the judge to let them out oth of Omaha.

In another column will be found the thus fixed, for these fellows were going

> The expected clearing out was not had, however, either because the desired game had got wind of what was up, and being given the hint had kept shady, or because the plan of the campaign had been changed. The reporters waited in vain to see the new order of things carried into effect, and expected to see the city cage filled up speedily with birds of the brightest plumage, but all in vain. The night passed as usual, the monotony only being broken by the occasional running

> in of a plain drunk. The mayor has evidently got a spasm of reform, and it is to be hoped that he may succeed in working some good. In all laudable attempts to make a better condition of things, morally or financially, the better class of citizens will cheer him on, whether he is their political friend or enemy, and whether they have any confidence or not in his stability and honesty of purpose.

THE COUNTY BOARD.

Number of Matters Handled Yes

The county board continued its session yesterday, and did a variety of business, mainly of a routine nature. The new jail hibition proceeded. was examined, and there is little doubt but that it will be accepted, the members of the board informally expressing

themselves as greatly pleased with it. The country attorney reported on reports being quite full and furnishing uch copy for the official papers.

In the matter of D. B. Clark, who claimed a refunding of the purchase price of over seven acres of land near Carr's lake, the attorney reported in favor of

The attorney reported adversely to UIlowing the claim of Sackett & Preston for \$42 for money spent by them in securing testimony and depositions in the case brought against them, and of which they were acquitted, they feeling that in view of their being needlessly and wrongfully put to this expense, the least the board could do would be to remit this amount. The attorney held that the board could not legally allow the claim.

The board also looked over the tax levies, and put some time in en them. A number of country road cases were also disposed of.

One of the street ways is to improve such chances to save as are now presented by H. F. Hattenhauer, who for thirty days is offering remarkably low prices on his large and varied stock of carriages, buggles, etc. All these are made at his well known factory, Nos. 27 to 33 Fourth street, and it is conceded that there are no better goods in the west. One such carriage or buggy will outlast several of the cheap ones which are acattered over the country, and at the special prices he is now offering the cheap ones are dear. Make money by getting a good one? cheap, instead of a cheap one dear. Call or send for prices.

an Old Citizen Sued for Slander for Calling a Woman a "Huzzy," Mrs. Elizabeth Almy has commenced action against Charles Baughan in the district court, in which she claims heavy damages for slanderous words uttered against her character. The charge is made that Baughan, in the presence of others in the course of conversation, said that she was "a low down dirty huzzy," and that this utterance reflected upon her character to such an extent that she deems that \$10,000 would not be excessive damages for him to pay, and she wants the court to grant her s

Piano-Makersland Their Pay.

Baltimore American In Germany a fine plano-maker is classed at an artist; in this country he is a mechanic of a higher order. There are a mechanic of a higher order. There are about 600 men employed in the different branches of plano-making in this city. Some are paid by the week, but most of them do piece-work. Askilled mechanic makes all the way from \$2 to \$6 per day. There are many different departments in plano-making, the principal ones being ase-making, sound-board making, fly finishing, tone and action regulating tron-working, action-making, key-making inishing and varnishing. The laborer who does the heavy work gets from \$1 to \$150 per day. Very few learn the trade in Baltimore. These men are imported rom Germany, and a large number are from New York, Beston and other places. The cases are made in four different departments, and are put together by men doing piece-work. The makers average from \$10 to \$20 per week. The wages of the regulators of action and tone range from \$15 to \$25 per week. The sound-board makers do their work by the piece They make from \$12 to \$23 per week the Northwestern for seventeen years, was at The fly finishing-and three are three

and his work the most important. He makes the highest wages. He gets from \$15 to \$30 and \$31 per week. The amount a mechanic makes depends entirely on his skill. Some of the men make twice as much as their fellow-makers doing the same work. For the past twenty years the makers of this city have been kept busy, and only in the last twelve or fifteen months has there been any contraction in the work. The depression in business had its effect on the plano trade, but the demand is now increasing all the time. The planes made in Baltimore are shipped to all parts of the United States, Mexico and Canada. They are the favorite in the Eastern States, and are preferred to all others made elsewhere throughout the New
