Real Estate Purchases Closed For the Feeding Farm Near Fremont.

A MAMMOTH MUNCHING PLANT.

Creighton Creeping Upward in Business Importance-A Prehistoric Mummy in Captivity at Norfolk-Nuggets.

An Industry of Magnitude.

FREMONT, Neb., March 5.- [Special.]-The Standard Cattle company of Chevenne has ed its big deal in this county, and Mr. J. W. Love has completed the largest real estate deal ever made in this part of Nebraska. He has sold to the above company over 5,000 acres of Dodge county fine lands, lying some seven miles west of Fremont, and through which the Union Pacific passes for two and one-quarter miles, and giving a Platte river frontage of one and one-half miles. This deal includes the following well known farms and land: The Tifft of stimulating the attendance. Love, Davenport and Detwiler Graff. lands. the Dodge, Thomas, Zorn, Mulloy, Barnard, Suchy, Bergers, Hass, Dailey, Wis ner, Richards & Keene, Remer and Hoffman farms, including some thirteen sets of farm buildings and improvements, orchards, groves and over fitteen miles of fencing. This makes one of the finest cattle plants in Nebraska. Its location for hay and corn is unsurpassed. Its railroad facilities are fine, having both east and west connections with the Union Pacific and Chicago & Northwest ern railroads.

The company will begin the erection of buildings at once. The contracts are let for over \$60,000 worth of buildings. The feeding barn will be one of the finest and completest in the country, having over 3,000 stalls, where each steer stands alone and untied. This building will cover between three and four acres of ground. It will be supplied throughout with the best and completest means and arrangements for feeding ground feed, hay, and giving each animal water. The machinery will be in a Grecial building for that purpose, the power being two forty-horse power boilers with a sixty-horse power engine. This power will ran the elevator, grinding mills, corn shellers, and furnish water and heat for the entire set of buildings. The architects, Mendelsohn & Fisher, state that the buildings complete will require from one and a half to two million feet of lumber. The company will keep the feeding barns full all the time, turning out yearly from 7,000 to 10.000 head of fat steers, and feeding from 300,000 to 500,000 bushels of grain, and from 7,000 to 10,000 tons of hay. The hay they will cut and put up on their own land; the corn they will buy from the immense corn district adjacent. They will keep constantly employed from thirty-five to sifty hands, running a boarding house for the accommodation of the same.

This is a big deal for our town and Dodge county, and gives us another great stock interest with the many we already have. Still we have room for more such plants, and are sure to get them. This is the feeding land for the great ranges of the west, and all the large cattle companies are looking after just such places.

Creighton Comes Up Smiling. CREIGHTON, Neb., March 4.-[Special.]-We are now having the heaviest snowstorm of the entire winter. It has been snowing for two days and the wind is blowing from the south. Heretofore our winter has been very pleasant, with very little snow for this part of Nebraska. Two of our real estate dealers went to Omaha this week to engage in the same business there-E. A. Crum and G. W. Hervey. 'They are live business men and we hope they will do well in their new field. The building boom has already com-

brought down from Rapid City last week by a couple of cowboys who found it. The spee lmen is a good one, being that of a dwarf or child with ugly proportions as to limb, and a very small shaped head. It is twenty-eight inches in length, and would probably be three feet if the lower limbs were straightened out, and weighs forty-eight pounds, So perfect is this marvelous transformation that even some of the short bushy hair of the head and body (gray with age) are firmly planted in the rocky substance that has assumed the form of a native Indian kid that no doubt was "somebody's darling," 'This human shaped deposit was found in a sort of a cave in a sitting posture, with the firearms hanging over the knees, and was about half way covered with earth, the head and should ers protruding. It might have been buried once, but it shows the influence of the atmos phere, as it was nearly dried to the state of a ummy before decomposition took place. It is a settled fact that a district reunion will be held here this fall at a time and place to be determined on the 10th inst., at which time a grand camp fire will be held in this place and the necessary arrangements made. This reunion will not conflict with the one to be held at Grand Island, but will act as a feeder to it, and will no doubt be the means

Sure, But Not Dead Sure. NEBRASKA CITY, Neb., March 5.-[Special Telegram. |-Thomas Morton, the newly appointed postmaster of this city, has as yet not received any official announcement of his appointment, not even a telegram concerning it, but no one doubts it, and his many friends here are jubilant. Morton informs the BEE reporter that he has pledged himself to no one as regards the deputyship.

Home Builders Organized.

