The forest products of the United States are worth a day not less than \$100,000,000, which is a good deal more than the value of the metal and mineral output of all our mines of coal, gold, silver, copper iron and lead, all put together.

The Mississippi legislature has passed an act taxing whisky distillers, but according to a recent United States supreme court decision such a law is unconstitutional.

Under a recent decision of the supreme court, United States commissioners are permitted to charge docket fees.

Kimball, Neb., March 30.—[Correspondence of the BEE.]—The year 1886 will see the greatest immigration to all parts of western Nebraska ever known in the history of the state.

It has a beautiful location on the south slope of the valley of the Lodge Pole creek, a never failing mountain stream which flows through the county from west to east.
