## THE SALT OF THE EARTH

e State's Saline Lands to be Sold Next Thursday.

DESCRIPTIONS AND VALUATION.

Work On the Missouri Pacific Commenced-Efficient Work of the Census Bureau-Pithy Local Matters and City News.

(FROM THE BER'S LINCOLS BUREAU.) A portion of the saline lands owned by he state of Nebraska will be sold on the 2th inst., at public auction from the vest door of the capitol building. This will be done under an act of the legislature passed last winter, entitled "an net to provide for the sale and leasing lands and the development of the saline interests of the state of Nebraska." Under this law, which gives the board of public lands and buildings almost absolute control over the property, \$50,000 is appropriated out of the sale of the lands toward the development of the salt interest. The board has the authority to appraise and sell from time to time as it may deem proper, certain nominal restrictions being placed over their acts.

The lands were leased last spring to a yndicate composed of George W. Hoft-han and Edward T. Mason of Chicago, M. N. Towle, of Hammond, Illinois, and M. N. Towie, of Hammond, Hirrors, and Green, a resident of Lincoln. The syndicate was to develope and improve the property, and the \$50,000 was to be paid the members. There has been but little done so far, only a well having be a sunk and a dyke partially constructed. Under the contract between the state and syndicate, the latter agreed to pay as a royalty one cent on every seventy pounds of the salt manufeetured. The state will bear the expense of the vork up to date, and it is presumed to be for this purpose that the resent sale will take place.

The policy of the syndicate thus far

seems so have been to prograstinate and ax things as advantageously as possible for the members. Messrs. Hoffman, Mason and Toyle were here a day or two ago, and during a consulta-tion with the board of public lands made s proposition to put in a plant costing \$250,000, but under what conditions has not yet been divulged. Green has been here all the time superintending the work at the well and salt basins.

Some time since the board appointed three appraisers, George P. Tucker, S. C. Chase and Bartholomew Cox, to put value upon the land designated to be sold, and they have completed their la bors. For the benefit of those persons who may desire to bid on the lands, the list of which comprises 14,000 acres, it

There is a speculation in these lands for the reason that they are appraised low and will some day prove valuable in more ways than as a simple salt investment. Buyers from all over the state should attend the sale.

It is suspected that over all this matter

hovers a spirit akin to that in Tom Kennard's saline epoch. It seems to rise as of old from the basins, and all about are the ghosts of former legislators inhaling the bring savor and imagining the golden reward which never came to them. yet during their day they assured their trusting constituents:

That they were the worthiest, The truest and the faithfulest, The gentlest and meekest of men That here on earth were found.

Peace be to their ashes, and may the coming sale of Nebraska's saline lands prove more honest and better than any former proposed disposition of them would lead the people to believe had been intended.

THE ROAD COMING.
The Missouri Pacitic will come to Lincoln and work to that end commenced yesterday. All the cold chills, all the goose flesh which has crept up the backs of J. R. Webster and Tom Kennard have vanished like the deer before a morning sun, and since the \$10,000 guaranty bond has been raised their equaninity has been restored and the self satisfied smiles which usually rests upon their honest countenenances have returned and they once more beam upon their friends and enemies with the same satisfaction they did after the \$50,000 bonds had been

voted.
P. J. Nichols, who will have charge of the construction of the branch from Avoca to Lincoln was met by the BEE reporter or the street yesterday and ques-tioned. "Yes," said Mr. Nichols, "I guess we will commence right away to x up our yards and depot grounds in his city. I will superintend the con-ruction and the line will be built as on as possible." The iron and ties ich had mythically been ordered other day when it was d necessary to raise more

THE CENSUS OF 1855.

