CHICAGO GRAIN MARKET.

Chicago, April 22.—(Special Telegram.)—Wheat—Wheat was active and lower, and the entire speculative market sympathized to a greater or less extent. The crowd was large, and as a good many of the scalping element were anxious to close up their trades, a large quantity of grain came out for which there was feverish buying as expected. Disquieting strike news at home and in New York had a decided weakening effect on the tone of the general market. The burning of Andrews furniture factory and other acts of violence were quoted as likely to drive capital from the market, paralyze business and cause widespread depression and distress, compared with the hard times of the past two or three years would seem a period of boundless prosperity. The wretchedness of evil times and cheap prices found audiences, and a sense of timidity stole over investors. The disposition to buy of wheat for cash became more pronounced and the weakness in the market more apparent. Wheat opened 1/2c above the last quotations yesterday, and for the first half hour or such a matter the tone of the market was strong and prices advanced 1/2c. Cows were firm and an advance in spring wheat was reported. As an offset consols were higher, and news from the winter wheat fields was confirmation of previous reports of fine prospects of a bounteous crop. The conditions were such as to inspire in speculative holders a desire to take in their profits, and the market did not absorb the offerings and stand up under the load. The decline did not stop till May wheat reached 80c and June 81 1/2c, a drop from the best figures of the morning of 1/2c. The downward movement was not characterized by hysterical selling, but rather by a steady and becoming deliberation. For the last hour the market was sluggish and was left entirely to the manipulation of scalpers. It hardened slightly, and the close at 1 o'clock was 1/2c above low water mark.

Corn—Corn was 1/2c lower, and the market was characterized by dullness. The trade is waiting to see how readily property that is moving eastward will be absorbed before taking a decisive plant. The stocks along the railroads are known to be large, and owners are in a measure undetermined as to the future. Oats—Oats were a shade higher. Provisions—Provisions were very dull today and easier. Trade in futures was almost at a standstill. Afternoon Board—The afternoon markets were nervous, and there was little doing. Some war news gave wheat a slight rise, and the prospects of rioting in the Lake Shore yards gave traders enough to talk about. Little else was thought of. Wheat closed 1/2c higher than at 1 o'clock. Oats was slightly higher. 2:40 p. m.—Puts on May wheat, 79 1/2c; calls, 81 1/2c.

Chandler-Brown Co's Report. The following report is furnished by Chandler Brown Co., of Chicago and Milwaukee. Wheat opened easy at 80 1/2c for May, advanced to 80 1/2c, and then to 80 1/2c, and closed at 80 1/2c at 1 p. m. Trading was light on account of to-morrow being a holiday. No new features were developed, and the situation remains the same. Think purchases on breaks will yield profits.

Corn and oats quiet and firm. Provisions easy 2:30 p. m. Everything steady and unchanged.

CHICAGO LIVE STOCK.

Chicago, April 22.—(Special Telegram.)—CATTLE—The receipts today were quite liberal the offerings including thirty-five cars of corn fed Texans and eighteen cars of slop fed cattle. There were not very many prairie fat cattle, but the offerings included a great many good fat heifers, good enough for any market in the world. The demand was very weak. Buyers wanted a few of the choicest cattle of all weights if they could get them about the lower, while the general run of stock did not seem to be wanted except at much reduced prices. Bids on common to medium cattle in many cases were 15c to 20c lower. Sales were made at about 10c to 12c lower than yesterday, and prices were fully 25c lower than Monday morning. Shipping steers, 95c to 1.00; mixed, 85c to 90c; cows, 75c to 80c; calves, 40c to 45c; hogs, 45c to 50c; sheep, 25c to 30c.

NEW YORK. April 22.—Money—On call continues abundant at 2 1/2c per cent. PRIME MERCANTILE PAPER—4 1/2c per cent. SIX MONTHS—4 1/2c per cent. GOVERNMENTS—Very dull but steady. STOCKS—Stocks were extremely dull. Prices were about steady during the forenoon, yielding slightly after midday on a little increase in business, and again became steady late in the day and closed very dull at 1/2c to 3/4c lower than last evening.