STROMSBURG, Neb., March 5.-[Special.]-The organization of the Stromsburg Loan & Building association has just been completed. Three hundred and fifty shares of \$100 each have already been taken and the institution is making every preparation to sail along with the spring boom that has already begun.

HIS OWN MEDICINE.

A Wife Beater Whipped Out of An Indiana Town.

CHICAGO, Ill., March 5.-The Inter-Ocean's North Manchester, Indiana, special says: A mob of men and boys, to the number of 150, went to the house of R. B. Swaukin in the east part of town, who is accused of whipping his wife and shamefully abusing his child, and ordered him to pack his personal effects preparatory to leaving town. He obeyed orders and soon had two gripsacks filled ready to start. When he made his apfilled ready to start. When he made his ap-pearance outside the mob fell to and gave him a beating before starting to escort him beyond the corporate limits. They then marched him to Main street, and turning west marched to the railway in the west end of town. During the march down street he was kicked and cuffed unmerci-fully, and a big burley butcher followed close behind him and every few steps struck him with a huge cattle whip. After reaching the west end of town they took down the railroad track and called a halt. They took off his coat and two invectiar men gave him a terricoat and two muscular men gave him a terr le whipping with black snake whips, strik-ig blow about until the blood trickled down is arms and fingers. They compelled him is promise never to return to North Man-

ester and allowed him to depart. PERISHED AT HER POST.

A Lady Lighthouse Keeper Cremated in the Burning Pile.

CHICAGO, March 5 .- The Inter-Ocean Escanaba, Mich., special says: The light house on Sand Point, Escanaba, was destroyed by fire this morning. When the fire was dis-covered, about 1 o'clock, nothing could be done to save the building or contents, as the flames were bursting from the roof, windows and doors. Mrs. Mary G. Terry, light house keeper, perished in the house. The fire is supposed to have caught from the furnace, as it was in bad order. Others advance robbery, as Mrs. Terry was a woman of means and lived alone. Only a small portion of the skull and a few bones were recovered. The light house was completed in 1868, and Mrs.

drafted a home rule scheme and had shown It to friends. Joseph Chamberlain and Trevelyan deny they contemplate secoding from the Gladstone party.

Leonard Swett's Wife Dead,

CHICAGO, March 5 .- The wife of Hon. Leonard Swett, of this city, died to-day of apoplexy after a brief illness. Mr. Swett is traveling in the south for his health. Ar-rangements for the funeral are awaiting communication from him.

Holland Not Guilty. NEW YORK, March 5 .- The trial of James

T. Holland, for killing Tom Davis, the confi dence man, was concluded to-day. The case went to the jury at 7:30, and the jury agreed on a verdict of acquittal in ten minutes. Organization Among Farmers, Me-

chanics and Laboring Men.

To the Editor: Will you kindly allow me a few lines in the BEE upon the above subject? The tendency of the times seems to be toward combination. Every kind of business is forming its syndicates. Beef production is controlled by syndicates. There are grain syndicates, bank syndicates, land syndicates, railroad syndicates, manufacturing syndicates, printing syndicates, telegraph syndicates. Combinations have been made to impose a patent upon intelligence, upon news, and as progress goes for-

in this direction we may ward look for attempts to monopolize the free air of heaven, and a tax may even be imposed upon the right to tramp over the public highway. The idea of free com-petition by individuals with these giant combinations is simply absurd. The day of free competition is gone by. Even in trade in groceries and dry goods, which seems now so free, syndicates will soon be formed to conduct such business on a gigantic scale, and the individual trade

will be ground to atoms between the upper and nether millstones of combination. In addition to the syndicates above named, we have the crowning one of all -the keystone of the arch-the syndicate of law, the syndicate of political power.

Each powerful syndicate is the creature of law. And when the single combination lacks influence to procure the special laws it needs, it pools its power with some other combination upon the principle of "you tickle me and I'll tickle you," and

the needed laws are passed. The object of all these combinations is to bleed the people, to aborb the wealth of the country. The railroad syndicate of the country. The railroad syndicate takes half of all the products raised, and extortionate tolls on all goods brought in. The bank syndicate receives money of the government at one per cent, and extorts one to two per cent. a month on its loans. The land syndicates acquire land, but refuse to sell, receiving as rent from one-third to one-half of the proceeds of the tiller's labor, and gradually but sure ly reducing them to serfs of the soil. The political syndicate buys the repre-sentatives and judges, neutralizing the

ballot-and practically destroying the political liberties of the people. What is left to the people? They must syndicate their influence, syndicate their votes. They must combine against combinations. They must make a syndicate

for the passage of laws to conserve to the liberties of the people, laws to make the modern forces of transportation serve instead of enslave us-laws to bring the railroads under the same control as the common roads—laws to give govern-ment the same control of intelligence by telegraphic symbols as it has of intelligence by written symbols-laws to put banks upon an equality with individuals as far as government favors are con-cerned-laws which will prevent the monopoly of lands beyond the amount required for actual use, either by aliens or citizens-laws making special privi leges to special classes impossible. This can only be done by combination of the farmers, mechanics and laboring men, to

work unitedly to create a public sentiment in favor of these things. These classes can always join the Farmers' alliance. Organization is going forward

TALKS WITH TRAVELERS.