The claim of the state of Nebraska against the general government on account of the state census taken this summer, amounting to \$31,759 12, was paid into the state trensury vesterday. The state has been very fortunate in her census matters. Many of the states that took a census this year under the provisions of an act of congress providing for the partial payment of the census failed to comply with the requirements by not being able to make complete re-turns in Washington at the specified time, namely September 1. Some states which sent in returns were afterwards ruled out and not accepted on account of not being complete. Dakon and Colo-rado were given credit to balance old claims found in the interior department. Nebraska is the only state that secured the full claim in cash. This reflects edit not only to the state but also upon the good management of the census work, there being 900 enumeration dis-tricts in the state, all of which had to be completed, certified copies of each made out in full, and deposited in Washington within sixty days. The compilation of farms and farm values are now being rapidly carried forward in Superintendent Lane's office, and will soon be ready

A GAME DINNER Some ten days ago H. B. Durfee, Esq., and several other gentlemen of this city went to Gothenberg, Neb., on a goose bunt. They arrived home day before yesterday loaded down to the guards with game of all descriptions. A levee was held at a store on O street after their return, and geese were distributed to all comers with a liberal hand.

Mr. Durfee invited a few friends to a goose dinner at Lindsey's restaurant, and the manner in which that popular caterer served the game called forth the loudest praise from those who sat around the board. Mr. Durfee dispensed his hospitality in his usual happy manner, and a merrier or better satisfied group of young men never sat down to a liberal spread.

Mr. Durfee intends to take a contract for supplying Lincoln with game next sea-son, and the 200 geese, innumerable ducks, snipe, quail and other game he shot will bear out any declaration he may make in this regard.

Quite a large delegation of citizens went to Greenwood yesterday to attend the funeral of W. F. Chapin, who died at Grand Island Wednesday last, Chapin was a man of more than ordinary merit in certain directions, and besides having been the first mayor of Lincoln and a prominent candidate for governor against Furnas, played a considerable part in the removal of the capitol from Omaha to Lincoln. It was he who as speaker of the house, ruled with an iron hand, and had a Colt's navy pistol at either hand to see that his interpretation of parliamentary usages were carried out. They were carried out, and it is said that only Chapin's firmness did the work. Beside the delegation from Lincoln there was a small attendance at the funeral, and the remains were laid at rest by a sorrowing and respectful gathering.

Miss Ethel Howe, a popular young lady artist of this city, was yesterday made the recipient of a purse of \$110 as a testimonial of regard from a number of prominent gentlemen.

The gentlemen are right and they are known to be honorable men in every respect.

The item in yesterday's BEE to the effeet that the Northwestern would not build to Lincoln appears to be wrong. A report was current upon the street Thursday that the road had withdrawn its proposition, but it appears to have been started by the Missouri people and others interested in diverting the Northwestern from this place. A telegram received from P. E. Hall, at Omaha, yesterday afternoon states that the road will commence building as soon as the \$50,000 bonds are voted.

McKenna, the billiard expert, is in the city and will probably give an exhibition to lovers of the game before he leaves. Albert Cantield, Esq., formerly a well known resident of Lincoln, and who has been in the city for the past two weeks on business, left this week for his new home in Newton, New Jersey. Mr. Can-field says it is more than likely that he will again remove to Nebraska, for once in the state it is hard to live in any other

locality.
The Union Elevator company of Omaha yesterday filed amended articles of incorporation with the secretary of state. The only change apparent is an increase of capital stock of \$2,500 to cover improvements. The capital was \$132,500, and now is \$135,000. The articles are signed by P. C. Himebaugh, Nathan Merriam, T. L. Kimball and Leavitt

Fat Cattle Exhibition.

Many Omaha cattle men are interested in and expect to attend the eighth annual American fat stock and dairy show which is to be held by the Illinois state board. of agriculture at the exposition building in Chicago November 10 to 19. The exhibition has for its object the encouragement of the most economical production of the best quality of meat for consumption. The general character of the show is the same as that of the great Smithfield show of London, England, that has been so popular for nearly 100 years. The large premiums offered and the emulation among breeders and feeders attracts in large numbers each succeeding year to the American fat stock and dairy show the choicest specimens of the various breeds of meat producing animals to be found on either continent. Not the least of the attractions at the forthcoming show will be the large exhibitions from all portions of the country of butter, cheese, dairy cattle and the utensils used in the manufacture of dairy products. Over three tons (6,000 pounds) of milk will be used each day of the show in the manufacture of butter and cheese in the exposition building, and the public will have a grand opportunity of seeing the most approved appliances and methods in use among the most successful dairymen of the country. Governor Oglesby and Mayor Harrison will be present on Tuesday evening, November 10 and address the visitors.

