Bits of History Culled from Old Father Allis' Manuscript.

STATE HISTORICAL MEETING.

The Disreputable Tenth Street House Row-An Editor Sues an Editor for Libel-Nipped in the Bud-Capital Notes.

[TROM TH BEL'S LINCOLN BUREAU,]

At the meeting of the State Historical society last night Prof. Howard read a number of extracts from the celebrated Allis manuscript, a copy of which was recently obtained by ex-Governor Furnas for the society's record. The original paper was-prepared in 1876 by Father Allis, and is now in the possession of relatives in Conneil Bluffs. Allis was a Congregational minister who came to Nebraska in 1834 as a missionary to the Flatheads, or Nez Perces, but his diary does not show that he ever penetrated their country, most of it being devoted to a relation of his observations among the Omahas and Pawnees. As a historical document the Allis manuscript is of but little value, it being mainly made up of descriptions of Indian customs, now well known, short references to the early settlers, and long exhortations of a religious nature. The extracts read by Prof. Howard covered Allis' journey in 1834 from Ithaca, N.Y., to Bellevue, Neb., which was by way of Cayuga lake and Eric canal to Buffalo, thence by steamers on Lake Eric to Salem, Ohio, and across the country by stage to St. Louis. From the latter place, he made his way by easy stages northward, passing the trading stations of Pensano, now Wes-ton, Mo., and Jos, Renbideau and sons, now St. Joe, to Bellevue, where he met the Pawnees in council. From Belle-yue Allis went with the Indians to their village, on the north fork of the Platte. On the fifth day out they met three traders in the employ of Pierre Choteau & Co., of St. Louis, one of whom, Fran cois Guitton, is now living in Council Bluffs. Leaving the Platt, Allis took a detour to the south, down the Big Blue and doubled back by way of Bellevue. One of the most interesting portions of the diary is Allis' description of his trip to St. Louis on horseback with Peter A. Sarpy in the winter of 1835. The snow was unusually deep, and on their return in the spring they were fourteen days getting from St. Louis to Bellevue. On the way back Allis caught the small pox from Jim Beckwith, a trader with the Blackfeet, but recovered. Beckwith and nearly 20,000 Indian's died from the plague that year. The mysterious disap-pearance of Dr. Satterlee in 1836 is explained. The doctor was going west with a band of Pawnce Loups, and when near Grand Island left them to examine

a camp from which he saw smoke arising. He arrived there just in smoke arising. He arrived there just in time to witness the murder of a trader named Brady by his partner, and was killed by the latter to prevent the facts becoming known. In June of the next year Dr. Satterlee's clothes, rifle and skeleton were found on the banks of Plum Creek, near the head of Grand Island Island.

Scattered through the manuscript, which is very long, being in all some forty columns of the BEE, are many little facts of interest.

little facts of interest. At the conclusion of Prof. Howard's reading, Edson P. Rice was introduced, and read an exhaustive paper on "Slav-ery in Nebraska," reciting the early struggles of the republicans to abolish the holding of human beings in bond-area age.

Mr. Beck said the finance committee had Mr. Eustis' resolution up this morning, but had not invished its consideration. In order that the committee may have the subject fully be-fore it, he asked reference of this substitute to that committee, and it was referred. Mr. Pugh resumed his remarks on Mr. Beck's silver resolution. The London press, he said, had joined the money kings of our castern states in demanding of congress suspension of silver coinage. They want to sweep away every kind of money but gold. Then, indeed, we should have no God but gold, and no kings but national banks. Sil-ver, Mr. Pugh insisted, had not been treated fairly either by our public officers or banks, but has held up well in spite of them. When-ever silver gets the same treatment as gold "I am a little man, your honor," said Tucker, as he filed his complaint, calling the attention of the court to his diminutive stature, "and this man Emery is a big fellow. I was coming up from Kanbig fellow. I was coming up from Kan-sas on the U. P. road day before yester-day and was standing out on the plat-form at a small station, when all of a sudden somebody grabbed me from be-hind and proceeded to wipe up the car with me. He literally paralyzed me, and when he got through and I looked at him, so help me heaven, judge, I swear I never saw the man before. I followed him up here and found out that he is storming at the Pay. but has been up wen'n spite of them. When ever silver gets the same treatment as gold under the national laws of supply and de-mand, it shall hold its own. Mr. Pugh would deem the controversy settled, but he had no doubt silver would come out all right in any case. Mr. Pugh expressed a willing-mes for support any change in the wisting found out that he is stopping at the Pax-ton. He didn't make any explanation or ness to support any change in the existing law that would withdraw any paper under \$10 or even \$.0, so as to give the entire field for the use of small bills for change to silver apology, and I don't understand what in the thunder he trounced me for. But I do know that I want some satisfaction. for the use of small bills for change to silver and silver certificates. He advocated the passage of a bill heretofore introduced by Senator George, which Mr. Pugh said would give the national banks a better opportunity of becoming acquainted with silver. Mr. Vance said the present attempt of the moneyed men of the world to depreciate silver was one of the grandest conspiracies ever sean. It was a twannical and ergol and guess it will take about \$1,000 of his Summons were issued for Emery, but the constable instructed to serve them

