Other Lende than Ours.

or else the cable illas kailed to do resduty.

The conference at Constantinople has

met and is still th session. Although the

anal decree has not been published, at

the time of writing, it is understood that

the treaty of Berum is to be maintained

by the restoration of the condition of

move of Prince Alexander. The discon-

tented Bulgarians and Roumeliaus, while

receive all the real benefits of union, each

province being independent of the other,

but both having the same governor. Each

is to maintain a militia, but neither

militia is to leave its own country, a pro-

vision of itself valueless, since the half

savage Bulgarians have already shown a

disposition to consuit their own sweet

wills rather than comfort the European

cabinets. Finally, there is an evident

hope that future complications may be

prevented by placing the real govern-

ment of the two provinces in the hands

of an international commission, which

shall make the laws and see that they are

trusted, and that Roomelia and Bulgaria

which the real power is hidden behind a

kind with many that have preceded it,

merely temporary, and hable at any ruo-

are beyond the control of amoussadors

Mr. Parnell's nationalist campaign is

progressing beyond the expectations of

six followers, and the chances are even

from Munster, Leinster and Connaught,

being a clean sweep of those provinces

with the exception of two tories from

Dublin university. In Ulster out of

thirty-three seats he is certain to carry

seventeen, and in Liverpool he will earry

one. The still doubtful seats are two in

Ulster and one in Liverpool. For the

attack upon Uister and Liverpool there

were selected six men, who will also run

in other districts. These men and their

districts are as follows, the didicult ones

way; John Redmond, Exchange

Ward, Liverpool and Wexford. Of

these Mr. McCarthy and Mr. Dillon have

the hardest kind of fights, but success is

likely. Mr. Redmond probably leads a

forlors hope. These are the only men

having double nominations. If they win

their doubtful seats they will resign the

others, which will then be tilled by less

famous aspirants. Mr. Parnell declines

to run anywhere but in Corn because of

his unwill ngness to sit for any other

the matter now stands. The contests in

Ulster are likely to be aided by fierce

faction rivalries inside the tory party

there. The orange wing, which is light-

ing the aristocratic leaders of United

Ireland, has done a real service in col-

mortgaged up to their eyes with Lon-

don bankers and usurers, and the secret

of their refusal to abate the villain-

ous rents is the obligation to pay

Mr. Gladstone b gan his Midlothian

eampaign on Monday and has continued

it throughout the week in Scotland. The

great aim of the premier is to force from

the front the issue of church disestablish-

ment which the conservatives are oppos-

ing with fierce vigor as the test issue of

the liberal campaign. The entire aspect

of the canvass has been changed by the

shrewdness with which Salisbury and

Churchill have injected this disturbing

issue into the campaign, and aroused the

fears of every vested interest in Great

Britain. In addition there seems to be a

decided lack of proper management in

the liberal canvass. In London alone

forty seats in the house of commons are

contested by two or more liberal candi-

dates, and in the whole United Kingdom

the tories may gain seventy-five members

of Parliament through the division of

their opponents. Americans can hardly

understand such loose political organiza-

tions as this state of a Tairs shows, and it

is evident that the British liberals need a

few leaders with a Yankee faculty for

King Alphonso of Spain is ill enough

to have his health inquired after by the

Queen of England, and that means very

ill indeed. He was never strong, having

inherited a poor constitution on both

sides. Besides, before he attained his

full growth, he was allowed to have too

much of his own way, and utilized that

permission, as youths with an unlimited

amount of pocket money generally do, to

impair his own health. In case of his

death, troubles are mure to break out in

Spain. The Austria Tqueen is very un-

popular, au i her appointment as regent would mean revolution in the near fa-

ture. The Carlists would be sure to r se

and would probably in its another stud-

born fight, but flyd sixths of the people

are opposed to the r programms. Were

Don Carlos to prefend conversion to lib-

eral ideas, he might have a good chance

of mounting the throne, for, though the

townspeople are republican, the most

popular officers in the army are bitterly

opposed to democracy, and the mass of

Thanksgiving Proclamation. By the Governor of the Stat of Nebraaka: The President of the United States has named as a day of National Thanksgiving

Thursday, the 26th Day of November, and in harmony th rewith I, dames W. Dawes, Governor of the State of Nebraska, do hereby recommend to the people of this State a due and proper observance of the day so appointed, and that it be held in the fullest sense as a time for general. Thanksgiving and Prayer to Aimighty God for his continued mercies. As a State we have shared in an especial degree the blessings and bountles with which an includent providence has favored as as a Nabon.

