Great Interest Centered in the Contest—The Result of the Games Decide the Base Ball Championship.

An Exciting Ball Game.

CHICAGO, Sept. 29.—The contest which witnessed the opening game between the New York and Chicago ball clubs for possession of the national pennant was worthy of the occasion. It numbered 10,000, which exemplified in a remarkable way the interest taken in the meeting of the two leaders in the league race, as the skies were threatening and there was every prospect of rain. Rain drops began to fall as the Chicago's went to bat in the first inning, but it did not interfere in any way with the players of the game, but throughout the line balling the clouds were lowering. This did not, however, prevent a large attendance from being present, and the game was evenly balanced, as the visitors had lost of admirers present, many of whom had journeyed here solely to see the game, and very many of the leading eastern and western newspapers had representatives present. The crowd cheered the New Yorkers whenever they made a good play, but became frantic in the first and ninth innings when the Chicago began their run-getting, and when the last out was made they were shouting and cheering. The New York club appeared on the field preceded by the brilliant first regiment band, and immediately thereafter Chicago appeared under a similar escort. Both were rapturously cheered. The visitors appeared in their usual gray uniforms, while the Chicago appeared in their striking uniforms, in which they have won their long list of victories and which they retain as an emblem of good luck. The New York club presented their strongest playing front, with Welch and Ewing as their battery, while Chicago presented a line of attack which was very strong. The crowd was so large that it stretched along the field, and special field rules were adopted at the request of the New York team to the effect that any ball which reached into the crowd would be counted as a three base.

The Chicago opened the game after a vigorous fashion. Dallymple flew out to first base, and Gore took first base on balls. Kelly made a base hit, advancing Gore to second, and both were retained in their positions on a passed ball. Anson flew out to right field. Pfeiffer made a three-base hit, Kelly and Gore coming home. Ewing struck out, and Gore was thrown out at second on Gerhardt's strike. New York was shut out, O'Rourke getting a base on balls and was caught napping at first. Connor flew out to Dallymple, and Ewing to Burns.

New York began her run getting in the third inning, Welch making a base hit but was forced out at second on Gerhardt's strike. Gerhardt was forced out at second on Ward's strike. Ward stole second, and scored a run on Ewing's error. Ewing struck out, and both followed with base hits, bringing in O'Rourke, but Connor was put out at third in trying to steal that base.

Chicago added two runs in the fifth on Kelly's three base hit, Anson's base hit, and Pfeiffer's base hit. Two runs in the eighth on Welch's base hit, Ward's base hit, Ewing's base hit and a passed ball and wild throw by Conly. Gillespie struck out, and Ewing was thrown out on O'Rourke's strike. Pfeiffer struck out, Richardson flew out to Dallymple, Welch got his base on balls but was doubled up by Gerhardt's fly. The following is the score.

The New York's Defeat at Home.

New York, Sept. 29.—The result of the New York-Chicago game was awaited here to-day with great interest. Nearly all the newspaper offices hoisted bulletins showing the result of the contest by innings, and large and interested crowds surrounded the boards. The Tribune office gathering was so great as to impede passage through Spruce and Nassau streets. The crowds awaiting the news in the printing house square and Park Row largely exceeded any during the yacht races. In the hotel corridors men talked of the contest to-night and throughout the day the news was sought at public resorts. The defeat of New York causes gloom among those interested in the game, and many have given up all thoughts of the "Mets" winning the pennant. There is yet a possibility of New York winning, but this is regarded here as a weak straw to catch at. Should the two clubs send a tie in their four games, an extra series will be played.

General Butler—"Let them hear it up, pile it all on the people, this and more, and in the end they will rise and throw off the yoke." Reporter—"Do you expect serious trouble?" General Butler—"I do. I have grandchildren who will live to see the Vanderbilts and Gaults taken out to the nearest dump post and buried in the earth as public refuse in the manner. After there has been bloodshed, we shall settle down again for a while. Flower from a candidate for the office, but they do not see the remedies. When I was candidate for president, I would have been driven into the ground. He would see that it was better for a man with considerable wealth, family, and property interests to be at the head of the army and able to control them, the only way in the background the torch of communism, as he thought. Some day the real red communism will lead these men, and then he will see the end of the world as a communist now, in the eyes of the community, who preaches the equality of men. Christ would have no doubt of the world had progressed in the way of the world, and understanding and power of concentration. I thought the laborers of the new republic were more intelligent than the old ones, but I was just as foolish as Gault, but that is not the point. The old ones would not think this age was any different from the same. Experience has now taught me the same lesson as history.

The scene was a most sickening one, and it was with great difficulty that the executioner could be induced to take the body down. Hartnett killed his wife January 31, 1881, in Mount Auburn, a suburb of Cincinnati. This is a copy of the deed, when he arose, he ordered her back to bed and charged her with unfaithfulness, and she denied it. He secured an axe, and with this he struck her on the head, and kiss the floor, when he struck her two fatal blows with the axe, one crushing her skull and the other driving the blade into her chest. The body was found by a fisherman on a wharf around the city.

Detectives worked up the case. The verdict of the coroner's jury was found, they feeling that if it was adverse to the prisoners they would be promptly lynched. Chicago Live Stock Market.

CHICAGO, Sept. 29.—[Special to the Bee.] CATTLE.—Receipts of cattle to-day 6,000, against 4,729 last Tuesday, making about 14,750 for the week so far, against 12,964 for the same time last week. There were only about 2,000 natives among the fresh receipts, and for these the demand was rather slow. Receipts were lower than last week, and operators were filling their orders out of prime westerns, hence natives were going slow and prices were only just about steady. In fact some sacawans who carried over from shipping cattle last night had the same on their hands at noon to-day. Texans, especially counting cattle, were a shade higher, and westerns were making equally as high prices as yesterday. Native butchers' stock, cows, bulls and rubs, were a shade lower. Receipts of hogs were several sales made at prices manual below in our classified list.