Short Interviews, Gathered From the Hotel Rotundas.

G. H. Hammond, Detroit, Mich .: "Yes I am here again and stopping at the Millard. I think, however, I may make some changes in the method of buying cattle for my Omaha establishment. As it is now I have to buy all my cattle from Kansas City. This winter has been too cold in Nebraska and what is worse the railroad rates are too high. There may be a change in the stock yard busi There ness here very soon that will startle you."

C. L. Hilleary, Peoria, Ill .: [Mr. H represents the I. B. & W. route east, and although young is one of the best posted railroad men in the west.] "I have just made my first trip trip through Nebraska and I have no adjectives too small for its praise. I am of the opinion that the Wabash line will have a track in this state in a very short time, and in order to get to these favorite dominions there will be a bridge required. Let the wiseacres guess where the point of location will be.

H. C. Lett, Denver, Col.: This prominent democrat and superintendent of the stone department, has been in the city several days, and still the packing house organ mentioned him not. The Hon. Mr. Lett is not a small fry by any means Mr. Lett is not a small Try by any means in democratic political affairs, and his opinion of the Morton and Miller tight is rather "keen." In fact, when asked which had the better show for national patronage, the Hon. H. E. Lett started for Kansas City, which everybody knows is the next thing to computing suicida is the next thing to committing suicide.

The Stabbing Affray.

Isaac Glover, the negro who stabbed Mrytle Grant, his white mistress on Wednesday night, is still in jail, awaiting examination. The woman is recovering, and there is now every reason to believe that she will pull through all right. Dr. Swetman, who is attending her, said to a reporter yesterday that in his opinion it was not possible for the wound to have been made accidentally by the woman herself in the struggle with Glover. The cut is a very deep one, five or six inches in length, and must have been made by a very powerful blow. The police who have investigated the

pase are of the opinion that the story told by Myrtle Grant is a device to shield her negro lover. She sticks to it persistently, however, and the closest_cross-examination fails to shake her. The knife with which the cutting was done has not yet been found.

CHICAGO, March 5 .- | Special Telegram.]-WHEAT-A petition for the re-establishment

of the one-fourth commission rule, and making violation of the rule ground for expulsion, was circulated on 'Change to-day. It received the signatures of many members and firms, and many members and firms refused to sign the document. The rough and tumble scramble for business during the past two or three months has proved wearlsome to the long list of commission men and brokers, and they have been put to their mettle to hold their own. menced in Creighton, and this season will see a large number of new buildings. Several buildings have been started and many others will be soon. This town is blessed with three bands, three banks and three newspapers, so we ought to be happy with enough of music, money and news to keep the town alive.

The affidavit mill against Miner W. Bruce has stopped grinding for the present, until George A. Brooks of the Gulch, gets the last batch sifted and used up. The Van Wyck sentiment is growing rapidly in Knox county, although there is an under ground railroad being built to injure him, by such men as Brooks of Bazite Mills and Draper of Niobrara, who are sworn enemies of Van Wyck because he advocates the rights of the people against the monopolists and dema-

L. F. Kemple, who became so notorious in Omaha a few weeks ago, is here now for a short stay. He used to own a farm a few miles south of Creighton, and was consida good citizen. His insanity is temporary and not of a serious nature. He is an old soldier and draws a pension, and is well known here. He should be provided for in some soldiers' home, as he is not able to work very much, and his pension is not sufficient to support him.

Land buyers have already commenced to arrive, and several sales have been made to parties who are coming here to live. Two car loads of household goods and stock arrived this week and are being removed to farms lately purchased. Knox county expects a large emigration of settlers from Iowa, Wisconsin, Illinois and other states this season. Some have already arrived. George E. Cheney will erect a fine bank building the coming season 25x75 feet, of brick, being the first brick building to be built in Creighton. A railroad is expected to be built the coming season from Wayne into the eastern part of Knox county, and perhaps to Niobrara, which will settle up that part of the county, which is now owned by the eastern speculators.