The ordinance executive provides that it. shall be the duty of the city veterinary ; surgeon, to investigate any and all cases of contagous and infectious diseases among horses, eattle, and other domestic animals within the city of Umaha, which may come under his notice. For this purpose he shall visit at once any place within the city of Omaha, where any such contagions or infectious disease of domestic animals may be known or reported to exist and make a full, careful examination of all animals supposed to be diseased, and prescribe the meessary care and remedies, and direct the sanitary measures necessary to prevent the spread thereof, and as often as may be necessary, and at least every six mentls, make a full report of his official acts to the council.

The ordinance further provides that it shall be the duty of the veterinary surgeon to inspect and examine any animal Cameron W H brought into the city to be slaughtered, which he may have reason to believe is diseased or otherwise unfit for food. Upon deciding that any such carenss is dis-eased, he shall so inform the person having charge of the same, or offering the same for sale, and instruct him not to offer it for sale under penalty of the law. Conninghou N It shall furthermore be his duty upon discovering any domestic animal or animais having any contagious or infec-tious disease of a serious nature, or which may be liable to sprend to at once notify the state

veterinarian The city veternarian surgeon is required to give a bond in the sum of \$1,000 for the faithful performance of its duties, and he will receive a salary at the rate of \$150 per year.

The ordinance in another section provides that any person who shall hinder the veterinary surgeon in his duty of disposing of any discussed excess shall upon conviction be fined in any sum not less than \$10 or more than

## ADRIENNE LECOUVREUR. The Bee's Criticism of Last Night's

Performance. Madama Modjeska gave a tiresomperformance in Boyd's opera house last evening. Adrienne Lecouvreur may be good in itself, but Modjeska does not know how to get it. Altogether the play is sickening. Omnha has recently heard a great deal of Mdme. Modjeska's "Rosalind," but for some strange reason we were not favored with it. No one, after sening Modjeska's "Adrienne,"

cares to see her again, and not many will see her to-night.

It may be that we don't appreciate "Adrienne," but after reading the history of the great courtezan, no one Jankins J Johnson A B wants any more of any semi-Polish broken tongue upon that beautiful sub-Keily P Koigh J H Kuhu M Kraeher M Kubesh J L No one in Omeha wants to see "Adri-

A Foreign Fire Fighter. J. M. Knott, chief engineer of the Honolulu, Sandwich Islands, fire department, was a visitor in Omaha yesterday, he having relatives residing in this city. During the day Mr. Knott visited and inspected the houses and apparatus of the Omaha department. When asked in regard to the appliances in use in his home department for extinguishing fires, Mr Knott stated that they were the same as those in use in this country, and his de-partment was as efficient as any in America. Mr. Knott is a native of this country, but has been in the Sandwich Islands for twenty-three years. He has truelly by her husband shortly after their marriage, being frequently pounded and threatened with death. Finally he cuse, and is now on his way home. He deserted her and has left her without left last evening on the Denver for the O'Herron P

The Musical Union orchestra are planing to give a grand concert and ball on December 2, for the purpose of buying instruments for the organization. The music will be rendered by fifty perform-ers, and will be of the highest order.

A man named Westfield, a few weeks ago, deposited in the Stock Growers' bank in this city \$1,000 and took a letter of credit. At Omaha, shortly afterward, he cashed the letter of credit and went on to Indianapolis, where he forged another letter of credit which wascashed by a national bank there. Yesterday the letter was sent here for collection and was pronounced a forgery, and the Indianapolis bank is out \$1,000. Chey-
