

THE DAILY BEE.

OMAHA OFFICE, NO. 914 AND 916 FARNAM ST. NEW YORK OFFICE, ROOM 68, TRINITY BUILDING WASHINGTON OFFICE, NO. 515 FOURTEENTH ST.

Published every morning, except Sunday. The only Monday morning paper published in the West. TERMS BY MAIL: One Year, \$10.00; Six Months, \$6.00; Three Months, \$3.50; Single Copies, 10 Cents.

THE BEE PUBLISHING COMPANY, PROPRIETORS. E. ROSEWATER, EDITOR.

The surprise at the breaking up of the Transcontinental pool is not so great as the surprise caused by its holding together so long as it did.

There is a great scarcity of good servant girls in Omaha. This dearth of domestic help may be due to the announcement of an enterprising Dakota journalist that he can supply ten thousand women with husbands.

Since the return of the predicted cold wave St. Paul newspapers are preparing to urge General Hazen for one of those vacant major-generalships.

The sale of unlimited first-class tickets from the Missouri river to California points for \$60, caused by the breaking of the Transcontinental pool, is a big thing for the scalpers.

YERLUD DUDLEY has been released and O'Dynamite Rossa says that while he will not attach a dynamite bomb to her skirt, he will keep his eyes open and his trigger-finger ever ready to get in the first shot next time.

A good imitation of oleomargarine is now on the market. When the law is passed compelling manufacturers to tint bogus butter pink, a rider should be added to color the bogus oleomargarine blue.

The murderous Apaches have added eight more murders to their long list. It is about time to round up these butchers and start a graveyard with them.

Now that the exposition building is open a grand gladiatorial combat between the rival leaders of Nebraska's democracy has become a possibility.

KANSAS CITY is agitated over the rumor that John I. Blair is negotiating for cable line stock in that city and owners of those securities have at once doubled the price of their holdings.

The papers of Detroit are still vigorously carrying on the war against railroad dead beatism, and continue to refuse to publish time tables free of charge in their columns.

OMAHA'S stock yards have been of great advantage to this city during the year or more in which they have been in operation. They have added to our resources as a market for western producers.

HAVING asserted its dignity in the resolutions about removals the senate should now buckle down to business. At the present rate of working neither branch of congress is earning its salt.

ANOTHER large wholesale lumber yard is to be located in Omaha. A brick yard with an capacity equal to all those that we have is the most pressing need of this city.

A GREAT many candidates are preparing to bloom with the flowers of spring. That's about all most of them will do—simply bloom.

TIBBLES has turned up again with the Ponca Indian case in his pocket. Parliament has once more opened its doors and the responsibilities and cares of office have already begun to press upon the shoulders of the Gladstone ministry.

FATHER BETTS, well known in Omaha, is once more in trouble with his ecclesiastical superiors. This time the offense is not connected with ritualism or rubrics.

Inquiry Into Capt. Crawford's Death.

Senator Manderson yesterday introduced a resolution of inquiry in the senate calling upon the secretaries of war and state for information as to what steps had been taken by the government in regard to the killing of Capt. Emmett Crawford.

Capt. Crawford leaves dependent relatives in reduced circumstances. He was treacherously murdered by men wearing the uniform of a nation which is assumed to be on friendly relations with our own.

The Best is the Cheapest. This paper is making no warfare on any paving contractor or for any paving contractor.

The sale of unlimited first-class tickets from the Missouri river to California points for \$60, caused by the breaking of the Transcontinental pool, is a big thing for the scalpers.

YERLUD DUDLEY has been released and O'Dynamite Rossa says that while he will not attach a dynamite bomb to her skirt, he will keep his eyes open and his trigger-finger ever ready to get in the first shot next time.

PERSONAL POINTS.

Phil. Armour's pay roll amounts to \$3,000,000. Ex-Senator Weber, of Colorado, is a man of many moods. Jay Gould controls securities with a par value of \$438,000,000.