The success of the efforts against silver would result in the greatest of industrial calamities. Every species of property would shrink, the only exceptions being gold and debts which would be increased to the extent to which property would have shrunk. AN EDITOR LIBELLED.

Henry Brugman, editor of the Staats Anzeiger, yesterday procured a warrant for the arrest of Godfrey Bluedhorn, of the Freie Presse, on a charge of libel. The objectionable article was published on the 12th inst., and consisted of four virulent charges. One was that Brug-man, years ago, defrauded a partner out of \$2,500; another was to the effect that he had embezzled \$500 of the Sangerfest funds; another, that he had kept for six months \$130 raised by the Lincoln Manperchor for the relief of flood sufferers in Germany; and another, and per-haps the most slanderous of all, was that Brugman was compelled to stand by Dr. Dogge, now in jail on a criminal charge, because Dogge had cured him of a dis-tressing private disease. Ex-Sheriff David N. Miller yesterday made to the county commissioners a detailed statement of the fees received by him during the past year. The report shows a total eash collection from fees of \$2,915.95. There are still on the books several hundred dollars of fees uncol-lected. These, Mr. Miller claims, belong an abuse of terms to say that sitter had dep reciated –silver constituted one-half of the quantity of all the coin in the world, and the stoppage of coinage would deprive the world of one-half of its coin supply, and would double the purchasing power of the other half. This would be an enormous contrac-tion to him, while the county commissioners assert that they are the property of the county. There has always been some dispute in regard to the matter, the law not definitely defining the amount of fees which the sheriff is to retain. The county tion. The Insane Omahan in Boston.

The BEE's special telegram of yesterday announcing the insanity of an Omaha citizen in a Boston hotel should have referred to Henry Wilkins and not to Geo. W. Wilkins. Mr. Henry Wilkins is a member of the City Steam Laundry firm and his partner, Mr. Evans left for Boston has bight for Boston last night.

His Child Dying.

A telegram has been received by Drexel & Maul, asking them to inform J. O. Terry that he is wanted in Linoln, as his child is dying there. Mr. Terry was formerly employed by the firm, but, although he is believed to be in Omaha, they do not know his whereabouts.

For all Diseases of the yer, Kills eys, Ston web an 1 Spleen This purely vegetable preparation, now so celebrated as a Family Medicine, originated in the south in 1828. Its acts gently on the bowels and kidney and cor-rects the action of the liver, and is, therefore, the best preparatory medi-cine, whatever the sickness may prove to be. In all common diseases it will, un-assisted by any other medicine, effect a speedy cure. The Regulator is safe to administer in any condition of the system, and under no circum-stances can it do harm. It will invigorate like a place of white, but it is no intoxicating bererage to be in the medicine, and generally tone up the system.

treasury on the subject should be considered on their intrinsic merits, and should not be influenced by the fact that they were argu-ments coming from high officers of the gov-ernment. Suspension Mr. Coke regarded as tantamount to complete stoppage of our sil-ver coinage. Silver, he said, had not depre-ciated, but gold had risen in value. He showed by statistics, that taking ninety lead-ing articles of merchandise, there had been an average fall of 26 per cent since 1870, while there had been a fall of only 23 per cent in silver bulion. It was therefore an abuse of terms to say that silver had dep-reciated—silver constituted one-half of the case.

involves a very important principle. If the different counties concerned would only band together for organized resist-ance, we could undoubtedly win the Card of Thanks.

We wish to extend our thanks to the many friends that so kindly assisted us during the sickness and death of our husband and father. MRS. JAKE SCHREINER,

And Children. City Notes.

Miss Eva Moomey, traveling reporter for the Saturday Evening Post, of Burlington, Iowa, is in the city.

M. Toft and family returned Tuesday from Chicago, where they have been spending the past ten days visiting rela-tives and friends. Mr. Toft reports hav-ing had a splendid time and nows feels as it he weighed a ton.

There was an interesting cock fight Monday night in a well known resort on Douglas staeet, between two pyles. The tight was for \$100, and was won by the lighter pylc. Considerable money changed hands on the result.