At such a time as this the spirit of beautiful more should be sufficiently for the providence of the such as the spirit of present in the spirit of the spirit o

lence should be active and far-reaching. Kind charity should assert her chains, remember-ing—with our abundance—that The Charities that spothe, and bless, and

Are scattered at the feet of Man, like flowers.' In Witness Whereof, I have

hereunto act my hand and caused to be affixed the Great Scal of the State of Nebrasta. Done at Lincoln, this Tenth day [SEAL.] of November, in the year of our Lord One Thousand Eight Hun-dred and Eights over of the State the Nineicenth, and of the Independence of the United States the One Hundred and Tenth, JAMES W. DAWES.

By the Governor: EDWARD P. ROGGEN, Secretary of State.

Gov. Dawes has at last issued his declaration of war upon turkey.

INDIAN summer still lingers in the lap of autumn, and we hear no protests.

THE next time our conneilmen want to hold a secret session they had better stuff cotton in the key holes.

As usual the Washington correspondents are outlining the president's message to congress. They are relieving him of a great mental strain.

NUMEROUS changes in the Indian service are promised. With these in view the efforts for the strengthening of Nebraska's two military posts on the northern frontier cannot be begun too soon by our congressional and senatorial delegation. Two ten-company posts should guard the southern boundary of the Sioux reserve, for the protection of the entire state from possible danger of future Indian incursions. The united demand of our frontier press in urging these additional safeguards must make itself felt at Washington.

GENERAL HOWARD contributes an interesting little article on "Resaca" to the last number of the United Service Magazine. The general is full of reminiscences of the war in which he bore a distinguished part which history will long perpetuate. He owes it to history to assist in perpetuating the memory of the part played by other prominent warriors, by writing and publishing his memoirs of the great conflict. We suggest that with the revival of popular interest in the war which late events have assisted in arousing there is no time like the present for the publication of works of this character.

The statement of the Union stockvards company of South Omaha, published in the commercial department of the BEE, makes a very favorable showing for a new enterprise. The yards have been opened for business less than two years. The business at first was, of course, very small, but it has increased from month to month until now it has reached figures that will attract considerable attention both at home and abroad. The number of cattle received at the yards for the eleven months ending October 31st was 101,314; hogs, 114,989; sheep, 14,396; borses, 1,813, making a total of 233,543 animals. For the eleven months ended November 30th, there were received at, the yards 74,102 cattle; hogs, 603; sheep.; 2,482; herses, 402, making a total of 78,094 animals. This shows an increase of 154,448 animals during the second elevent months of the vards' existence. This is certainly a very healthy growth, and goes far to sustain the prediction that in five years Smaha will be the second livestock market in the United States.

If Councilman Furay is correctly re ported at the secret session, he wants Capt. Sullivan removed because "he hasn't got a friend on the force, and the saloon men are all down on him." Now we would like to know what kind of a captain of police would suit Mr. Furay's ideas, Is it desirable that we shall have a captain of police who will deliberately viotate his sworn duty by shutting his eyes to glaring violations of the taw? Why is it essential that the captain shall be popuhr with the saloon keepers? The police force of Omaha has fately been improved materially by the discipline which Capt. Sullivan has introduced, but we presume that a captain who insists that members of the force shall keep out of the saloons and gambling hells would not be particularly popular with his men. The simple question is whether the city council proposes to have the laws enforced by the police is the council is going to back the law breakers against the police? If Mr. Furay was a conneilman in a mining town, where Judge Lynch was the chief of police this nort of talk would create no surprise But in a city of 65,000 people it does sound very strangely to have a conneil man, who represents a law abiding constituency like that of the Sixth ward, demend the removal of an officer because he is doing his duty.

Assaulting River Improvement.