The home office is receiving general blame for the wretched handling of the late riots and Mr. Childers has been forced to defend himself by showing that the public failed to inform him of the occurrences until several hours after the first riot had broken out.

The duke of Edinburgh refuses to forego his claim to the throne of Saxo-Coburg-Gotha for the £100,000 offered him by Bismarck.

Senator Jones has built the largest quartz mill in the world at his Juneau, Alaska mine, which is yielding him much wealth.

Mr. Thaddeus Faibanks, the inventor of the Fairbanks scale, recently celebrated his nineteenth birthday, and still lives at St. Johnsbury, Vt.

Asked how he succeeded in business, Phil D. Armour replied: "I always made it a principle when the Almighty wasn't on my side to go to him."

Gen. Grant set Sherman an excellent example, and Sherman ought to know by this time how golden silence really is, particularly in a man who cannot talk.

Frank Ireland, of Nebraska City, who claims the honor of being the handsomest man in the state, is emphatic in the state parliament has indignantly and effectively protested against their continuance.

The Greeks are still insisting that Turkish territory or war are the only alternatives, and the efforts of the powers to prevent what seems a certain infraction of European peace have not so far been crowned with the desired success.

The "scientific expedition" lately sent by the Russian government into Tibet was equipped after a fashion decidedly too warlike for purposes of pure or applied science, nor is it easy to connect the presumed objects of such an expedition with the killing of 400 natives.

How uncertain are the vicissitudes of this life! A man may be shooting along on a high tide of success and then by some of the numerous hills about this city, existing in all the vigor of youth, and overflowing with an abundance of animal spirits, and the next minute he may be in an adjoining county under twenty feet of snow, without hat or coat, waiting for the spring thaw to set in.

Philosophy of the Weather Bureau. Oh, I am the chief of the Signal Division. The newspapers make me a but for derision. But they print every line that I write!

The people all yearn for my last incubation; They rush for the paper each day. And before they have looked at the news of the hour, they must see just what I have to say.

My predications were right to a T. My secret? Oh, well, I would just as soon tell you. Whenever I say "it will be warm," just get your sister; the cold will compel you.

For we're in for a howling cold storm. If I say "it will be cold," you may know it's a fiction. You'll never find duster will do; In short, every time that I make a prediction Just the opposite's sure to come true.

It was the American humorist who said the best remedy for insomnia was a good night's sleep. The power to sleep when and where one will is a gift Providence quite as desirable as memory, beauty, or any of the other nice things which are presumed to be heaven-sent.

One point in the arrangement between Prince Alexander of Bulgaria and Turkey, apparently insignificant from a European point of view, was the nature of the address to be worn by the prince, because the red fez is obligatory on all Turkish officials, and the prince would not consent to adopt the fez on presenting his homage to the sultan.

Mr. Labouchere makes bold to coin a word. Says he: "An interview with the name of the interviewee (the word requires coining in these days) left out is rather poor reading."

FIGHTING FOR A BIG FORTUNE.

The Story of a Legal Contest or the Estate of a Negress. A Mixed-up Affair in Which Appear Many Points of Interest.

The New York World of Feb. 10 says: Final argument will be heard to-day in New York, Rockland county, before Surrogate Geo. W. Vincent in the famous contest for the possession of the estate of Edward Hedra, late of Nyack.

The population of the city is estimated from 1,000 to 1,200 people. A \$1,000 school house and a \$1,000 church were erected last year. We have an opera house 40 by 100 feet, and a court house the same size.

After the death of Cynthia, Edward installed the widow of Solomon Hedra as his housekeeper. Her daughter, Mrs. J. B. Torloff, was a widow with two children.

New York Sun: "For an experienced religion and turned from the evil of my ways," said a man who had been quietly sucking away at a corn-cob pipe.

Gen. Grant set Sherman an excellent example, and Sherman ought to know by this time how golden silence really is, particularly in a man who cannot talk.

Frank Ireland, of Nebraska City, who claims the honor of being the handsomest man in the state, is emphatic in the state parliament has indignantly and effectively protested against their continuance.