Miss Lizzie Canfield, who has been spending the holidays home, left vesterday for Rockford, Illinois, to resume her studies. She was accompanied by Mrs. Clark, of Papillion, who wil enter the same institution of learning.

The man Flynn, a fugitive from justice from Dubuque, Iowa. has not yet been captured. He was never a boarder at the house of Mrs Lucas, as has been errone ously stated.

Sam Morrison, the Council Bluffs man, whose alleged indecent antics before a crowd of little girls Tuesday, brought him a severe horsewhipping, came over to Omaha yesterday and will remain here for some time "for his health." Popular feeling against him is running very high in the Bluffs.

gold (bullion) in the United State has increased to \$60,000,000, so that instead of silver coinage having driven gold out of the coun-try, our supply had become trebled since sil-ver coinage had commenced. This was a fact that no theorizing could controvert. The silver standard had no terrors for Mr. Coke, Germany had been a silver country before it had got so nuck gold from France, France was one of the most thrifty nations in the world, and France had \$600,000, and some said \$500,000,000, of silver coin circulat-ing in harmony with gold and side by side with it. Yet the French silver coins were of a fineness compared with gold of only 15½ to 1, while our silver dollar was of a fineness of 6 to 1. Give us, said Mr. Coke, the same executive vigor and fidelity exercised by the officers of the French govern-ment in behalf of silver, and we will show that we can carry very much more silver than we now have. At the rate of \$2, 000,000 a month it would take us fifteen years ty get \$75,000,000, the lies than the amount claims d by anybody to be the silver circulation of France. The coinage of silver, Mr. Coke said, should be free as was the coinage of gold. American silver should be placed on an exact equality with gold every-where, but whether right or wrong as to free coinage of gold. American silver should be placed on an exact equality sith gold every-where, but whether right or wrong as to free coinage. Mr. Coke said, we should insist that our government officials should execute the laws. Mr. Coke reviewed the history of our bond Mr. J. R. McAlley left last night for Denison, Texas, where he will make his future home. Mr. McAlley will be re-membered as being counceted with the Barber Asphalt company, and late su-perintendent of the Grant Slag Pavement company. All his friends wish him un-bounded success.

John Hamlin, representing several En-glish capitalists, has gone to New York, and sails by next Saturday's Cunarder for England. He will return with Brit-ish funds to invest in Nebraska real estate and Omaha building.

The West End club met last night at the residence of T. W. C. Cook, Twentylaws. Mr. Coke reviewed the history of our bond legislation to show that bonds were payable in "coin," and that the joint resolution intro-duced in the senate in 1878 by Senator Stan-ley Matthews and passed by a two-thirds vote of both houses of congress, declared it to be entirely consistent with the public faith under the contract to nay bonds in silver. But nobody asked that they be paid exclusively in silver. All that was asked was for our officers to treat silver as they treated gold. He wanted no more reports from them saying that silver cannot be got into circulation when in violation of law the treasury department refused to pay it out, and allowed bonds that ought to be paid to remain outstanding, while keeping locked up in the vanits of the treasury millions on millions of silver that out to be in circulation. Mr. Bowen offered a resolution, which at his request was laid over for the present, di-recting the committee on Indian affairs to in-guire into the expediency of removing all Indians in the United States to the Indian territory west of the state of Arkansa. The senate then proceeded to the consider-ation of bills on the calendar. Several bills for private relief having been disposed of, the bill to admit Dakota was reached. Mr. Harrison said it would be impossible to fifth and Dodge streets.

Steamers Ice Bound.

RICHMOND, Va., Jan. 13 .- The steamers Old Dominion, New York and Ashland, for Philadelphia, left their wharves here last night for their destinations, but owing to ice in the river failed to pass down, and at midnight were ice bound about a mile below the city.

September Weather. Maj. Wheeler, the chairman of the Omaha fair board, presented to the conside ration of the members at Tuesday's meeting a letter from Gen. Test bearing upon the weather for September next, as prognosticated upon the principles of astro-meteorology. Following is an excerpt of the letter:

"The dates in September next on which atmospheric disturbances can be ex-pected are the 2d, 6th, 11th, 17th, 18th, 22d, 26th to 20th. September storms are not always general, and we may not be troubled. Besides, these atmospheric disturbances are not always rainy, but ordinarily I would not advise an out door testival the last week in September, as it is the time of the new moon and that is the time of the new moon, and that time of the month is nearly always bad. We had a specimen of it last week. If you want further particulars, write to Professors Smith and Mansil, as I am not good at setting any particular dates, my investigations being more into the nature of magnetic disturbances and the outlook as to the seasons.".
