There is no rudeness, clownishness, but the keenest kind of genteel comedy, and those who attended laughed until laughter could no longer be indulged in.

The Congregational church choir has been re-organized and promises to take rank as one of the best in the city. Miss Fitch will continue as organist, a position which she fills excellently. Mrs. Roff has been secured as leading soprano, and her sister. Miss Katie Edinger, as con-turate. They have very sweet voices and their voices harmonize almost perfectly. Mr. Wesxcott, who has one of the finest of tenor voices, will continue to take part. Prof. McDermid will probably serve as There seems to have arisen misunder-standings and some feeling among those who have been interested in the charity ball and relief fund. Mrs. Dr. Macare ball and relief lund. Mrs. Dr. Macare has resigned the presidency, and the other ladies who were so actively en-gaged have followed suit. They seem to feel that the matter has been practically taken out of their hands by others after they had organized the work, and they do not care now to have the responsi-bility of the management, as they have not had the charge or the handling of the funds. The tangle which has arisen among those engaged in so worthy a cause is to be deplored, and it is to be hoped that it may be cleared up quickly.

It is upholstered with red silk plush cushion, a \$20 headlight, hand-rails and iron work that cost over \$20 and has a break by which it can be stopped in twice its length. The total cost of it is about \$81, and was admired by many at the top of the hill, that being as far as it got.

as far as it got. The Alligator traverse is the "wicked est" one in the two cities. It weighs nearly 500 pounds. Saturday night was the first time it made its appearance this season. Parties here are ready to put up money that it will outspeed any traverse either in this city or Omaha and give opponents choice of track. Saturday night Lon Fisher, who was steering the Alligator, was thrown over the steering bar, but was caught in time to save being hurt. The traverse then went a zigzag course to the end. It started with five people from this city and seven Omaha men on the first trip down but six of the Omaha people bounced off before they reached bottom.

Besides those who went over by dummy train, there were many sleigh loads who crossed the river. Two large sleighs went over thus, one containing the crib-bage club, of ladies and gentlemen. Probably 100 went over in sleighs, mak-ing the total representation of Council Bluffs people between 500 and 600.

Bluffites at the Darn-ival.

Those from the Bluffs who attended the coasting carnival In Omaha Saturday evening feel sadly disappointed over the anticipated enjoyment. Great preparations were made here, and a much larger crowd than was even planned for went over. The jam here was so great that there was delay in getting over, and the party did not reach Omaha until halfpast 8 o'clock. There were 425 tickets sold at the dummy depot, so that the cars were filled to overflowing. On arriving in Omaha there appeared to be no distinct organization, and by the time the traverses were unloaded and the groups belonging to each had begun to get together, some struck off in one direction and others in another. The Bavarian band went down Tenth street at perso once on the arrival of the train, and there was a hunt among those still at the de-pot for the music. In fact from the time the train started out until it started back there seemed to be the greatest confusion of plans. Some blame the committee in Omaha. Others blame the band. Others put the blame on to the lack of sufficient organization here. Some blame all, and all roar about more or less. Whoever or whatever was at fault, the fact exist that the Bluffites had a hard time of it There were over twenty traverses which were taken over from here. They were excellent ones, and some of them expensively fitted up. Only three or so got any chance to go down the hill. There was an immense crowd there when the Buflites arrived, and little chance for them. Some of them, after pulling their traverses a mile and a half by hand, had

There is a project on foot for having a coasting carnival here at an early date, and those who are planning on it avow that they will invite Omaha to come over here and see how such an entertainment should be conducted. They propose to have matters so carefully arranged and treat the Omahas so royally as to put them to shame. Such is the sweet re-venge which is being talked of and plan-ned for. George W. Thompson tried to stop a traverse, but it "did him up" and barked one of his limbs.

Council Bluffs is doing a larger wholesale business than is generally supposed. There are here wholesale houses in almost every line of business, and many of them strong ones, reaching out in all directions. The numerous railways center ing here make this a convenient point. and many other advantages exist here which make this city one of the best distributing points in the west. Council Bluff's has been quietly going along with-out any great flourish, or blow of trump-ets, but has been and is doing a large wholesale business, and it is steadily surely increasing. The BEE proposes to show to the world, by its extensive circulation, what houses are already located here, and in another column will be found a partial list. This is but a begin-ning, and the directory will be increased rapidly until it comprises all the leading, reliable wholesale houses here. The directory will be found a convenient one for merchants to refer to, and communi-cation by mail will be attended to as