About thirty copies of the OMAHA DAILY BEE are taken in Creighton and only three or four Republicans. The latter being an anti-Van Wyck paper and railroad and monopoly sheet, does not have much sympathy with the masses of the people. The WEEKLY BEE has a large circulation in this county, which shows that the people appreclate labors in their behalf. What we want is some independent papers, advancing the rights of the laborer and producer, instead of subsidized sheets in the interest of railroad and other monopolies.

News Notes From Norfolk.

NORFOLK, Neb., March 5 .- [Special.]-The third day of a driving southeasterly storm has deposited about four inches of damp snow on toe ground and has been the cause of a temporary suspension of business. Work on the asylum building will resume vigorously as soon as the weather will permit. The basement is now complete and ready for the brick, Norfolk will experience a building boom this season of no mean dimen sions, comprising several business blocks,

The "bad lands" of Dakota are getting quite an extensive reputation on account of its mineral springs and waters. They are reached in a drive of about seventy miles from Rapid City, and among them are several springs that contain a solution of silicic (sel-is-ick) acid. Any organic matter that comes in contact with this water will, as fast

as decomposition progresses, be supplanted by a flinty substance known as silicie acid in a crystalized form. form. This process istermed "petrifaction." Two Pennsylvania Bank Clerks Embezzle \$60,000.

PITTSBURG, March 5.-Thomas Christie and Horatio King, clerks in the First National bank of Bradford, Pa., have been arrested on the charge of embezzling \$60,000 from that institution, most of which was lost in oil speculation. They went into collusion and invented an ingenious system of cooking the accounts, whereby drafts were issued on fictitious parties and credits made to appear nuch smaller than they really were. This has been kept up since last July. P. H. Huntley, an oil broker, has also been arrested n the charge of aiding King and Christie in swindling the bank.

Caressed With a Coarse Collar.

WINNEMUCO, Nev., March 5 .- Clarence Gray, alias Isham Collins, who murdered'R. R. Scott while attempting to rob the latter's store at Paradise, Christmas eve, 1884, was hanged here to-day. Gray has been feigning insanity for a month past, but on being in-formed last night there was no hope for him. he suddenly resumed his natural state of mind, walked upon the scatfold with a steady step, made a speech denying his guilt, and five minutes after the drop fell he was proounced dead. His neck was broken by the fall.

Forfeited His Bond.

NEW YORK, March 5 .- William S. Rob erts, who was president of the Bank of Augusta, Ga., which failed in January, 1885, and who was extradited in December last was called to-day to plead to an indictment charging him with having hypothecated \$145,000 worth of bonds which had been placed in his custody as president of the bank. When defendant's name was called there wa no response, and the court ordered his bail bond of \$10,000 forfeited. His bondsman was John R. Maxwell, vice president of the Long Island Railroad company.

Was Captain Crawford Murdered?

NEW YORK, March 5 .- The Army and Navy Journal will to-morrow publish a long letter, dated Fort Grant, Arizona, in which the statement is made that the killing of Captain Crawford and the wounding of his men by Mezican soldiers on January 11 was premeditated; that the Mexicans did not mistake the federal soldiers for Indians, but were fully aware as to their identity. The letter relates the details of the affair in a way as to make its deductions entirely, plau

Seeking a Settlement.

NEW YORK, March 5 .- It is said this evening that the presidents of the Atchison, Topeka & Santa Fe and Chicago, Burlington & Quincy roads have sent letters to Huntington looking to settlement of the transconti-nental war. Commissioner Fink, it is also asserted, has addressed himself to Hunting-ton for the purpose of adjustment of the transcontinental matter. Railway men are looking for further cuts to-morrow.

Brevities.

The Peakes Sisters Life Boat Lodge I. G. T. will repeat their entertainment at North Presbyterian church next Tuesday night. The programme will be entirely new.

Passengers from the east say that fifty-two miles east of Conneil Bluffs there is no snow, and that it is only about twenty miles cast of that place that the fall is at all heavy. John and George Laud, two brothers of

German descent, became involved in a drunken quarrel at the United States hotel last evening and were hauled to the central police station in the patrol wagon.

The North Omaha cornet band with give a masquerade party at Crounse's hall on Monday evening, March 8. Grand preparations are being made for the event, and it will undoubtedly prove to be highly enjoyable. Frank Thornton, a colored man 21 years of age, died at the poor house yes-terday. He is believed to have relatives

or friends in this city, who are requested to take charge of the body at once. Oth-erwise it will be interred in the potter's field to-day.