The assault of the disgruntled Major Missouri river, finds an enthusiastic backer in the editor of the Omaha Herald. Dr. Miller through the columns of his paper pronounces all attempts to nake the Missouri navigable as useless, and denounces appropriations for the purpose as money "thrown away." The Herald says:

No cleaner cut plracy upon the public pocket has ever been invented than can be shown in the case of money wasted in federal appropriations to improve the navigation of the Missouri river The remark applies to the whole length of it as well as to the upper region. No boat is ever seen on its waters. Its navigation is a myth; its real "improvement" is impractica ble; there is no need of its improvement, and every dollar expended by congress upon such a work is so much stolen and wasted. money. Every white man in this part of the west knows this to be indisputably true, as well as Major Suter does. The railroads long since exterminated what tittle commerce there ever was on the Missouri river, and \$500,000,000 spent to Improve its channels could not restore even what it lost at the hands of the competitive power of the rail-The Herald is as badly mistaken in its

facts as it is in the arguments which it attempts to bolster up by an ignorant distortion of the truth. The Missouri river, in its upper and lower portions, is being navigated to-day by regular lines of steamers which are doing a good business with the towns along its banks, Powel Bros., of Bismarck, have been running a line between that place and Fort Benton, a distance of \$16 miles, and during the senson just closed have transported thousands of tons of freight each way. A steamer has made regular trips between Bismarck and points below. Besides these, two or three other steamers made regular trips to Benton prior to this season. A regular line has been plying between St. Louis and Kansas City and is understood to have done a paying business, touching at points not reached by railroads. These hard facts give the lie direct to the statement that the navigation of the Missouri "is a myth" and that "no boat is ever seen on its waters." The improvement of the Missouri is practicable and is demanded by the producing interests of the vast agricultural region through which it passes. Were a channel once assured millions of tons of wheat and corn would pass down the river to the Mississippi and the Gulf, and millions of tons of coal and iron and freight would make return cargoes at rates which would render competition by rail impossible. Everywhere open water routes have placed impassable barriers to railroad extortions and have enriched the country by the saving which they have made in transportation rates. The Erie canal, which cost New York state \$20,000,-000, has returned its cost five times over to the producers and consumers of that state. The Mississippi is a constant check-valve to the greed of corporate monopolies along its banks. The great lakes regulate freight tariffs at every point on their shores. The objection of the railroad lobbvists and the corporation-bound editors to river improvements arises solely from the knowledge that an open river as a railway regulator cannot be bribed like congressmen, purchased like legislatures, or subsidized with job work like brass-collared editors.

Admitting that "no boat is ever seen on its waters," which is false, it is clearly the duty of the government to put the Missouri river in such a condition as to render it available in case of extortionate rates on the part of the railroads. For every dollar so expended the public will reap ten-fold benefits.

Caring for the Poor. The county commissioners have delegated the business of caring for the poor to the superintendent of the poor farm. It is left to him to decide upon the merits of each applicant for charity, the quantity of fuel and provisions to which each is entitled, and the frequency with which they shall draw rations. The business of making the purchases is also entrusted to him. This, of course, relieves the commissioners of a great deal of annoyance and responsibility, but it gives a line opportunity for favoritism and jobbery to the superintendent. He becomes a sort of quartermaster and commissary without any restrictions as to quantity, quality, and cost of supplies. As a consequence of this fast and loose way of doing business, the county is probably paying a great deal of money for inferior materials to personal and political

This is only one of the bad features of this method of caring for the poor. In all cities there are always professional beggars and vagrants who make it their business to live from public charity. There are hundreds of poor people who are meritorious, but who prefer to suffer and starve rather than to apply for alms. If the charity department of the county was managed with an eye solely to the relief of poverty aside from polities and favoritism, the professional beggars would be unable to consume what rightly belongs to the muritorious poor. But, under Mr. Pierce, the vagrant beggars hold high carnival. We are credibly informed that a gang of notorious women who have been in juil for drunkenness, vagrancy and ill fame a number of times, have been drawing rations all the year around, and are still drawing rations to feed a broad of roughs who are living upon their wages of sin. It is hardly possible that Mr. Pierce is ignorant of the character of this class or the eriminal poor, and if he doesn't know their unworthiness it must be because he has not tried to inform him self. Other reports reach us that persons who own property and are well able to support themselves and their

visions at the public expense. This paper has always advocated a Iberal and generous policy in assisting he poor, but the system carried out by the county does not commend itself to us. In the first place the commissioners should purchase at wholesale and from the lowest bidder at a public letting without favoritism. In the next place, they shouldn't delegate the power, which the | a cow apature.

families are drawing charity from the

county. Such impostors should receive

no countenance, much less, fuel and pro-

law invests in them, to substitutes who do not distinguish the difference be-Sutar on the policy of improving the tween deserving objects of charity and people who live on erime in its most de graded and revolting form.

