To S S 3048 Indigestion Cured.

I suffered for more than five years with indigestion, scarcely able to retain the simplest foad on mys stomach. Thebur ning sensation was almost intolerable, and my whole system was deranged I was wakeful and could not sleep, and consequently more or less nervots all the time. I decline in fiesh and suffered all the usual depression attendant upon this terrible disease. In a word, I was miserable. At last, falling to find relief in anything clse. I commenced the use of Swift's Specific. I began to improve at once. The mydicine toned up the somach, strengthened the digestive organs, and soon all that burning ceases, and I could retain food without difficulty. Now my health is good, and can eat anything in the shape of food, and digest it without the slighest difficulty. I most cheerfully bear this testimenty because there are hundreds suffering as I was, and I am sure can be as readily healed. Take was, and I am sure can be as readily healed. Take the prescribed dose after eating instead of before. JAMES MANN, No. 14 lvy street.

A Fight Between Hornets and Bees. Baltimore Herald.

The most remarkable and exciting acene I ever witnessed was a fight between a swarm of bees and a colony of hornets. Hornets, as you may know, build their nests out of a material not unlike paper, which is moulded into concentric layers. The pests often attain the size of a man's head, and are occupled by about two hundred hornets. One day a swarm of bees took a flight from a bee-hive of my father and made its way through a peach orchard for a piece of underbrush about 200 yards from the hive. We pursued with tin pans and brought the flying bees to a stop. They alighted on an apparently deserted nest of hornets. It took about two seconds for the 200 hornets to come out of their den and attack the invaders. The battle was hot and furious. The air was filled with a prolonged buzz as the combatants flew at each other and tried to use their atings. A great many on each s'de were killed, but the hornets carried the day.