THE HYMENOMETER. This wonderful little machine having in some unaccountable way managed 'o endure a three days' stay in the Bluffs, during which time it threw light upon a number of matri-monial mysteries, has been brought back to Omaha. Once more it proceeds to its task of solving the hymenial enigmas which are to be found "here and there and everywhere." Aha! the hands are galloping over the sur-face of the phosphorescent dial. Their

That, the hands are grouping over the soft face of the phosphorescent dial. Their diamond-tipped ends quiver glisteningly in the effugence of the mellow electric globe which melts the darkness of the editorial sanctum into daylight. The hands have stopped. The observer glances at the dial, and he can not fail to no-fice that two pames are linked suggestively

tice that two names are linked suggestively together; one that of a clerk in the office of the auditor of the B, & M., the other that of a lady—a pretty and vivacious blonde, resi-dent on North Twentieth street. From the agitated appearance of the indices, it would seem that the crisis was near at hand.

Scarcely has the revelation of this bit of news fully impressed itself on the observer's mind when the hands again shift about. This time they are seen to pause in rest be

fore the names of a young man whose field of labor lies in the office of the general super-intendent of the Union Pacific and a young lady hving in St. Paul. The tale of love is told anew. This time the "principals in the plot" are a young gentleman who shuffles mail in the postofice, and a young lady resident in Denison, Iowa. The gentleman in question is even now visit-ing at the home of his inamorata, exchanging words of wromise for ferms of endearment words of promise for terms of endearment.

AMUSEMENTS.

Miss Jeffreys Lewis as Stephaine De Mohrwart in "Forget-Me-Not."

Miss Jeffreys Lewis appeared at the Boyd last night, for the first time in Omaha, in "Forget-Me-Not," a powerful drama from the pen of Herman C. Merivale, the author of "Our Joan."

The play itself is ably put together, observes all the unities, has an easy action, and besides being full of interesting sitnations has an intensely thrilling denouement. The principal character in the play is the French adventuress whose

victums are fated to ever remember her, and whose favorite flowers, strange to say, are those which serve so often in say, are mose which serve so orted in token of kind remembrance, the "forget-me-not." The strange career of this woman is depicted by Miss Jef-freys Lewis in a manner which makes

every outline, every shade in the portraiture distinctly joint ined to the most casual observer. The cruel, vindictive, fiendish passions of this woman, who

moves but to crush, are painted by the master artist in such a manner as to make the picture indelibly stamped upon the mind of the person who sees it. So perfect indeed is her work that it is well nigh impossible to criticise it at any point

Jeffreys Lewis possesses the power of gliding gracefully from one situation to another, and in each one her varied powers finding full scope for their own peculiar action. Now light and careless, now graceful and fascinating, now tiger-like—well nigh devilish in her passion, she is always

her passion, she is always exquisite, superb, unsurpassed in every emotion. In the final scene, where at last broken down in spirit, she yields to the idea that the avenger in the form of death is upon her track and that her life is the measure of explation for her career of crime—she rises to a height of acting which is the personification of ghastly horror. This was a fitting and triumphant

Death of Mrs. Peycke. Mrs. Peycke, wife of Ernest Peycke of

the well known commission firm, died yesterday about noon after an illness of only a few days. The news of her sudden death was a great shock to her many friends, a large number of whom were unaware that she was dangerously sick. Besides her husband she leaves a daughter 7 years of age, who, in their bereavement, have the sympathy of all who know them. Mrs. Peycke has resided in Omaha for many years, this city being her home at the time of her marriage. was 28 years of age. The funeral will be held on Sunday afternoon at 2 o'clock from the family residence, 1924 Douglas street.

A Card.

Editor BEE: Please allow me to correct a notice given me in all kindness by you in society events last week, saying 'Mrs. C. S. Soule gave a progressive eucher party to some of the Life Boat lodge members." - In justice to myself, and to quiet the narrow-minded gossips of North Omaha, I wish to say I never gave invitations for a progressive eacher or eard party in my life. Friday Evening, March 5. In spite of the heavy snow and unfavor-able weather considerable business was trans-acted. There was a very fair demand for choice stock of all kinds but the offerings were light. The receipts thus far this week show an increase in cattle compared with last week and a beavy decrease in hogs. The receipts of hogs to-day owing to the heavy snow fall, were lighter than at any time since the ice block-ade in January. When the market closed to-day there was only one load of skips and a load of cows left ansold in the yards. The cattle market continues about steady at yesterfay's quotations.