A Worthy Cause. The committee of the Omaha Young Men's Christian association have begun their canvass for funds for the erection of a building, and appeal to our citizens | minirs existing before the unfortunate without respect to creed to assist them in the undertaking. They propose next | Sanday to hold a mass meeting at Boyd's | the name of unity As lienied them, are to opera house, at which the cause will be presented, and extend a general invitation to our people to attend and to help them on with the work. The BEE cheerfully commends the cause of the association to the people of Omaha. Other cities of our size, with scarcely an exception, have provided comfortable buildings for their Y. M. C. A's. Their influence for good is generally recognized as in every way worthy of popular support. Their work is in the interests of good eltizonship and morality, and is prosecuted with an entire discegard of denominational differences. Any institution whose object is to provide comfortable reading rooms and libraries, on portunities for mental and physical culture, watchful supervision over and interest in young men should receive prempt and generous support in their

The growth of this organization has been most encouraging. At this time there are 2,900 associations in existence. Of this number 934 are established in the United States. and the Dominion. Great Britain has 503; France, 72; Germany, 549; Holland, 396; Switzerland, 293; Denmark, 43; and Belgium, 24. Associations are also his most articularitars, Cablegrams auestablished in Sonin, Haly, Turkey, Ras- | nonnee that he is certain to have eightysia, Austria, Japan, Svria, South Africa, Australia, New Zealand, Madagasear, | for three more. Of these sixty-eight ara and India. The strongest, and, in many particulars, the best of the organizations are those in the United States. At the present time there are in this country 629 general associations; 100 college, 69 railroad, 31 colored, and 12 German associations. The American association owns property to the extent of \$4,350,000, of which sum \$3,532,00 is invested in buildings. Their aggregate annual expenditures now amount to about three-quarters of a millien of dollars. It speaks well for the railway management of this country that | Derry and North Monaghan; Thomas it encourages this branch of work among railroad employes. The expense of this branch of associations, at present, Longford; Mr. Dillon, North Tyrone amounts to \$75,000 per annum, two-thirds of which sum is contributed by the corporations, the officers of which testify to "the great benefit resulting to their employes through this special department of the Y. M. C. A. The Omaha associ ation has struggled along for years without a home and in straightened circumstances. It is high time that it should be planted firmly on its feet.

Kansas City is reaching out to Hast ngs, and other southwestern roads are tapping our territory behind us. If Omaha will open her eyes, and her cap- place. It has been resolved to abandon italists will open their pocket-books we the idea of contesting districts in Glascan reach down into the territory now gow and London. Instead of this the becupied by Kansas City, and transfer to Omaha by as short a line as that which now runs into Kansas City a large proportion of the business of central Kan. sas and the southwest. We have before this referred to the fact that a line of railroad conning southwest from Omaha to the Indian Territory line would tap every trunk line east and west into Kansas City about a hundred and fifty miles from the Missouri river. It would give to that great section a market here as near to their doors as Kansas City itself, while it would draw to our stock yards the bulk of the great Texas shipment of cattle. The line of such a projected road would pass near Beatrice in our own state, through Ottawa, Kansas, crossing the Kansas Pacific in Ellsworth county, and passing through Comanche county on the southern border, would cross the public lands in the western part of Indian territory. From that point a junction by direct route could be made with a railroad built from San Antonio to Fredricksburg Texas, and a port on the Gulf of Mexico secured at Aransas. This is a far reaching scheme of railroad extension, but it is possible and practicable. Such a trunk line would do more for the interests of Omaha than a dozen stub roads.

THE outrages perpetrated by the Russian mobs was drove the Jews out of Russia find their parallel in the course taken by the Prussian government in expelling the Poles from the eastern provinces of the king iom. As the lot of the Poles who live under Prussian rate in the province of Pasan has been less bardansome than under Rassa, there has been a sudden influx of this unhappy people from the rule of the exacts that of the kaiser. But they do not become Germanized by the change, nor do the Poles. who are native to the province advance to perfection on that line. So the German government reached the conclusion that the fewer in Posen the better, and all classes of Russian Poles in that and the adjacent provinces -Silesia, East Prussia-have been given notice to leave. They have been expelled by thousands from the lands they had bought and the houses they had acquired, and no compensation is o feral them for the heavy loss es thus indicted. Last contory the Prussian government were the praise of mankin I by the kind an . generous treatment it extended to the Salzburgers, whom religious intolerance had driven from their mountain valleys in southern Germany. The day of expulsion for religious faith is past in Tentonie countries, but crimes as cruel are now perpetrated in the name of nationality.

THE prepressible Denis Kearney is once more on deck. He has resumed his crusade against the Chinese, and varies the monotony of his tirades by abusing O'Donnell, who has encroached upon Kearney's domain by getting up a warfare on the Chinese on his own account.

THE pound ordinance is being enforced, as it should be, and as we hope it will continue to be. Omaha is no longer

policy, and Lord Salisbury will hardly The week on the enginent has devel- dare to attack Burman when his own oped few events of striking importance, overthrow appears numinent.

> THE question is whether the keepers of gambling houses and violators of the li cense ordinance shall dictate the removal of police officers who are trying to do their duty.

> A Pointer from the Crescent City. New Orleans Picayane: When a boy starts out in the world and determines t make a man of himself he is bound to succeed if he lives; but if he stops by the way to be a sport, a boodlum, a dude or a politician he becomes a miserable fail-

The Saddle Governor. Chicago News: We look for Fitzhugh Lee to make a very weak governor for Vir ginia. He appears to be a namby-pamby sort of a person, and his entire canvass for the governorship has been conducted on his family name, his whiskers and his uncle's saddle. We have in the career of

T. T. Crittenden, of Missouri, a notable illustration of the folly of betting on pedigree and pulchitrude

Improvement in Trade. New York Mail: The improvement in many important branches of industry properly enforced. This means that which set in some months ago continue to make satisfactory progress. There is Prince Alexander is no longer to be n decidedly hopeful feeling in financial and commercial circles. Business men are to pass into the anomalous condition had become so accustomed to depression year after year that it was naturally of several other Turkisa provinces, in teared there would be a disposition to force the activity when a change came suppet governor. The agreement is of a for the better. Thus far these views have not been sustained, and there is a slow, healthy recuperatirn going on which is gratifying to the conservative classess. ment to be overthrown by influences that

Even Rich Men Have Trouble. New York World: Senator Palmer bas dispressed that even rich men with end ess amounts of money have trouble has just completed his very handsome house upon K street. Just beyond him on the corner is a very large house, built something in the style of the British le-gation. It is occupied by an eccentric Washington citizen by the name of Lowry. Senator Palmer's lot joins his. The senator built a stable on the back of his lot and as far away from his neighbor This stable has offended Mr. asapossible. Lowry. Is order to avenge himself be built a wall nine feet high between his lot and the senator's. This wall rises above the only window in the senator's dining room and shuts off completely the handsome view of a neighboring park upon which the senator had particularly prided himself. More than this, it has s darkened his dining room that it will be impossible for it to be used except by ar titicial light, As Mr. Lowry is rich and obstinate, the senator has no means of being named first: T. M. Healey, South persuading him to remove the wall.

The Andre Monument. Sexton, West Belfast and South Sligo; New York Sun: We disapprove of the estruction of the Andre monument. The professorship of bloogy held by Pro-fessor dundley in the school of science in South Kensington, London, has been about ished since he resigned. The salary was Signor and the claim was considered "one of the few prizes open to biologists," so that its abolition unds little favor among men of

A university for women, endowed by private British annexation appears to be the delay on the part of the British authorities funds has been opened at St. Petersburg, with labratory for electristry and a study furnished until the parliamentary elections are with all the appliances necessary for the pur suit of the physical sciences. The minister of public instruction did not assist at the over. Then, if the liberals prove to have won a decisive victory King Theebaw public ceremony of inauguration, and his absence has furnished the theme of a lively article in the Northern Messenger, a new Russian review edited by a woman, and stated to be the organ of feminine opinion in may possibly preserve his independence. A tory defeat this fall will surely be taken as evidence that the British people are opposed to an aggressive foreign the capital of the coar.

IMPLETUS.

"What is the worst thing about riches?" asked the Sunday school superintendent. And the new boy said, "Not having any," --

Sunday is the colden clasp which binds to gether the volume of the week. It is also a good time for one to buil off his boots and try the lemion remedies accommutated during

The difference between the two men is that Mr. Cleveland lays a St bill in the contribution box at church, while Mr. Rendeless throws a silver quarter in so heavily as to make it heard all over the room.

A little girl attending church Jast Sunday with her mother was given the change to put in the contribution box. After it had been put sed around the little girl looked up and said, "Ma, I paid for four. Was that right?" A western elergyman says that if men and

women are to dance at all they ought to dance in separate rooms. Husbands will perace take notice, and hereafter when they put their bare foot on a lark they will see to it that it happens when their wives are in another room.

"Bromley, you never heard such an eloquent sermon before, I am sure. There was no tagging of int rest. Such brilliant passages — "Yes, Darringer, I admit that, Still I slept during one of the passages, "You did, eh?" Why, troubley, what passage was it?" "The passage of the collection basket,"—[Phiade.phia Call.

The polls were about closing at sundown. Fuesday, in the city of the Reverned on spix of "The sun-do-move" fame, when a coored brother sorrowfully said: "Oh! dat we had Joshua here fur to make de sun stan still fur an hour!" Joshua, we are informed, did not

A West Side clergyman, while proceeding from one heading of his discourse to another theme, Sunday evening, announced, 'But 1 pass' — Before he could proceed with his emarks a man in the gallers, just awakened from somnoient lethurgy, shouled at the top of his voice: "Then I make it spades!"

Adirondack W. H. H. Murray remarked in his lecture at Ratiand. Vt., that the credit of the management of his Moutreal restaurant was due to his sister and two noble girls, and that it mayone dured to comple the manner of hese women with disgrace he would kill him on the spot. And yet the sangularry W. H. H. Murray used to be a elergyman. Parson Downs' chorch was crowded last unday and hundreds were turned away. The Bernbardt and Langtry style of adverti-

ing certainty pays. From a straggline shere herd who found it hard to make both ends meet, he is now a paying card to any lecture oureau at \$200 a night. The moral seems to be that it doesn't pay to be moral,- Bringnampton Republican. "It beats all creation." muttered old Mutlei-

"Heats all creation," multered old Multerhead, "what pains swindlers will take to beat honest men. Here somehody has saidled a lead 10 cent piece off on me." "Can't you pass it again." timely suggested his lesser half. "Pass it." he saouted, "why, the thing is as black as my hat. No. I'll have to put it in the contribution box."

Rev. Mr. Mangasarian of Philadelphia, says t is possible for a man to be a Christian with at believing than Jonah was swallowed b whale. It is easy enough to believe that lough was swallowed by a whale, but the story about his being thrown out on dry land partment is what wrecks the credulity of A tramp printer set up the doings of a Sun-

day school convention for a Hartford paper, the proof of which was not read. After the paper had been worked off the following sent nee was found in the report: "From 10 to 11:50 song and dance by Rey, Mr. Carry," This caused a sensation, during which the ypo made his escape. "It alls my heart with joy," said an earnes

country paster, at the end of his sermon, "to see so many strangers among our congregation on this beamiful Sabbath morning. So journers in our town are always welcome we want them to come. Young men and oh men whom pleasure or business has catled away from the soliciting influences of home, we greet with open hearts. The collection will now be taken up."

The revised revision of the bible isn't sellng nearly as fast as its publishers antici-pat d. The smaller editions go well, but the pua, as stay persistently on the publishers she ves. The explanation is simple enough. The old fashioned faunity bible is justus good as ever it was for pressing photographs and autumn leaves, and it isn tevery handly that can afford to keep up with the style in b.bles these hard times.

A man who used to preach the gospel in antilements has writen to a trient reka, Nev., that he is running a bar eda, Montana, and that his partner Vaugh, an old-timer from Californ a wh sed to deal faro in Colorado, and was sent openitentiars for burglary. "The is a good to penitentiary for burglary. "He is a goog gambling man," doe ares his ex-elerical part ner in a burst of admiration, and adds b way of personal vindication; "selling whisky pays better than preaching, and be sides it is no harder work

SINGULARITIES.

Coffee plants have been found growing wild in Buttle county, Cal. Portland, Ore., claims a cow whose milk is

nearly 40 per cent cream. The crop of one pumpkin vine in Michigan was 506 pounds of pie material.

The streets of Salisbury, N. C., are being macadamized with gold quartz, worth \$15

A Jurge number of white swans have been killed in the vicinity of Mitchell, Dak., this S.RSOH. A man with bright purple bair was the ob served of all observers in a Cieve and (O.

A congur, measuring seven feet six inche some hunters on Lin coln creck, Oregon, last week.
